## Welcome!

Dear Teachers,

That's the title you'll have soon, and no title comes with more honor, respect and responsibility. No matter what problems society may have or what challenges educators face, your students will know you appreciate who they are and will glimpse who they can become as they see themselves through your eyes.

I believe teachers have an unrivaled opportunity to change lives. From the material you teach to the way you model a Christ-like life, you will have a profound effect on your students. There will be times when it does not feel like you're getting through to them. There will be times when great victories will be followed 15 minutes later with great disappointments, but rest assured that with your hard work and with the love of Jesus, you will succeed.

One of the clarifying moments in life comes when someone tells you that your class had a positive effect on his or her life, and you remember the student as someone who sat quietly in class giving no indication that something important was happening. It's a lesson for teachers. Students are always watching, and long-term blessings are not always evident immediately.

The fact that you are reading this handbook signifies both your dedication (no one reads handbooks for fun) and your progression into the Teacher Education Program at Ouachita. With help from your faculty and fellow students, you will develop the knowledge, skills and outlook to complete the program and enter your first teaching job with confidence. Good teaching is an art and a science, and you will develop both sides of that equation as you progress.

I am the dean, and I'm grateful for the opportunity to work with you. I am a graduate of this program and proud to be from a family of teachers. I believe teaching is a calling, and I am glad you've heard the call.

Sincerely,

Dr. Jeffrey R. Root Dean, Michael D. Huckabee School of Education Ouachita Baptist University

## The Teacher Education Program

The Teacher Education Program at Ouachita Baptist University has the responsibility for planning and conducting a program for prospective teachers that includes content knowledge and pedagogy uniting theory and practices. The Department of Education serves as the administrative unit for the program. The Teacher Education Council has representatives from each of the approved licensure areas. The Director of Teacher Education is the co-Chair of the TEC and the School of Education dean share the responsibility of communicating information from the Arkansas Department of Education, Division of Elementary and Secondary Education policies, and procedures for CAEP accreditation.

## The Arkansas Department of Education Division of Elementary and Secondary Education

The role of the Division of Elementary and Secondary Education is to create policies based on legislative mandates and to provide leadership to institutions involved in teacher education. The Office of Teacher Licensure interprets the regulations mandated by the State Board of Education. Our Teacher education preparation programs are continually monitored to ensure that changes in state licensure requirements are met and that candidates are prepared for the ever-changing role of the professional teacher. Licensure information is located on the department's web page: http://dese.ade.arkansas.gov/

## Vision

Our vision is to equip and empower our candidates to become teachers like the Master.

## Ouachita Baptist University Teacher Education

## Mission

Our mission is to provide the curriculum and the environment that will prepare future teachers who:

- ➤ Are student-centered and see teaching as ministry;
- > Possess the knowledge, skills, and dispositions for effectively educating all students;
- > Are life-long learners involved in their disciplines and professional development.

At OBU this happens in a Christ-Centered environment.

## Ouachita Baptist University Feacher Education

## Statement of Belief

#### We believe OBU Teacher Education candidates:

- Love students and see teaching as ministry;
- **▶** Have high expectations and want to serve as appropriate role models for their students;
- > Are enthusiastic about their teaching fields, subjects, and methodologies; and possess the necessary human relation skills and personal dispositions to be effective in workplaces with diversity;
- Are life-long learners through involvement in their disciplines and professional development.

#### We believe the OBU Teacher Education curriculum:

- > Develops in each candidate general knowledge, technological knowledge, and content knowledge in their chosen discipline;
- > Equips each candidate through knowledge of educational research to plan curriculum appropriate for students, content, and course objectives;
- > Equips each candidate with the skills to integrate his/her discipline with other disciplines.

#### We believe the OBU Teacher Education Clinical Experiences:

- Provide practical applications for skills and techniques learned throughout the Teacher Education Program;
- > Are provided in the University classrooms and in the public-school classrooms with model cooperating teachers to give candidates a realistic view of the teaching profession;
- > Demonstrate decision-making skills based on an understanding of human development and learning theory to meet the individual needs and cultural background of all students.

## Ouachita Baptist University 2022-2023

## **Teacher Education Advisory Board**

The Teacher Education Advisory Board is composed of area administrators and teachers of schools in which candidates are regularly placed for field experience and student teaching. Members meet during the year to strengthen our partnership, assess concerns in education, and make suggestions to the Ouachita Teacher Education Program.

## The purpose of the Board is to:

- Facilitate communication between OBU and public-school partners
- Provide specific feedback about partnerships as to what is working and what could be strengthened
- Provide a venue for discussing and exploring ways to further enhance the partnership experiences
- Share requirements from the State of Arkansas and accrediting bodies
- Share goals and processes for achieving excellence in education in our community at all levels.

### **Endorsements and Minors**

Education majors do not need an endorsement or a minor to meet the hour requirements for graduation. However, some candidates desire to add to their degrees and areas of licensure.

The endorsements and minors available in the School of Education are below:

### **Elementary Education 3-4-year-old Endorsement**

Requirements: Total of 12 hours

ECED 2103 Foundations of Early Childhood Education (Fall only)

ECED 3123 Techniques & Assessment for Early Childhood (Spring only)

ECED 4033 Curriculum Principles for Early Childhood Classrooms (Fall only)

ECED 4043 Practicum in Early Childhood Education and Classroom Management (Spring only)

### **English as a Second Language Endorsement**

Note: 2043, 3043, 3053, 4043 should be taken in series if a student wishes to be qualified to teach English as a Second Language. 3053 is a prerequisite for 4043, both of which must be the final two courses in sequence.

2043. Teaching Students from Multilingual and Diverse Backgrounds.

Online Fall 1 term. Also listed as EDFN 2043 as a Face to Face course Spring term.

3043. Second Language Acquisition.

Online Fall 2 term. Also listed as EDFN 3043 and MSSN 3043.

3053. Methods of Teaching English as a Second Language.

Online Spring 1 term. Also listed as EDFN 3053 and MSSN 3053. Prerequisites: INTL 2043 and INTL 3043.

4043. Second Language Assessment.

Online Spring 2 term. Also listed as EDFN 4043. Prerequisites: INTL 2043 and INTL 3043.

### **GATE 1- Admission to Teacher Education**

# Gate 1

Admission To Teacher Education

and

Progress
Through the Program

# GATE 1 ADMISSION TO TEACHER EDUCATION AND PROGRESS THROUGH THE PROGRAM

High standards for entering and completing the Teacher Education Program are maintained. The Director of Teacher Education and Office of the Dean of the Michael D. Huckabee School of Education begin and continue the development of the record of each applicant based on data collected throughout the participation of a candidate in the teacher education program.

The pre-service candidate must **successfully pass through four gates** in order to graduate and qualify for an initial teaching license. The data collected prior to each gate is presented to the Teacher Education Council. The Council approves, disapproves, or postpones admission of candidates to the appropriate gate.

A candidate who is denied admission to the next gate may apply again after completing and removing the deficiencies stated by the Teacher Education Council.

Candidates must be admitted to the Teacher Education Program and meet criteria at each gate to take additional professional courses and to remain in the program. The application for Admission to Teacher Education, Gate 1, and the recommendation form are on the next pages followed by the other three gates and the criteria for each to complete the program.

## Gate 1 (Generally during the Sophomore Year)

### **Admission Requirements for Teacher Education**

Candidates must have and maintain 2.7 cumulative GPA on a 4.0 scale for admission and must maintain no grade lower than a "C" in the professional education courses.

NOTE: When the application is complete, the Office of Student Services will be contacted for concerns from their office, and the Teacher Education Council has agreed to admit the candidate to the Teacher Education program, the candidate will receive a letter from the Director of Teacher Education.

#### **Field Experiences**

An essential component of the Teacher Education Program is the application of knowledge, research, and theory in public school classrooms. The program provides three levels of field experiences with increasing complexity and participation.

**Field Experience** in schools begins in the EDFN 1002 Introduction to Education with approximately **5** hours observations during the semester. In EDFN 2003 Foundations of Education course, each candidate observes approximately **15** hours during the semester in classrooms in at least three developmental levels. Candidates write reflections about their observations as a means of processing what they are learning.

As you continue through the program you will have other field experiences: For example, in ECED 4043 Practicum in Elementary Education and Classroom Management, SCED 4523 Practicum in Education Grades 7-12 and MSED 4523 Practicum in Education Grades 4-8 each have 50 hours. Candidates in these courses are assigned to a teacher for approximately five hours each week. A variety of small and large group teaching opportunities are provided throughout the experience.

In addition to the opportunities described above, many courses have specific field experiences that are a part of the curriculum. These range from one-on-one and small-group instruction to team-teaching with whole groups of students. Some classes present Family Night activities in the local schools. Some assist with volunteer opportunities such as Special Olympics, as well as assist in community and church functions for children and youth.

Through the field experience opportunities, candidates begin to reflect on their own teaching and professional practices. Reflections at this level represent the ability of candidates to analyze the lesson, and to assess the degree to which students have mastered the content. Candidates learn to suggest improvements or modifications that would improve student learning.

The Professional Semester with the Student Teaching experience includes placements in the public schools and the Student Teaching Seminar course. During the semester, each candidate completes a minimum of two placements of approximately equal length covering the range of ages and grades they will be licensed to teach. Candidates adhere to the schedule of the cooperating teacher, attend faculty meetings, staff development workshops, parent-teacher conferences, and other professional assignments. At this level, reflections provide the framework for continuous growth and development. They address all aspects of instruction and professional responsibility. The ability of candidates to identify the needs for change in disposition, or the need for acquisition of knowledge or skill, is assessed during the student teaching semester.

#### **Dress Code for All Field Experiences**

While the <u>university classroom</u> environment allows pre-service teachers to dress with flexibility, <u>the public-school classroom environment demands that candidates dress professionally</u>. Presenting oneself as an authority figure in the classroom requires confidence, assertiveness, and clothing that can distinguish pre-service teachers/candidates from the students with whom they work. The following guidelines for appropriate appearance in the public school are **drawn from local school dress codes and expectations. The dress code is in effect and applicable to all field experiences.**

# Information

For the Professional Semester with Student Teaching

# Upon Admission to the Professional Semester, Candidates will be placed for their student teaching in an area school district.

#### THE PROFESSIONAL SEMESTER

#### **Student Teaching**

The Professional Semester includes two school placements for student teaching and one additional course, EDFN 4403 Student Teaching Seminar.

□ EDFN 4403 Student Teaching Seminar (3 hours) – This is a course designed to integrate the Interdisciplinary Studies with the professional course of study. Candidates will be introduced to models of serving learning and action research. In addition, case study-based learning that examines problems in education as well as instruction in the policies and procedures related to student teaching. Legal issues for classroom teachers will be discussed. Candidates will research a legal issue and write a paper as part of the course.

Candidates complete two placements of approximately equal length covering the range of ages and grades/subjects they will be licensed to teach. Candidates are not to be enrolled in any other courses during the Professional Semester other than the co-requisite listed above. They may not be working on uncompleted correspondence courses, nor may begin such courses during the semester. Student Teaching is considered a full-time commitment.

Candidates must also submit to and clear a criminal background, FBI, and Child Maltreatment checks. Dawson Educational Cooperative will conduct the fingerprinting the semester *prior* to the student teaching semester.

#### STUDENT TEACHING

#### **Placement Procedures**

On the application for the Professional Semester with Student Teaching, candidates indicate their first, second, and third choices for placement. The Director of Student Teaching will compile these choices for all applicants. Placement letters will be sent to the first choice whenever possible. Using the criteria provided and the input from the university, the school district will place the candidates with the cooperating teacher. If a district is unable to place a student teacher, the process will be repeated with the next choice of districts. Candidates are not to contact prospective cooperating teachers in an effort to secure their own placements.

Placements are made with the following criteria in mind:

- □ Each candidate will be placed in the public school which offers the best learning environment according to these criteria:
  - o Knowledge of the cooperating school, its philosophies and practices;
  - Proximity of the requested placement to other student teachers; (When possible, two or more candidates will be placed in the same school in order to facilitate the building of a supportive network of peers.)
  - Where you do <u>not</u> have a spouse or other family member(s) employed in the same building as your student teaching request;
  - o Availability of a university supervisor to visit the requested site.
- □ Candidates will be placed in one of the three school systems requested on the application without further consultation, however if none of these are available, candidates will be consulted.
- □ Assignments within school systems will be requested by level, as opposed to specific grade or teacher. (i.e. elementary, middle school, or secondary subject area.)
- Assignment of candidates within the school system is made by the cooperating school administrator and the Director of Student Teaching using the established criteria.
- □ Assignments may be changed when unexpected hardships occur. Evidence of such hardships should be presented in writing to the Director of Teacher Education for consideration by the Teacher Education Council and Director of Student Teaching.

#### EXCEPTIONS TO PLACEMENT PROCEDURES

There may be times that candidates need to be placed in schools other than those named on the Professional Semester application. In those cases, the candidate may write a letter to the Director of Teacher Education and the Teacher Education Council to request an exception. The letter should detail the exception being requested, as well as any information that would be helpful to the Council in understanding the unusual circumstances that necessitate the variation from the policy. Candidates will be notified of the decision of the Council. Additional fees may be needed to help defray costs if the change is approved.

#### **Cooperating Teacher Criteria**

#### CRITERIA FOR SELECTING COOPERATING TEACHERS

#### The following criteria are to be met in selecting Cooperating Teachers:

☐ Teacher is certified in the field in which he/she is teaching;
☐ Teacher has three years of teaching experience (strongly preferred);
☐ Teacher has participated in and demonstrates the competencies presented in TESS training;
☐ Teacher demonstrates current best practices in the classroom;
☐ Teacher is willing to observe the Student Teacher and provide feedback that will assist in growth
and improvement.

While there are no perfect classrooms, Cooperating Teachers do serve as models for pre-service teachers in instruction, classroom management, and other areas of professional life. As candidates observe these aspects of teaching, they are also encouraged to develop their own style with the support and advice of the Cooperating Teacher and University Supervisor. Ultimately, however, candidates are asked to respect the authority and responsibility of the teacher and other school personnel in determining what best meets the learning needs of the students. In very few situations, student teachers will be changed to a different placement in order to provide the appropriate environment for student teaching. Such a decision will be made in consultation with the public school.

## GUIDELINES CONCERNING THE STUDENT TEACHING ONCE PLACEMENTS ARE SECURED.

Student Teachers are required to complete the required days of student teaching. Candidates should be absent only for emergencies. The candidate is responsible for reporting absences to (1) the University Supervisor, (2) the cooperating teacher, and (3) the Office of the Principal. Absenteeism beyond the number of days allowed will require the candidate to (1) receive an "I" (incomplete) in student teaching and (2) to complete make-up days. Absences will be recorded on the Student Teaching Absence Documentation form provided and submitted to the Director of Student Teaching.

#### SCHEDULE FOR STUDENT TEACHERS

Student Teachers are expected to follow the schedule of the cooperating school to which they are assigned. This includes Professional Development, Thanksgiving Holiday, Spring Break, etc.

#### SCHOOL DAY HOURS AND OTHER RESPONSIBILITIES

Generally, the school day starts at 7:55 a.m. and ends at 3:30 p.m. The daily schedules may vary from school to school. Candidates are expected to follow the schedule of the cooperating teacher. This includes afterschool meetings. The University Supervisor must approve any change in the daily schedule.

#### CLASSROOM RESPONSIBILITIES – GRADUALLY INCREASE

Candidates are expected to begin the Student Teacher experience with a few days of observation so they may learn the schedule and procedures used in the assigned classroom. During this time, candidates may call roll, distribute papers, review assignments and perform other basic classroom tasks. The candidates should focus on learning names of students and appropriate disciplinary procedures.

Beginning in Week Two, the candidate should be given one subject or class to prepare, instruct and evaluate. In Week Three, another class or subject should be added. Additional classes or subjects should be added until the candidate has gradually taken the full responsibility for the classroom preparation, instruction and assessment. It is recommended that the cooperating teacher provide the candidate with a calendar showing when the various absences will be added to the schedule. Most candidates will have at least one week of "solo" teaching per rotation.

#### **CLASSROOM OBSERVATION**

Student Teachers are to request permission to observe in several different classrooms during the professional semester experience. The cooperating teacher and/or principal may develop a classroom visitation schedule. Student Teachers are expected to take advantage of opportunities to learn through observation.

#### STAFF DEVELOPMENT

Student Teachers are expected to participate in all staff development programs, parent-teacher conferences, and other professional activities of the school.

#### SUBSTITUTE TEACHING

Student Teachers are not to substitute teach due to liability concerns.

#### DRESS CODE – AS DURING FIELD EXPERIENCES

Reminder: Candidates are expected to dress professionally during the Student Teaching Semester. Wind suits, sweats, shorts and jeans are generally not acceptable. Many schools have spirit days or casual days when jeans or other casual attire are acceptable. Remember that clothing is one way to communicate the role of the individual to students. If there are piercings, note that tongue, nose, eyebrow, and navel rings are to be removed before going to school or school events. If there are Tattoos, they are to be covered. See "Field Experience Dress Code" page 74.

#### PROFESSIONAL BEHAVIOR

Candidates are expected to demonstrate professionalism in their conversations regarding their classroom experiences. When people ask about the student teaching semester, be sure that no inappropriate comments are made about a cooperating teacher, students or parents. If a candidate needs to discuss problems with the student teaching experience, an appointment with the University Supervisor, the Director of Student Teaching, academic advisor, or Director of Teacher Education should be scheduled. Candidates are asked to analyze and reflect on experiences. This activity is not to be a "gripe" session.

Candidates are to sit and stand where, and in a manner, that communicates professionalism.

As candidates develop relationships with students, remember to keep an appropriate "professional distance." It is <u>strongly</u> recommended that candidates not give home phone numbers and e-mail addresses to students, nor share *social media* with students. All communication with students/<u>minors</u> must be of the highest professional caliber. Do not use e-mail or the phone to discuss other pupils or teachers with a student.

In many of the recent cases of sexual relations between students and teachers, inappropriate phone calls and e-mails were the beginnings of the relationships. Often this contact begins innocently enough and then becomes out of control. Know the limits and stick to them. Inappropriate communication will result in removal from the internship experience.

Note: Facebook, Twitter, Instagram and any other websites or blogs in which you participate should be reviewed for any unprofessional content. Be especially aware of content that represents a violation of University policy or the policy of the school district to which you are assigned. Candidates who post unprofessional information or information in violation of University or school policy will be removed from the student teaching experience.

Remember: You are also a mandated reporter for abuse and/or neglect. Refer to the mandated Child Maltreatment Training Video.

#### SUPERVISION AND EVALUATION

The Director of Student Teaching will assign a University Supervisor to each candidate. The Supervisor will make a minimum of four official observation visits. During each of these visits, the Supervisor will watch the lesson. A post observation conference will be conducted in which the candidate will reflect on the lesson. The conference will also serve as the opportunity for the candidate and supervisor to assess the progress of the candidate. While the conference will often include the cooperating teacher, the supervisor may choose to talk with the teacher in a separate meeting. At least one of the observations might be recorded (video camera). One or more visits will be made by a university faculty member in the content area.

NOTE: The cooperating teachers complete two official observations for each rotation.

\*\*Candidates must also submit to and clear a criminal background check. This includes a state police check, FBI check and Child Maltreatment Central Registry check. The sheriff and deputies will conduct the fingerprinting at the Dawson Coop in Arkadelphia.

## Ouachita Baptist University Teacher Education

#### **Teacher Work Sample Rubric**

Name	Date
Major	Semester

The purpose of this assignment is for candidates to demonstrate their ability to positively impact K-12 learning and development through designing a Teacher Work Sample during their solo week of student teaching. Candidates must score 75% on the TWS for admission into Gate 4 – Program/Licensure Requirements.

Candidates are to choose and plan a mini-unit that is appropriate for the developmental level of their students during their student teaching placements and that demonstrates content knowledge. They complete a pre-assessment, teach the lessons for the unit as planned, and administer a post-assessment to measure the learning of the students. The candidates reflect on the effectiveness of their lesson plans and their teaching. Then candidates design further instruction based on data from assessments and reflections. They compile the lesson plans, student samples used for assessment, reflection, and redesigned lesson plans into a folder and submit the Teacher Work Sample (TWS) packet to the course instructor for EDFN 4403 who will evaluate the teacher work sample using the rubric given below. Candidates are to include the TWS in their Post Student Teaching Portfolio Presentation and Interview.

Circle the number of the evaluation for each category.

Contextual Factors The candidate uses information about the learning-teaching context and student individual differences to set learning goals and plan instruction and assessment.	Candidate displays a lack of, or minimal understanding of the characteristics of the community, school, classroom, and of individual students that may affect learning. Candidate provides few or no implications for instruction and assessment based on student's individual differences.	Candidate displays a general understanding of the characteristics of the community, school, classroom, and of individual students that may affect learning. Candidate provides general implications for instruction and assessment based on student's individual differences.	Candidate displays a comprehensive understanding of the characteristics of the community, school, classroom, and of individual students that may affect learning. Candidate provides specific implications for instruction and assessment based on student's individual differences.

Learning Goals The candidate sets significant, challenging, varied, and appropriate learning goals.	Learning goals are stated as activities rather than learning outcomes and reflect only one type of learning. Learning goals are developmentally inappropriate and lack alignment to student's prior knowledge and to state standards.	Learning goals are generally stated as learning outcomes (objectives), but fail to reflect a variety of learning styles and/or exclude higher order thinking skills. Learning goals are less than appropriate and fail to align with assessment of student's prior knowledge and/or to state standards.	Learning goals are specifically stated as learning outcomes (objectives), reflect several types of learning and address higher order thinking skills. Learning goals are developmentally appropriate and aligned with assessment of student's prior knowledge and to state standards.	Standards
	1	2	3	
Assessment Plan The candidate uses multiple assessment modes and approaches aligned with learning goals to assess student learning before, during, and after instruction.	Pre-assessment and post assessment are unclear or alignment to each other and learning goals is lacking. Method of assessment is unclear and lacks alignment to learning goals. One form of assessment is planned throughout the instructional sequence.	Pre-assessment and post assessment are evident and somewhat aligned to each other and to learning goals. Some learning goals are assessed; assessment criteria are unclear and are not aligned with learning goals in content and complexity. Multiple forms of assessment are planned but none are performance based.	Pre-assessment and post assessment are evident and fully aligned to each other and to learning goals. Each learning goal is assessed; assessment criteria are clear and are aligned with learning goals in content and complexity. Multiple forms of valid assessment are planned throughout the instructional sequence.	

	1	2	3	
Design for Instruction The candidate designs instruction for specific learning goals, student characteristics and needs, and learning contexts.	Few or no lessons, activities, assignments, and resources are linked to learning goals. Content appears to be inaccurate and is disorganized within the unit of instruction. Little variety of instructional procedures exists with no attention given to student's assessed prior knowledge. Technology is not used or is used inappropriately.	Some lessons, activities, assignments, and resources are linked to learning goals. Content appears to be accurate but lacks organization within the unit of instruction. A few instructional procedures, including an ineffective use of technology, are used with attention to student's assessed prior knowledge.	All lessons, activities, assignments, and resources are explicitly linked to learning goals. Content appears to be accurate and logically organized within the unit of instruction. A variety of instructional procedures, including effective use of technology, are used with attention to student's assessed prior knowledge.	
Instructional Decision- Making The candidate uses regular and systematic evaluations of student learning to make instructional decisions.	Instructional decisions are inappropriate with little attention given to individualization based on student's needs and instructional learning goals. Candidate makes no modifications to instructional practice or assessments.	Some instructional decisions are pedagogically sound with attention to individualization based on student's needs and instructional learning goals. A vague explanation is included regarding why/how noted modifications would improve student progress.	Most instructional decisions are pedagogically sound with attention to individualization based on student's needs and instructional learning goals. An explanation is included regarding why/how noted modifications would improve student progress.	
Analysis of Student Learning The candidate uses assessment data to profile student learning and communicate information about student progress and achievement.	Presentation of assessment data for pre and post assessment is unclear and difficult to understand. Analysis is not aligned with learning goals and fails to provide a profile of student learning for class and/or individuals. Conclusions are missing or are unsupported by the data.	Presentation of assessment data for pre and post assessment is somewhat clear and is understandable. Analysis is aligned with learning goals and provides a profile of student learning for class and for individuals. Appropriate conclusions are drawn from, but are not fully supported by the data.	Presentation of assessment data for formal or informal pre and post assessment is clear and easy to understand. Analysis is fully aligned with learning goals and provides a comprehensive profile of student learning for class and for individuals. Appropriate conclusions are drawn from the data.

#### **Student Teacher Evaluation Form**

Candidate:	Cooperating Teacher:	Date:
------------	----------------------	-------

The purpose of the Student Teaching Evaluation Form is to become familiar with the criteria used to evaluate effective teaching practices in Arkansas. A candidate is expected to achieve a **minimum** rating of **EFFECTIVE** in each Domain by the completion of student teaching.

	Domain 1: Planning and Preparation							
Criteria	Evidence	Ineffective (1)	Progressing (2)	Effective (3)	Highly Effective (4)			
1a: Demonstrating Knowledge of Content and Pedagogy		In planning and practice, teacher makes content errors or does not correct errors made by students. Teacher's plans and practice display little understanding of Prerequisite relationships important to student learning of the content. Teacher displays little or no understanding of the range of pedagogical approaches suitable to student learning of the content.	Teacher is familiar with the important concepts in the discipline but displays lack of awareness of how these concepts relate to one another. Teacher's plans and practice indicate some awareness of prerequisite relationships, although such knowledge may be inaccurate or incomplete. Teacher's plans and practice reflect a limited range of pedagogical approaches to the discipline or to the students.	Teacher displays solid knowledge of the important concepts in the discipline and how these relate to one another. Teacher's plans and practice reflect accurate understanding of prerequisite relationships among topics and concepts. Teacher's plans and practice reflect familiarity with a wide range of effective pedagogical approaches in the discipline.	Teacher displays extensive knowledge of the important concepts in the discipline and how these relate both to one another and to other disciplines. Teacher's plans and practice reflect understanding of prerequisite relationships among topics and concepts and a link to necessary cognitive structures by students to ensure understanding. Teacher's plans and practice reflect familiarity with a wide range of effective pedagogical approaches in the discipline, anticipating student misconceptions.			
1b: Demonstrating Knowledge of Students		Teacher demonstrates little or no understanding of how students learn, and little knowledge of students' backgrounds, cultures, skills, language proficiency, interests, and special needs, and does not seek such understanding.	Teacher indicates the importance of understanding how students learn and the students' backgrounds, cultures, skills, language proficiency, interests, and special needs, and attains this knowledge for the class as a whole.	Teacher understands the active nature of student learning, and attains information about levels of development for groups of students Teacher also purposefully seeks knowledge from several sources of students' backgrounds, cultures, skills, language proficiency, interests, and special needs, and attains this knowledge for groups of students.	Teacher actively seeks knowledge of students' levels of development and their backgrounds, cultures, skills, language proficiency, interests, and special needs from a variety of sources. This information is acquired for individual students.			
1c: Setting Instructional Outcomes		Outcomes represent low expectations for students and lack of rigor, nor do they all reflect important learning in the discipline. Outcomes are stated as activities, rather than as student learning. Outcomes reflect only one type of learning and only one discipline or strand, and are suitable for only some students.	Outcomes represent moderately high expectations and rigor. Some reflect important learning in the discipline, and consist of a combination of outcomes and activities; Outcomes reflect several types of learning, but teacher has made no attempt at coordination or integration. Most of the outcomes are suitable for most of the students in the class based on global assessments of student learning.	Most outcomes represent rigorous and important learning in the discipline. All the instructional outcomes are clear, written in the form of student learning, and suggest viable methods of assessment. Outcomes reflect several different types of learning and opportunities for coordination. Outcomes take into account the varying needs of groups of students.	All outcomes represent rigorous and important learning in the discipline. The outcomes are clear, written in the form of student learning, and permit viable methods of assessment. Outcomes reflect several different types of learning and, where appropriate, represent opportunities for both coordination and integration. Outcomes take into account the varying needs of individual students.			

Domain 1: Planning and Preparation (continued)							
Criteria/Rating	Evidence	Ineffective (1)	Progressing (2)	Effective (3)	Highly Effective (4)		
1d: Demonstrating Knowledge of Resources		Teacher is unaware of resources for classroom use, for expanding one's own knowledge, or for students available through the school or district	Teacher displays basic awareness of resources available for classroom use, for expanding one's own knowledge, and for students through the school, but no knowledge of resources available more broadly.	Teacher displays awareness of resources available for classroom use, for expanding one's own knowledge, and for students through the school or district and external to the school and on the Internet.	Teacher's knowledge of resources for classroom use, for expanding one's own knowledge, and for students is extensive, including those available through the school or district, in the community, through professional organizations, universities, and Internet.		
1e: Designing Coherent Instruction		The series of learning experiences is poorly aligned with the instructional outcomes and does not represent a coherent structure. The activities and are not designed to engage students in active intellectual activity and have unrealistic time allocations. Instructional groups do not support the instructional outcomes and offer no variety.	Some of the learning activities and materials are suitable to the instructional outcomes, and represent a moderate cognitive challenge, but with no differentiation for different students. Instructional groups partially support the instructional outcomes, with an effort at providing some variety. The lesson or unit has a recognizable structure; the progression of activities is uneven, with most time allocations reasonable.	Teacher coordinates knowledge of content, of students, and of resources, to design a series of learning experiences aligned to instructional outcomes and suitable to groups of students. The learning activities have reasonable time allocations; they represent significant cognitive challenge, with some differentiation for different groups of students. The lesson or unit has a clear structure with appropriate and varied use of instructional groups	Plans represent the coordination of indepth content knowledge, understanding of diverse needs of students and available resources (including technology), resulting in a series of learning activities designed to engage students in high-level cognitive activity. These are differentiated, as appropriate, for specific learners. Instructional groups are varied as appropriate, with some opportunity for student choice. The lesson's or unit's structure is clear / allows for different pathways for diverse student needs.		
1f: Designing Student Assessments		Assessment procedures are not congruent with instructional outcomes; the proposed approach contains no criteria or standards. Teacher has no plan to incorporate formative assessment in the lesson or unit, nor any plans to use assessment results in designing future instruction.	Some of the instructional outcomes are assessed through the proposed approach, but others are not.  Assessment criteria and standards have been developed, but they are not clear. Approach to the use of formative assessment is rudimentary, including only some of the instructional outcomes. Teacher intends to use assessment results to plan for future instruction for the class as a whole.	Teacher's plan for student assessment is aligned with the instructional outcomes; assessment methodologies may have been adapted for groups of students.  Assessment criteria and standards are clear. Teacher has a well-developed strategy for using formative assessment and has designed particular approaches to be used. Teacher intends to use assessment results to plan for future instruction for groups of students.	Teacher's plan for student assessment is fully aligned with instructional outcomes, with clear criteria and standards that show evidence of student contribution to their development. Assessment methodologies adapted for individual students, as needed. Approach to using formative assessment is well designed; includes student and teacher use of assessment information. Teacher intends to use assessment results to plan future instruction of individual students.

	Domain 2: Classroom Environment							
Criteria/Rating	Evidence	Ineffective (1)	Progressing (2)	Effective (3)	Highly Effective (4)			
Za: Creating an environment of respect and rapport		Patterns of classroom interactions, both between the teacher and students and among students, are mostly negative, inappropriate, or insensitive to students' ages, cultural backgrounds, and developmental levels. Interactions are characterized by sarcasm, putdowns, or conflict. Teacher does not deal with disrespectful behavior.	Patterns of classroom interactions, both between the teacher and students and among students, are generally appropriate but may reflect occasional inconsistencies, favoritism, and disregard for students' ages, cultures, and developmental levels. Students rarely demonstrate disrespect for one another. Teacher attempts to respond to disrespectful behavior, with uneven results. The net result of the interactions is neutral: conveying neither warmth nor conflict.	Teacher-student interactions are friendly and demonstrate general caring and respect. Such interactions are appropriate to the ages, of the students. Students exhibit respect for the teacher. Interactions among students are generally polite and respectful. Teacher responds successfully to disrespectful behavior among students. The net result of the interactions is polite and respectful, but impersonal.	Classroom interactions among the teacher and individual students are highly respectful, reflecting genuine warmth and caring and sensitivity to students as individuals. Students exhibit respect for the teacher and contribute to high levels of civility among all members of the class. The net result of interactions is that of connections with students as individuals.			
2b: Establishing a culture for learning		The classroom culture is characterized by a lack of teacher or student commitment to learning, and/or little or no investment of student energy into the task at hand. Hard work is not expected or valued. Medium to low expectations for student achievement are the norm with high expectations for learning reserved for only one or two students.	The classroom culture is characterized by little commitment to learning by teacher or students. The teacher appears to be only "going through the motions, and students indicate that they are interested in completion of a task, rather than quality." The teacher conveys that student success is the result of natural ability rather than hard work; high expectations for learning are reserved for those students thought to have a natural aptitude for the subject.	The classroom culture is a cognitively busy place where learning is valued by all with high expectations for learning the norm for most students. The teacher conveys that with hard work students can be successful; students understand their role as learners and consistently expend effort to learn. Classroom interactions support learning and hard work.	The classroom culture is a cognitively vibrant place, characterized by a shared belief in the importance of learning. The teacher conveys high expectations for learning by all students and insists on hard work; students assume responsibility for high quality by initiating improvements, making revisions, adding detail and/or helping peers.			
2c: Managing classroom procedures		Much instructional time is lost due to inefficient classroom routines and procedures. There is little or no evidence of the teacher managing instructional groups, transitions, the handling of materials and supplies effectively, and students know or follow established routines.	Some instructional time is lost due to only partially effective classroom routines and/or procedures. The teacher's management of instructional groups, transitions, and/or the handling of materials and supplies is inconsistent, leading to some disruptions. With regular guidance and prompting, students follow established routines.	There is little loss of instructional time due to effective classroom routines and procedures. The teacher's management of instructional groups and/or the handling of materials and supplies are consistently successful. With minimal guidance and prompting, students follow established classroom routines.	Instructional time is maximized due to efficient classroom routines and procedures. Students contribute to the management of instructional groups, transitions, and/or the handling of materials and supplies. Routines are well understood and may be initiated by students.			

Domain 2: Classroom Environment (continued)							
Criteria/Rating	Evidence	Ineffective (1)	Progressing (2)	Effective (3)	Highly Effective (4)		
2d: Managing Student Behavior		There appear to be no established standards of conduct, and little or no teacher monitoring of student behavior. Students challenge the standards of conduct. Response to students' misbehavior is repressive, or disrespectful of student dignity.	Standards of conduct appear to have been established, but their implementation is inconsistent. Teacher tries, with uneven results, to monitor student behavior and respond to student misbehavior. There is inconsistent implementation of the standards of conduct.	Student behavior is generally appropriate. The teacher monitors student behavior against established standards of conduct. Teacher response to student misbehavior is consistent, proportionate and respectful to students and is effective.	Student behavior is entirely appropriate. Students take an active role in monitoring their own behavior and that of other students against standards of conduct. Teachers' monitoring of student behavior is subtle and preventive. Teacher's response to student misbehavior is sensitive to individual student needs, respects student'		
2e: Organizing physical space		The physical environment is unsafe, or many students don't have access to learning. There is poor alignment between the arrangement of furniture and resources, including computer technology, and the lesson activities.	The classroom is safe, and essential learning is accessible to most students. The teacher's use of physical resources, including computer technology, is moderately effective. Teacher may attempt to modify the physical arrangement to suit learning activities, with partial success.	The classroom is safe, and learning is accessible to all students; teacher ensures that the physical arrangement is appropriate to the learning activities. Teacher makes effective use of physical resources, including computer technology.	The classroom is safe, and learning is accessible to all students including those with special needs. Teacher makes effective use of physical resources, including computer technology. The teacher ensures that the physical arrangement is appropriate to the learning activities. Students contribute to the use or adaptation of the physical environment to advance learning.

Criteria/Rating	Evidence	Ineffective (1)	Progressing (2)	Effective (3)	Highly Effective (4)		
3a: Communicating with students		The instructional purpose of the lesson is unclear to students and the directions and procedures are confusing. Teacher's explanation of the content contains major errors. The teacher's spoken or written language contains errors of grammar or syntax. Vocabulary is inappropriate, vague, or used incorrectly, leaving students confused.	Teacher's attempt to explain the instructional purpose has only limited success, and/or directions and procedures must be clarified after initial student confusion. Teacher's explanation of the content may contain minor errors; some portions are clear; others difficult to follow. Teacher's explanation consists of a monologue, no invitation to students for intellectual engagement. Teacher's spoken language is correct; however, vocabulary is limited, or not fully appropriate to the students' ages or backgrounds.	The instructional purpose of the lesson is clearly communicated to students, including where it is situated within broader learning; directions and procedures are explained clearly. Teacher's explanation of content is well scaffolded, clear and accurate, and connects with students' knowledge and experience. During the explanation of content, the teacher invites student intellectual engagement. Teacher's spoken and written language is clear and correct. Vocabulary is appropriate to the students' ages and interests.	The teacher links the instructional purpose of the lesson to student interests; the directions and procedures are clear and anticipate possible student misunderstanding. Teacher's explanation of content is thorough and clear, developing conceptual understanding through artful scaffolding and connecting with students' interests. Students contribute to extending the content, and in explaining concepts to their classmates. Teacher's spoken and written language is expressive, and the teacher finds opportunities to extend students' vocabularies.		
3b: Using questioning / prompts and discussion		Teacher's questions are of low cognitive challenge, single correct responses, and asked in rapid succession. Interaction between teacher and students is predominantly recitation style, with the teacher mediating all questions and answers. A few students dominate the discussion.	Teacher's questions lead through a single path of inquiry, with answers seemingly determined in advance. Alternatively, the teacher attempts to frame some questions designed to promote student thinking and understanding, but only a few students are involved. Teacher attempts to engage all students in discussion and encourages responses to one another, with uneven results.	While the teacher may use some low-level questions, he /she poses questions to students designed to promote thinking and understanding. Teacher creates a genuine discussion among students, providing adequate time for students to respond, and stepping aside when appropriate. Teacher successfully engages most students in the discussion, employing a range of strategies to ensure that most students are heard.	Teacher uses a variety or series of questions or prompts to challenge students cognitively, advance high-level thinking and discourse, and promote meta-cognition. Students formulate many questions, initiate topics and make unsolicited contributions. Students themselves ensure that all voices are heard in the discussion.		
3c: Engaging students in learning		The learning tasks and activities, materials, resources, instructional groups and technology are poorly aligned with the instructional outcomes, or require only rote responses. The pace of the lesson is too slow or rushed. Few students are intellectually engaged or interested.	The learning tasks or prompts are partially aligned with the instructional outcomes but require only minimal thinking by students, allowing most students to be passive or merely compliant. The pacing of the lesson may not provide students the time needed to be intellectually engaged.	The learning tasks/activities are aligned with the instructional outcomes and are designed to challenge thinking, resulting in active intellectual engagement by most students with important and challenging content, and with teacher scaffolding to support that engagement. The pacing of the lesson is appropriate, providing most students the time needed to be intellectually engaged.	Virtually all students are intellectually engaged in challenging content, through well-designed learning tasks, suitable scaffolding by the teacher, and fully aligned with the instructional outcomes. There is evidence of some student initiation of inquiry or contributions to the exploration of important content. Pacing of the lesson provides students time needed to intellectually engage with/reflect upon their learning, and to consolidate their understanding. Students have some choice in how they complete tasks and may serve as resources for one another.		

	Domain 3: Instruction (continued)							
Criteria/Rating	Evidence	Ineffective (1)	Progressing (2)	Effective (3)	Highly Effective (4)			
3d: Using Assessment in Instruction		There is little or no assessment or monitoring of student learning; feedback is absent, or of poor quality. Students do not appear to be aware of the assessment criteria and do not engage in self-assessment.	Assessment is used sporadically to support instruction, through some monitoring of progress of learning by teacher and/or students. Feedback to students is general, and students appear to be only partially aware of the assessment criteria used to evaluate their work, but few assess their own work. Questions/prompts/ assessments are rarely used to diagnose evidence of learning.	Assessment is regularly used during instruction, through monitoring of progress of learning by teacher and/or students, resulting in accurate, specific feedback that advances learning. Students appear to be aware of the assessment criteria; some of them engage in self-assessment. Questions/prompts / assessments are used to diagnose evidence of learning.	Assessment is fully integrated into instruction, through extensive use of formative assessment. Students appear to be aware of, and there is some evidence that they have contributed to, the assessment criteria. Students self-assess and monitor their progress. A variety of feedback, from both the teacher and peers, is accurate, specific, and advances learning. Questions / prompts / assessments are used regularly to diagnose evidence of learning by individual students.			
3e: Demonstrating flexibility and responsiveness		Teacher adheres to the instruction plan in spite of evidence of poor student understanding or students' lack of interest. Teacher ignores student questions; when students experience difficulty, the teacher blames the students or their home environment.	Teacher attempts to modify the lesson when needed and to respond to student questions and interests, with moderate success. Teacher accepts responsibility for student success, but has only a limited repertoire of strategies to draw upon.	Teacher promotes the successful learning of all students, making minor adjustments as needed to instruction plans and accommodating student questions, needs and interests. The teacher persists in seeking approaches for students who have difficulty learning, drawing on a broad repertoire of strategies.	Teacher seizes an opportunity to enhance learning, building on a spontaneous event or student interests or successfully adjusts and differentiates instruction to address individual student misunderstandings. Teacher persists in seeking effective approaches for students who need help, using an extensive repertoire of instructional strategies and soliciting additional resources from the school or community.

4a: Reflecting on Teaching		Teacher does not know whether a lesson was effective or achieved its instructional outcomes, or teacher profoundly misjudges the success of a lesson. Teacher has no suggestions for how a lesson could be improved.	Teacher has a generally accurate impression of a lesson's effectiveness and the extent to which instructional outcomes were met. Teacher makes general suggestions about how a lesson could be improved.	Teacher makes an accurate assessment of a lesson's effectiveness and the extent to which it achieved its instructional outcomes and can cite general references to support the judgment. Teacher makes a few specific suggestions of what could be tried another time the lesson is taught.	Teacher makes a thoughtful and accurate assessment of a lesson's effectiveness and the extent to which it achieved its instructional outcomes, citing many specific examples from the lesson and weighing the relative strengths of each. Drawing on an extensive repertoire of skills, teacher offers specific alternative actions, complete with the probable success of different courses of action.		
4b: Maintaining Accurate Records		Teacher's system for maintaining information on student completion of assignments and student progress in learning is nonexistent or in disarray.  Teacher's records for non-instructional activities are in disarray, resulting in errors and confusion.	Teacher's system for maintaining information on student completion of assignments and progress in learning is rudimentary and only partially effective. Teacher's records for non-instructional activities are adequate, but require frequent monitoring to avoid errors.	Teacher's system for maintaining information on student completion of assignments, student progress in learning, and non-instructional records, is fully effective.	Teacher's system for maintaining information on student completion of assignments, student progress in learning, and non-instructional records, is fully effective. Students contribute information and participate in maintaining the records.		
4c: Communicating with Families		Teacher communication with families, about the instructional program, or about individual students, is sporadic or culturally inappropriate. Teacher makes no attempt to engage families in the instructional program.	Teacher makes sporadic attempts to communicate with families about the instructional program and progress of students but does not attempt to engage families in the instructional program. But communications are one-way and not always appropriate to the cultural norms of those families.	Teacher communicates frequently with families about the instructional program and conveys information about individual student progress. Teacher makes some attempts to engage families in the instructional program; as appropriate Information to families is conveyed in a culturally appropriate manner.	Teacher's communication with families is frequent and sensitive to cultural traditions, with students contributing to the communication. Response to family concerns is handled with professional and cultural sensitivity. Teacher's efforts to engage families in the instructional program are frequent and successful.		
4d: Participating in a Professional Community		Teacher's relationships with colleagues are negative or self-serving. Teacher avoids participation in a professional culture of inquiry, resisting opportunities to become involved. Teacher avoids becoming involved in school events or school and district projects.	Teacher maintains cordial relationships with colleagues to fulfill duties that the school or district requires. Teacher becomes involved in the school's culture of professional inquiry when invited to do so. Teacher participates in school events and school and district projects when specifically asked.	Relationships with colleagues are characterized by mutual support and cooperation; teacher actively participates in a culture of professional inquiry. Teacher volunteers to participate in school events and in school and district projects, making a substantial contribution.	Relationships with colleagues are characterized by mutual support and cooperation, with the teacher taking initiative in assuming leadership among the faculty. Teacher takes a leadership role in promoting a culture of professional inquiry. Teacher volunteers to participate in school events and district projects, making a substantial contribution, and assuming a leadership role in at least one aspect of school/district.

Criteria/Rating	Evidence	Ineffective (1)	Progressing (2)	Effective (3)	Highly Effective (4)			
4e: Growing and Developing Professionally		Teacher engages in no professional development activities to enhance knowledge or skill. Teacher resists feedback on teaching performance from either supervisors or more experienced colleagues. Teacher makes no effort to share knowledge with others or to assume professional responsibilities.	Teacher participates in professional activities to a limited extent when they are convenient. Teacher accepts, with some reluctance, feedback on teaching performance from both supervisors and professional colleagues. Teacher finds limited ways to contribute to the profession	Teacher seeks out opportunities for professional development to enhance content knowledge and pedagogical skill. Teacher welcomes feedback from colleagues when made by supervisors or when opportunities arise through professional collaboration. Teacher participates actively in assisting other educators	Teacher seeks out opportunities for professional development and makes a systematic effort to conduct action research. Teacher seeks out feedback on teaching from both supervisors and colleagues. Teacher initiates important activities to contribute to the profession.			
4f: Showing Professionalism		Teacher displays dishonesty in interactions with colleagues, students, and the public. Teacher is not alert to students' needs and contributes to school practices that result in some students being ill served by the school. Teacher makes decisions and recommendations based on self-serving interests. Teacher does not comply with school and district regulations	Teacher is honest in interactions with colleagues, students, and the public. Teacher's attempts to serve students are inconsistent. Teacher does not knowingly contribute to some students being ill served by the school. Teacher's decisions and recommendations are based on limited though genuinely professional considerations. Teacher complies minimally with school and district regulations, doing just enough to get by.	Teacher displays high standards of honesty, integrity, and confidentiality in interactions with colleagues, students, and the public. Teacher is active in serving students, working to ensure that all students receive a fair opportunity to succeed. Teacher maintains an open mind in team or departmental decision-making. Teacher complies fully with school and district regulations.	Teacher can be counted on to hold the highest standards of honesty, integrity, and confidentiality and takes a leadership role with colleagues.  Teacher is highly proactive in serving students, seeking out resources when needed. Teacher makes a concerted effort to challenge negative attitudes or practices to ensure that all students, particularly those traditionally underserved, are honored in the school. Teacher takes a leadership role in team or departmental decision-making and helps ensure that such decisions are based on the highest professional standards. Teacher complies fully with school and district regulations, taking a leadership role with colleagues.

To successfully complete the Teacher Education Program, each candidate must pass the PRAXIS II test/s in their content area, and must demonstrate competence on the TESS evaluation. In addition, Elementary Education candidates must pass the State required Foundations of Reading Test.

An additional requirement for program completion is the presentation of the post student teaching professional portfolio to a committee of educators, Gate 3. This professional portfolio should demonstrate the achievement of the candidate in the Four Cs of the Conceptual Framework at the level of a beginning teacher. It should also demonstrate content competence. The professional portfolio should be suitable for presentation to a prospective employer.

#### **OBTAINING LICENSE TO TEACH**

All candidates completing a BA (teaching emphasis) or B.M.E. (Music) degree at Ouachita Baptist University qualify for a teaching license in the State of Arkansas in his or her teaching field. A standard license is for five years.

Candidates desiring to teach in another state must receive their Arkansas license and then apply for a license through the education agency of that state. Many states have a reciprocal agreement with Arkansas so will merely require an application in order to issue a license. Other states require applicants to meet the initial licensing requirements, including exams and/or specific course work. In these cases, the other state usually issues a temporary license (1 year) until the criteria has been met.

SEE: http://www.ets.org/praxis/ar - to be sure you are taking the most recently required test.

#### FORMAL COMPLAINT POLICY

Although program personnel make every effort to resolve conflict collaboratively, occasionally a candidate needs a mechanism for having a complaint or concern addressed formally. Candidates who have exhausted all means of resolving a problem with the party (ies) involved may file a formal complaint, in writing, with the Director of Teacher Education. The Director of Teacher Education will present the complaint to the Teacher Education Council for consideration. The Council will inform the student of its decision. If the issue is still not resolved, the student may submit the complaint to the Vice President for Academic Affairs. The VPAA's action will be reported to the student and the Teacher Education Council. The final appeal shall be to the President of the University.

### **Common Questions and Answers for Post-Graduation**

#### 1. What is expected of Arkansas Educators?

Website: <a href="http://dese.ade.arkansas.gov/divisions/educator%20effectiveness/plsb-professional-ethics-discipline/code-of-ethics-for-arkansas-educators">http://dese.ade.arkansas.gov/divisions/educator%20effectiveness/plsb-professional-ethics-discipline/code-of-ethics-for-arkansas-educators</a>

#### Standard 1

An educator maintains a professional relationship with each student, both in and outside the classroom.

#### Standard 2

An educator maintains competence regarding his or her professional practice, inclusive of professional and ethical behavior, skills, knowledge, dispositions, and responsibilities relating to his or her organizational position.

#### Standard 3

An educator honestly fulfills reporting obligations associated with professional practices.

#### Standard 4

An educator entrusted with public funds and property, including school sponsored activity funds, honors that trust with honest, responsible stewardship.

#### Standard 5

An educator maintains integrity regarding the acceptance of any gratuity, gift, compensation or favor that might impair or appear to influence professional decisions or actions and shall refrain from using the educator's position for personal gain.

#### Standard 6

An educator keeps in confidence secure standardized test materials and results, and maintains integrity regarding test administration procedures.

#### Standard 7

An educator maintains the confidentiality of information about students and colleagues obtained in the course of the educator's professional services that is protected under state law or regulations, federal law or regulations, or the written policies of the educator's school district, unless disclosure serves a professional purpose as allowed or required by law or regulations.

#### Standard 8

An educator, while on school premises or at school-sponsored activities involving students, refrains from:

a) using, possessing and/or being under the influence of alcohol or unauthorized drugs/substances, and/or possessing items prohibited by law, or b) possessing or using tobacco or tobacco-related products, e-cigarettes,

e-liquid, or vapor products, or c) abusing/misusing prescription medications or other authorized substances as evidenced by impairment.

#### Who has to abide by the Code of Ethics?

Arkansas law mandates that every person with a valid Arkansas teaching license, pre-service teachers, and all educators teaching under an Act 1240 waiver are required to abide by the Code of Ethics for Arkansas Educators.

#### Who can file a complaint?

Any person can fill out an <u>allegation form</u> and file it with the Division of Elementary and Secondary Education, school district superintendent, or a public school district, but it must be signed under penalty of perjury.

#### Where can I find more resources?

<u>Social Networking</u> is prevalent in all aspects of our society and the Professional Licensure Standards Board created recommendations and guidelines for educators and public schools to encourage the utilization of technology for the benefits of education, while avoiding unprofessional social networking between educators and students. The PLSB has also sponsored <u>two courses on ArkansasIDEAS</u>: <u>Social Media Guidelines and Digital Citizenship Curricula K-12</u>.

#### 2. What is my responsibility as a teacher for suspected abuse?

Act 703 was passed in the Arkansas Legislature making teachers responsible for reporting abuse. See below:

# **ACT 703**

The Arkansas State Legislature recently passed ACT 703, which makes teachers responsible for reporting child abuse even more directly than in the past.

The following are the portions of the ACT that affect teacher education. All teachers need to be aware of their responsibility to protect children and youth.

SECTION 3. Arkansas Code Title 6, Chapter 61, Subtitle 1 is amended to add an additional section to read as follows: 6-21-131. Training for mandatory reporters.

For each degree program at an institution of higher learning in this state that is a prerequisite for licensure or certification in a profession in which the professional is a child maltreatment mandated reporter under the Child Maltreatment Act, § 12-1-2-501 et seq., the Department of Higher Education shall coordinate with all the higher education institutions to ensure that before receiving a degree each graduate receives, including without limitation, training in:

- (1) Recognizing the signs and symptoms of child abuse and neglect;
- (2) The legal requirements of the Child Maltreatment Act, §12-1-2-501 et seq., and the duties of mandated reporters under the act; and
- (3) Methods for managing disclosures regarding child victims.

SECTION 9. Arkansas Code § 12-12-507(b), concerning reports of 36 suspected abuse or neglect, is amended to read as follows:

- (1) When any individual listed in subdivision (b) (4) of this section has reasonable cause to suspect that a child has been subjected to child maltreatment or has died as a result of child maltreatment or observes a child being subjected to conditions or circumstances that would reasonably result in child maltreatment, he or she shall immediately notify the child abuse hotline by telephone call, facsimile transmission, or online reporting.
- (2) The Child Abuse Hotline shall review the information received under subdivision of this section to determine if the information rises to the minimum standards for investigation under this subchapter.
- (3)(A) Facsimile transmission and online reporting may be used in non-emergency situations by an identified reporter who provides the following contact information:
  - (i) Name and phone number; and
  - (ii) In the case of online reporting, the email address of the identified reporter.
  - (B) The hotline shall provide confirmation of the receipt of a facsimile transmission via a return facsimile transmission or via online receipt.
  - (C) A mandated reporter who wishes to remain anonymous shall make the report through the child abuse hot line toll-free telephone system.
- (4) The following individuals are mandated reporters under this subsection:
  - (1) Any childcare worker or foster care worker;
  - (2) A coroner;

- (3)A day care center worker;
- (4) A dentist;
- (5) A dental hygienist;
- (6) A domestic abuse advocate;
- (7) A domestic violence shelter employee;
- (8) A domestic violence shelter volunteer;
- (9) An employee of the Department of Health and Human Services;
- (10) An employee working under contract for the Division of Youth Services of the Department of Health and Human Services:
- (11) Any foster parent;
- (12) A judge;
- (13)A law enforcement official;
- (14) A licensed nurse;
- (15) Any medical personnel who may be engaged in the admission, examination, care, or treatment of persons;
- (16) A mental health professional;
- (17) An osteopath;
- (18) A peace officer;
- (19) A physician;
- (20) A prosecuting attorney;
- (21) A resident intern;
- (22) A school counselor;
- (23) A school official;
- (24) A social worker;
- (25) A surgeon;
- (26) A teacher;

SECTION 10. Arkansas Code § 12-12-507(c), concerning prohibitions on interference with reports of child abuse, is amended to read as follows:

- (1) No privilege or contract shall prevent anyone from reporting child maltreatment when he or she is a mandated reporter as required by this section.
- (2) No school, Head Start program, or day care facility shall prohibit an employee or volunteer from directly reporting child maltreatment to the child abuse hotline.
- (3) No school, Head Start program, or day care facility shall require an employee or volunteer to obtain permission or notify any person, including an employee or supervisor, before reporting child maltreatment to the child abuse hotline.

SECTION 13. Arkansas Code Title 16, Chapter 10, Subchapter 1 is amended to add an additional section to read as follows:

- 16-10-138. Mandatory reporter training.
  - (a) The Administrative Office of the Courts shall develop a web-based curriculum concerning mandatory reporter training that will include without limitation:
    - (1) The signs and symptoms of abuse;
    - (2) Training on the specifics that are required to be reported under law and rules; and
    - (3) The managing of disclosures.
  - (b) The Department of Health and Human Services shall serve as the host for the web-based curriculum developed by the Administrative Office of the Courts.

#### 3. How do I apply for Graduate School?

#### **Beyond an Undergraduate Degree**

The degree that follows a Bachelor's degree is a Master's Degree. To earn a Master's Degree requires admission to graduate school. It generally takes a minimum of two years full-time or 45-60 semester hours beyond the undergraduate degree. There are many things to consider when beginning a graduate program. First, you need to determine your areas of interest, as well as both personal and professional goals for your study. Then, you need to determine where you want to study and how to finance your graduate work. Be especially careful if you consider an on-line program. Check to be certain it is fully accredited.

#### Philosophy and Specialization

It is beneficial to check the philosophy and emphasis of various graduate programs. Some programs are stronger in a particular area, such as reading or language arts. Read as much as possible about the program. Make an appointment to visit the campus and talk with someone in Graduate Admissions as well as someone from the program you are considering.

#### **Application and Admission to Graduate Study**

Admission requirements vary from university to university. Most graduate school programs require an entrance examination such as the Graduate Record Exam (GRE). Information about this examination can be found at ets.org and the Graduate Record Exam link. There are testing centers throughout the USA. It can be beneficial to prepare for the GRE by purchasing a text to help you study for the examination. Some places offer classes to prepare for the GRE, as well.

In addition to particular scores on the GRE, graduate programs do look at the undergraduate GPA of candidates seeking acceptance. You will need official transcripts from your undergraduate university. Transcripts must be requested and sent directly from your undergraduate university to the graduate program of the university to which you are applying. Information is online for graduate programs. It is good to read it carefully before contacting the graduate program personnel. This will help you prepare appropriate questions to ask and save time for you and for the university representatives.

It is good to be aware that admission into some graduate programs is very competitive. It is not always guaranteed that you will be admitted to the program, particularly on the first application. Be sure to do your homework before applying to determine the best responses to application questions, requested materials, etc. It is also important that your application packet is complete in every way before submitting it. It is wise to make copies of all that you send with dates, etc. Remember that if references are needed, please ask those who can best represent your ability to be a successful graduate student if they are willing to provide a recommendation for you. Give them all needed materials, included addressed and stamped envelopes, with plenty of time to complete and mail in before your deadline.

#### **Financing Your Graduate School Education**

Many people work/teach while completing a graduate program. Some individuals decide to attend graduate school full-time. Many universities have assistantships that help defray the cost of graduate school. In exchange for tuition costs or partial costs, and sometimes a small stipend, the graduate-assistant is employed by the graduate program or other programs in the university while they take nine hours of course work per semester. Be sure to check on the availability of assistantships and what would be expected. A few school corporations will help pay for graduate work.

#### **Additional Graduate School**

After you earn a Master's degree, there are Education Specialist degrees, and doctoral degree programs, or "terminal degrees" such as PhD (Doctor of Philosophy); Ed.D. (Doctor of Education); DA (Doctor of Arts); DMA (Doctor of Musical Arts). The Masters of Fine Arts is considered a terminal degree, as well.
