A WORD FROM THE PRESIDENT

Ouachita's purpose is found in phrases that speak of being Christ-centered and having a love for God and learning. These words are defining and deliberate. They express our mission.

An education from Ouachita prepares students for professions and for being difference makers in life. It is an experience that lasts a lifetime. We are committed to our faith and to excellence in learning so our graduates may choose lives of service in whatever vocations and locations they choose. We hope to inspire lifelong learners.

Welcome to Ouachita! There is no finer place. May God in these brief years give you a definite understanding of His plan. There are exciting opportunities that await you at Ouachita. Welcome!

Rex M. Horne, Jr.

OUACHITA BAPTIST UNIVERSITY

Life Direction

What is so special about an education at Ouachita?

The answer lies in the fact that because Ouachita seeks to combine the love of God with the love of learning, we provide you with profoundly important direction in every aspect of your growth: intellectual, spiritual, physical and social.

Intellectual Direction

The academic program at Ouachita is demanding and requires a dedicated effort to succeed. But that is the way it should be, because we are living in an increasingly complex and competitive society that demands the best: men and women who can think critically and creatively, who are mature in their understanding of and appreciation for the world, who can communicate well and who can make relevant decisions and discriminating choices between what is right and what is wrong. At Ouachita, we not only want to prepare you for life but also for abundant living.

Spiritual Direction

You will also be given the opportunity to grow in spirit because we believe that a strong commitment to basic Christian morals, values and beliefs is the single most important thing you'll ever do. Why? Because every significant choice you make in life will depend upon it. That is how important it is and why Christian excellence is given equal emphasis at Ouachita along with academic excellence.

Physical Direction

Your body gets a good workout, too, at Ouachita because the development of physical skills while you are young will help you to establish a pattern of maintaining good health that should last a lifetime. Opportunities for physical growth are provided in varsity athletics (football, basketball, tennis, baseball, volleyball, soccer, softball, cross country, swimming, wrestling and golf), intramurals (flag football, basketball, etc.) and in activity and academic courses such as badminton, swimming, conditioning, concepts of wellness, kinesiology and in a variety of other programs.

Social Direction

You will also be provided the opportunity to grow socially. After all, your college years will someday be among your most precious memories because so many nice things happen during this time — increased awareness of yourself and others, for example. Lasting friendships are established in social clubs and elsewhere on campus. You may meet the person with whom you will spend the rest of your life, or it may simply be a matter of being on your own, maybe for the first time ever.

These are the green years when everything is possible and the rest of your life lies ahead of you, filled with infinite choices. They are years to be enjoyed, to be nurtured, and to be treasured forever.

OUACHITA BAPTIST UNIVERSITY

Vision

Ouachita Baptist University seeks to foster a love of God and a love of learning by creating for students and other constituents dynamic growth opportunities both on campus and throughout the world. With foresight and faithfulness, Ouachita makes a difference.

Mission

Ouachita Baptist University is a Christ-centered learning community. Embracing the liberal arts tradition, the university prepares individuals for ongoing intellectual and spiritual growth, lives of meaningful work, and reasoned engagement with the world.

Values

Ouachita strives to be an academic community of vision, integrity, and service grounded in the following values:

Faith. We believe that life is lived most abundantly in response to the love of God through Jesus Christ.

Scholarship. We advance excellence in teaching, learning, research, and creative expression.

Growth. We foster broad-based education, encouraging growth in intellectual, spiritual, physical, and social domains.

Character. We affirm that respect and honesty undergird responsible citizenship and stewardship.

Community. We promote a vibrant community strengthened by diversity, sustained by common aims and supportive relationships, and committed to leadership and service on campus and beyond.

Origin

Ouachita Baptist College was authorized by a vote of the Arkansas Baptist State Convention as its higher educational institution in November 1885. In April 1886, the trustees of the University voted to locate the institution in Arkadelphia, Arkansas. Classes began on September 6, 1886, and the institution has operated without interruption in the same location since that date. On January 14, 1965, the Board of Trustees voted to change the name from College to University.

While Ouachita's primary obligation is to her parent body, the Arkansas Baptist State Convention, the University has no restrictions as to belief or geographical location of persons whom it serves. The presence of students from many religions, states, and nations helps instill appreciation for other points of view and enriches the academic community. Ouachita welcomes students of all races.

As a Christian institution, Ouachita is more than a nominally church-related school. She takes seriously the person and teachings of Jesus Christ and seeks to relate these to the many disciplines and activities on the University campus. Nor does this orientation impose restrictions or deny academic freedom in the search for truth, for Jesus himself said, "You shall know the truth, and the truth shall make you free."

Fifteen presidents have guided its development: Dr. J.W. Conger, 1886-1907; Dr. H.S. Hartzog, 1907-11; Dr. R.C. Bowers, 1911-13; Dr. S.Y. Jameson, 1913-16; Dr. C.E. Dicken, 1916-26; Mr. A.B. Hill, 1926-29; Dr. C.D. Johnson, 1929-33; Dr. J.R. Grant, 1933-49; Dr. S.W. Eubanks, 1949-51; Dr. Harold A. Haswell, 1952-53; Dr. Ralph A. Phelps, Jr., 1953-1969; Dr. Daniel R. Grant, 1970-1988; Dr. Ben M. Elrod, 1988-1998; Dr. Andrew Westmoreland, 1998 to 2006; Dr. Rex M. Horne, Jr., 2006 to date.

Liberal Arts Education

For the purpose of this statement, liberal arts education is defined in terms of the characteristics associated with an educated person and the kind of curriculum that might impart these characteristics.* The person educated in the liberal arts tradition possesses not only knowledge and intellectual skills, but also the inclination and ability to apply them to appropriate ends. Ideally, the knowledge is both deep and broad. In practice, depth derives from sustained work in a single discipline or area of study as one would obtain in a major or minor. Breadth results from serious engagement with all the major domains of knowledge and human endeavor and can be addressed through a program of general studies. A liberal arts education encompasses all the scholarly disciplines that inquire into the natural world and the human conditions as well as the fine arts and the practical arts. At a church-related university such as Ouachita, the development of rational inquiry into these disciplines reflects an expression of faith, hope, and love addressed to God and embodied within a community of faith. The interrelationships, multiple perspectives, traditions, and significance for contemporary society of these disciplines are the conceptual links that integrate the educated person's knowledge into a coherent whole.

Many writers have essayed definitions of the intellectual skills that characterize the educated person. Those skills most commonly identified with and most pertinent to this statement are the intellectual skills that make possible self-reflection and articulate communication.

Self-reflection – that is, consciousness of one's opinions, judgments, and the role of humans in the natural world – derives from the ability to analyze one's arguments, determine the factual basis of information, evaluate the quality of evidence, and identify and assess one's premises and values. Self-reflection can free the individual from egocentrism, intellectual provincialism, and an anthropocentric view of the world. Self-reflection may also lead to the assumption of responsibility for the solution of problems, self expression and artistic endeavors.

Articulate communication – the ability to present ideas in a clear, effective way – derives from skills in information gathering, conceptualization, abstraction, logic, the use of language, the ability to understand the positions of others, and in appropriate instances, to accommodate them.

The person educated in the liberal arts tradition exhibits certain dispositions. The person is inclined to serve the common good, to continue learning after formal education has ended, and to seek meaning in life. At Ouachita this search for meaning extends into all areas of life where one's commitment to God and the Lordship of Jesus Christ becomes an integral part of the search. The lifelong quest for knowledge of self, others, nature and God is the ultimate goal of liberal arts education at this university.

Location

Ouachita Baptist University is located in Arkadelphia, Arkansas, about sixty-five miles southwest of Little Rock on Interstate 30 and thirty miles south of Hot Springs. There is frequent bus and Amtrak service to and from the city. Facilities for air transportation are available both in Hot Springs and Little Rock. Arkadelphia has a population of over 10,000, including the student bodies of Ouachita Baptist University and Henderson State University.

Status and Facilities of the University

Ouachita Baptist University is accredited by The Higher Learning Commission. (The Higher Learning Commission: A Commission of the North Central Association of Colleges and Schools. 30 North LaSalle Street, Suite 2400, Chicago, Illinois, 60602-2504. Telephone: 312-263-0456)

The Teacher Education Program is accredited by the National Council for Accreditation of Teacher Education on the elementary and secondary levels. (National Council for the Accreditation of Teacher Education: 2010 Massachusetts Avenue, NW, Suite 500, Washington, D.C. 20036-1023. Telephone: 202-466-7496)

The Division of Music is accredited for the baccalaureate degree by the National Association of Schools of Music. (National Association of Schools of Music: 11250 Roger Bacon Drive, Suite 21, Reston, Virginia, 20190. Telephone: 703-437-0700)

The Didactic Dietetic Program is accredited by the Commission on Accreditation for Dietetics Education (CADE) of the American Dietetic Association. The Program meets the didactic academic requirements for registration eligibility.

The Athletic Training Education Program is accredited by the Commission on the Accreditation of Athletic Training Education Programs (CAATE).

The undergraduate degree program in business offered by the Frank D. Hickingbotham School of Business is accredited by AACSB International – The Association to Advance Collegiate Schools of Business.

The University is a member of the Council on Higher Education Accreditation, the National Association of Independent Colleges and Universities, the International Association of Baptist Colleges and Universities, the Consortium for Global Education, the American Association of Colleges for Teacher Education, and the National Collegiate Athletic Association.

More than thirty permanent buildings are located on the campus, most of which are red brick and modern or colonial styles of architecture. A beautiful interconnecting mega-structure consisting of Evans Student Center, Frank D. Hickingbotham Hall, J.G. Lile Hall, Mabee Fine Arts Center, R.A. Lile Hall and McClellan Hall, brings together in harmony the Ouachita River, the Ravine, and the heart of the campus. Apartments to house student families are located near the main campus.

Hickingbotham Hall, the new home of the Frank D. Hickingbotham School of Business, was completed in the spring of 2006. The Willard and Pat Walker Conference Center, located on the lower level of the Ouachita Commons, opened in April 2006; the student dining area of the Ouachita Commons opened in January 2001.

The Roy and Christine Sturgis Physical Education Center is a versatile, multipurpose facility containing an Olympic-size pool, racquetball, weight, and tennis facilities, classrooms, offices, the varsity basketball arena, and two multipurpose courts.

The Harvey Jones Science Center, opened in 1997, provides over 60,000 square feet of space for the Departments of Biological Sciences, Chemistry, Mathematics and Computer Science, and Physics. The Center provides students and faculty with a beautiful and functional space in which to study and work.

The Harvey and Bernice Jones Performing Arts Center consists of a 1,500-seat auditorium, makeup rooms, prop storage and construction rooms, faculty offices and a ticket office. The facility contains more than 37,000 square feet of functional space and includes a large working stage, an orchestra shell and pit, a state-of-the-art sound system and seating divided into orchestra, mezzanine and balcony sections. Jones Performing Arts Center is connected to Verser Theatre to create one of the most versatile and beautiful theatre arts facilities in the region.

The market value of the endowment fund as of May 31, 2009, was approximately \$65,831,877. The cost basis of buildings and grounds was valued at \$83,649,093.

Riley-Hickingbotham Library

The Library serves the University and the community as a learning center, supporting the educational process with varied types of media. It accomplishes that task through the main library--which offers group study rooms, individual study space, typing and computer rooms, Internet facilities, and ease of access to materials--and through branches located in Mabee Fine Arts Center and Harvey Jones Science Building.

Riley-Hickingbotham Library houses a number of different collections. The main book collection, in easily accessible open stacks, holds approximately 150,000 volumes. The Library offers patrons over 300,000 selected federal and numerous state government publications. The Periodicals collection provides approximately 1,000 current serial titles to patrons on paper: popular and academic offerings in addition to local, state, and national newspapers. Another 2,000 are available from any campus computer via the Library's web page, many of them full-text and most going back to 1985 in coverage.

Special Collections include those of the Arkansas Baptist State Convention, Clark County Historical Association, University Archives, and Rare Books section of the main library. A growing collection of political papers--including those of the late Senator John L. McClellan, the District's two most recent Congressmen, and soon Governor Mike Huckabee--is likewise part of Special Collections.

In addition to its traditional holdings, the Library contains approximately 400,000 non-book items. These include microform collections such as the complete ERIC (Educational Resource Information Center) file, the American Culture Series (pre-1874 American publications), the Black History Collection, the Literature of Theology and Church History in North America, the University Music Editions reprint series, and the Eastman School of Music's collection of early music writings. Through its Instructional Media Services Department, the Library provides campus-wide access to approximately 10,000 media items for classroom use. In addition to microform and audio-visual holdings, the Library offers patrons a glimpse of the past through memorabilia displays concerning persons and events connected with Ouachita. McClellan Hall contains a static display interpreting the late Senator's fifty years of public service. Displays in the Library contain memorabilia of Baptist missions and missionaries, student life and organizations, and rare printed materials from the past of Baptists and their first four-year college in Arkansas.

The key word in the Library's lexicon is service. In keeping with that philosophical commitment, the Library offers patrons a variety of services. Materials not contained here are available through extended service. ALIS, a computerized union catalog with Henderson State University, offers access to libraries in

the building and via dial access, the Internet and the campus network. Through membership in OCLC (Online Computer Library Center), the Library accesses the holdings of more than 30,000 libraries worldwide. Items in those libraries are available to patrons through interlibrary loans, some made via the Internet and facsimile transfer to render the swiftest service possible. The Library provides reference and reserve service in the building and access to ALIS and some basic reference materials and databases through the campus network. Patrons find facilities for photocopying and for producing paper copies of microform materials at appropriate points throughout the building. Patrons with impaired vision can utilize the library's specially-equipped center to access materials that will enhance their educational experience. Finally, the Library faculty provides all patrons with an understanding of and experience in the information-gathering strategies and processes which will enable students to make the best use of this or any other library's resources.

GOVERNMENT AND INSTRUCTIONAL PROGRAMS

University Government

The University is governed by a twenty-four member Board of Trustees elected by the Arkansas Baptist State Convention. The general program is administered by the President of the University.

Undergraduate Instructional Programs

The Vice President for Academic Affairs is responsible for the overall supervision of the academic program of the University.

The instructional programs of the University are administered by the deans of the respective schools, with faculties who are highly competent in their teaching fields.

The following schools constitute the academic structure of the University:

- The Frank D. Hickingbotham School of Business
- The Chesley and Elizabeth Pruet School of Christian Studies
- The Michael D. Huckabee School of Education
- The School of Fine Arts
- The School of Humanities
- The School of Interdisciplinary Studies
- The J. D. Patterson School of Natural Sciences
- The W.H. Sutton School of Social Sciences

The Regular Session. The regular session consists of two semesters of seventeen weeks each. Work offered in the eight schools leads to the four degrees offered by the University. A Spring Commencement concludes each academic year for the graduating seniors.

The Summer Session. The summer session consists of a three-week May term and two four-week terms, during which a student may register for up to seventeen hours of course work. (A student may enroll in one class for May term and two classes, not to exceed seven hours, for each summer term.)

The Joint Educational Consortium

The Joint Educational Consortium of Arkadelphia provides enhanced educational opportunities for students. Students at Henderson State University and Ouachita Baptist University have immediate access to all library and reference material on both campuses. Where programs or classes offered by either University are not available on the other campus, cross registration and credit for courses can often be arranged. The Joint Educational Consortium is in the process of developing cooperative programs of education and research which can enrich and enlarge academic opportunities for students while maintaining the advantages which are inherent in smaller universities, such as smaller classes, greater opportunities for contact between faculty and students, and a genuine interest in each student as an individual.

For additional information about cooperative programs, contact the JEC at P.O. Box 7744, Arkadelphia, AR 71999.

Ouachita Alumni

The Ouachita Alumni is organized under the direction of the Ouachita Alumni Advisory Board and is designed for the purpose of keeping alumni aware of University activities and programs. The group is concerned with the welfare of the University's graduates and former students and is vitally interested in the development of a greater Ouachita.

Graduates and former students who have attended Ouachita Baptist University for at least one semester shall be considered members of the Ouachita Alumni. The group is supported through the University, which, in turn, receives a considerable portion of its funding through alumni gifts. There are no dues.

Ben M. Elrod Center for Family and Community

The Ben M. Elrod Center for Family and Community at Ouachita Baptist University is dedicated to serving humankind through the educational experience. Ouachita's faculty, staff, and students are committed to providing leadership that will result in the strengthening of the family and the community. In particular, concepts such as volunteerism, service-learning, research, outreach, and instruction will be promoted.

The goals of the Center are to:

- support public service initiatives in the public and church arenas
- equip students, faculty, and staff to become community leaders
- support and coordinate resources
- publicize public service efforts
- promote volunteerism as vital to active citizenship
- promote interdisciplinary studies that benefit the family and community
- provide an institutional door for the community to relate to the university
- promote non-credit courses that will benefit the community
- strengthen families through education, instruction, and outreach
- recognize and reward outstanding service efforts

TranServe is a program of the Ben M. Elrod Center for Family and Community noting service to the community on official university transcripts. In general, students work without pay for nonprofit organizations and ministries involved in service to the community. Guidelines for the program may be found on the Elrod Center web page or in a brochure available at the Elrod Center at 311 Sixth Street. Students may register for TranServe during the first week of classes and must complete a minimum of 20 hours in one semester to have their hours recorded on their transcript. The director of the Elrod Center will be responsible for oversight of the program.

Additional outreach initiatives coordinated by the Elrod Center include:

- **Tiger Serve Day** – a campus-wide event held once a semester to involve students in a community clean-up day.
- **America Reads/America Counts** – one-on-one tutoring/mentoring program in reading and math in partnership with Arkadelphia Public Schools.
- **ElderServe** – an outreach program linking students with senior adults in the area for companionship and support purposes.
- **Dating, Engagement, and Marriage Week** – a weeklong emphasis on developing healthy marriage and dating relationships for students.
- **COPE – Community Outreach Program through English**—an outreach program targeted to help international adults in the community to improve their English skills and give them access to a state of the art English-as-a-second-language laboratory.
- **DRT** – Disaster relief teams provide relief to areas affected by natural disaster through our student body.
- **Summer Camps** – faculty members provide educational opportunities for kids in the local community.

For further information, contact Mr. Ian Cosh, Director of the Ben M. Elrod Center for Family and Community, 311 Sixth Street. Telephone: 870-245-5320. E-mail: coshi@obu.edu Web site: www.obu.edu/famcom.

Financial Support

The expenses of the University are met only in part by student fees. The remainder is derived by income from the endowment fund, an annual Cooperative Program grant from the Arkansas Baptist State Convention, and by current gifts. Substantial support from Arkansas Baptists, alumni, former students, and other friends makes it possible for Ouachita Baptist University to provide the highest quality educational opportunities at a cost that is among the lowest of all accredited private senior colleges and universities in the nation. Every student shares in the benefits generated by gifts and grants.

Over the past several years, a special group of friends has provided the resources necessary to undertake a successful and ongoing campus development program, resulting in new facilities and equipment, campus beautification projects, and a high quality instructional program. Many of these friends have been recognized for their outstanding commitment to Ouachita's mission, notably in the Hall of Honor in McClellan Hall and by named facilities, projects, and endowments. The support of many other faithful friends has been, and continues to be, an invaluable source of strength that helps to maintain our margin of excellence. Those friends who have made arrangements in their long-range planning to benefit Ouachita are recognized in appropriate ways.

To all of those who share their resources to make Ouachita Baptist University the best it can be, we owe a profound debt of gratitude.

STUDENT SERVICES AND ACTIVITIES

The division of Student Services is under the direction of the Vice President for Student Services. The division includes campus housing, residence life, health services, counseling services, campus activities, student conduct, recreational sports, and campus safety. Each year, Student Services publishes the *Tiger Handbook*, the official university guidebook for students.

Food and Housing

Ouachita Baptist University is a residential university. The university recognizes that learning experiences are not limited to the classroom. Because of this philosophy, all unmarried students are required to live in university housing unless (1) they are living with a parent/guardian and commute daily, (2) they are given special permission by the Off-Campus Housing Exceptions Committee to live off campus (granted only in unusual circumstances), (3) they are 22-years-old or older before the last day of the semester, or (4) they have completed eight semesters of residence hall life. Students who report that they are living with parent/guardian but are actually living off campus in violation of the university policy will be subject to disciplinary action that may include disenrollment from the university. All resident students must purchase a meal plan. The food service is contracted to Sodexo, Inc. The meal plan allows students to access the Ouachita Commons, the University's primary dining facility, and also allows limited access to Chick-Fil-A, the Tiger Grill, and Starbucks.

Housing is provided in Anthony, Flippen, Perrin, Frances Crawford (East and West), O.C. Bailey, Maddox, West Side Halls, East Village, and Gosser. Each residence hall is under the direct supervision of a Hall Director or Resident Director and a staff of Resident Assistants. A limited number of apartments are available in five apartment complexes: Pine Square, Caddo Place, Lancelot, Starlight, and OBU Apartments.

A housing deposit is required of students living in any university housing. Priority in housing assignments is determined by the date the housing deposit is received and the date of acceptance to the university. The housing deposit will be refunded to both new and returning students if a written cancellation is received prior to June 1 for the fall semester and December 1 for the spring semester. For those applying after June 1 (or December 1) and those withdrawing during the semester, the housing deposit is non-refundable. Waivers and/or extensions may be granted, but only in unusual circumstances.

Students already in residence may reserve accommodations for the next semester provided they do so at the designated time. Thereafter, housing is accessible for continuing and new students on the same basis.

Students living alone in a room designed for two will be charged for a private room except (1) if, after the first three weeks of the semester, the roommate moves from the room, the room rate will not change for the remainder of that semester as long as the student stays in the same room and is willing to take a roommate if the university deems it necessary; (2) if a student is willing to move in with another roommate, but one is not available. Anthony and Maddox Halls have no private rooms. East Village and West Village Halls have multiple private bedroom suites.

Medical Services

First aid, health education, and simple diagnosis and treatments for minor illnesses by a registered nurse on campus are available at little or no cost. Medical services for more serious cases may be received at the Baptist Medical Center Arkadelphia or at the office of local physicians.

The costs for medications and supplies used during an illness are not included in university general fees. It is recommended that every student be covered by some form of health insurance. The University provides information concerning a group policy offered at a competitive rate to students who are not covered otherwise. International students are required to enroll in the medical insurance policy before registering.

All students must complete health records consistent with state and university requirements. The student must show proof of two measles, mumps, and rubella vaccinations, usually given in the form of an MMR. A tetanus-diphtheria vaccination is recommended within the last ten years. In addition, a tuberculosis screening is required for any student who has lived outside the United States within the past 12 months. All international students must receive a tuberculosis screening at the University Health Services if they were born in a country where TB is endemic.

Arkansas Act 1233 of 1999 requires all universities to notify both students and parent of an increased risk of meningococcal disease among individuals who live in close quarters such as students in college residence halls. A vaccine is available and should be discussed with your local health provider.

The Arkadelphia Clinic for Children and Young Adults provides the services of a physician and other health professionals on campus. The Arkadelphia Clinic for Children and Young Adults is a private clinic, and the university does not assume responsibility for the actions of the clinic. Students seeking care through this clinic will be billed by the Arkadelphia Clinic for Children and Young Adults for their services.

University Counseling Services

Counseling services are provided by the University Counselor at no cost to currently enrolled students, faculty, staff, and their families. These services are available to students, faculty, and staff who are experiencing any of a broad range of personal or interpersonal difficulties. The University Counselor also serves as the ADA/504 Coordinator to assist students requesting accommodations. Appointments may be scheduled by contacting the Counseling Office. Students who require assistance beyond the scope of the University Counseling Services will be given a referral to a community-based resource.

New Student Orientation

(Welcome to Ouachita's World)

New student orientation (WOW) is provided at the beginning of each semester. This orientation is designed to introduce new students to the services and activities of the university, to acquaint them with available resources, and to assist them in developing relationships and adjusting to the campus environment. WOW is under the direction of a student steering committee and involves over 100 upper class student leaders.

Social Activities

Through cooperative efforts, the more than forty campus organizations plan a variety of activities throughout the academic year. These activities include formal and informal gatherings, mixers, entertainment, and campus and community service activities. Some organizations offer practical experience for future careers. Local churches frequently sponsor activities that are planned especially for the college student.

Ouachita has no national fraternities or sororities, but there are ten local social clubs: for men, Beta Beta, Chi Iota Sigma, Eta Alpha Omega, Kappa Chi, and Rho Sigma; for women, Chi Delta, Chi Rho Phi, E.E.E., Pi Kappa Zeta, and Tri Chi. Within the framework of the University's objectives and ideals, these clubs induct new students during a designated period in the Spring semester. Hazing is forbidden. All clubs are required to have a faculty sponsor, as outlined in the *Tiger Handbook*.

Standards of Conduct

By accepting admission to Ouachita Baptist University, each student assumes the responsibility to abide by the standards of the University as well as local, state, and national laws. In general, the rules are based on the desire of the faculty and staff that students demonstrate good citizenship, respect the rights of others, and achieve in their studies in a Christian educational environment. Specific regulations are given in the official University handbook, the *Tiger Handbook*.

Student Senate and Campus Activities Board

The Student Senate, composed of selected representatives of the student body, deals with matters concerning the student body as a whole. It is a deliberative and planning group which works in close liaison with administrative officials of the University, interpreting official policies to the students and student concerns to the administration. Guest speakers, concerts, art groups, and other programs are sponsored by the Campus Activities Board (CAB).

Religious Life at Ouachita

Attendance at a weekly chapel program is required. Policies related to chapel attendance may be found in the "Attendance" section of the catalog. The programs are designed to deepen the students' spiritual life, to broaden their cultural appreciation, and to realize their role as a part of the Ouachita family. Not all chapel programs are religious in nature; some are informational programs presented by campus organizations.

The Cordell Endowment was created by the generous contributions of Mr. and Mrs. "Cotton" Cordell of Hot Springs, Arkansas, and other donors. The purpose of the Endowment is to provide funds to pay the cost for travel, honoraria, and other expenses related to the chapel programs in order to maintain a high quality in the selection of speakers and other types of presentations. It is the hope of the donors that the programs will serve ultimately as a positive Christian influence upon the lives of many generations of students.

The office of Campus Ministries is the university's religious organization for students. The primary purpose and responsibility of Campus Ministries is to provide Ouachita Students with spiritual

direction and ministry opportunities. Student ministry leaders plan, direct, and coordinate all types of ministries including a Big Brother and Sister program, Christian Focus Week, Freshmen Family Groups, discipleship, evangelism training, and mission trips. Campus Ministries also sponsors Refuge, a campus wide student-led worship gathering on Thursdays at 9:00 p.m. and Noonday, a student-led devotional time every Monday, Wednesday, and Friday in Berry Chapel. The organization works in cooperation with Arkansas Baptist Collegiate Ministries (BCM) and other Southern Baptist entities, such as the International Mission Board. Campus Ministries is guided by the Director and Assistant Director of Campus Ministries.

Intercollegiate Athletics and Recreational Sports

Ouachita strives for excellence in both intercollegiate athletics and recreational sports. The objective is for all students to participate in some sport as well as to understand and enjoy spectator sports. Ouachita intercollegiate men's teams compete in football, basketball, baseball, tennis, soccer, wrestling and golf. Conference sports for women include basketball, cross country, volleyball, soccer, softball, golf and tennis. The men's and women's swim teams compete in the New South Intercollegiate Swim League.

Intercollegiate athletes must comply with standards and requirements set forth by the University, the Gulf South Conference, and the National Collegiate Athletic Association (NCAA), Division II.

All students are encouraged to participate in recreational sports. Such participation enriches personality by developing desirable attitudes toward health, social-mindedness, sportsmanship, competition, cooperative effort, institutional loyalty and other values and skills that carry over into later life. Sports for men, women, and coed teams are offered. The sports include flag football, volleyball, dodgeball, basketball, softball, and indoor soccer. Periodic tournaments are held for ping pong and racquetball.

Campus Organizations

Many clubs and organizations promote fellowship, stimulate academic and professional interest and foster a closer relationship with faculty members in a given area of concentration. They are as follows: Alpha Chi (Honorary Scholastic), Beta Beta Beta (Biology), Beta Gamma Sigma (Business), Blue Key National Honor Fraternity, CAB (Campus Activities Board), Campus Ministries, CARE (Counselors and Religious Educators), Cheerleaders, College Republicans, Covenant, Fellowship of Christian Athletes, International Student Association, Kappa Delta Pi (Education), Kappa Kappa Psi (Band), Mathematics and Logic Society, National Student Speech, Language and Hearing Association, Ouachita Psychological Society, Ouachita Student Educators Association, Ouachita Student Foundation, Ouachita Student Senate, Ouachitonian, Pew Younger Scholars Program, Phi Alpha Theta (History), Phi Beta Lambda (Business), Phi Mu Alpha Sinfonia (Music), Pi Kappa Lambda (Music), Reaching Out to Multicultural Students (ROMS), Sigma Alpha Iota (Music), Sigma Tau Delta (English), Signal, Tau Beta Sigma (Music), Theta Alpha Phi (Theatre), and Young Democrats.

Publications

The Signal, a weekly newspaper published by a student staff and sponsored by the Department of Communications, is devoted to news about the University.

The Ouachitonian, the yearbook, contains pictures of students, clubs, and important events of the University year.

Career and Corporate Development

Students and graduates who need help securing employment, or employers scheduling recruiting visits, should contact Career and Corporate Development. The office maintains files for students and alumni, provides career information, coordinates job interview sessions, and assists students with career fairs and online applications. Additional services include résumé writing, preparing appropriate correspondence, preparation for professional interviews, mentor programs, a media center, and counseling for graduate school applicants. FOCUS, an on-line career information and guidance system, provides extensive information about occupations, values, interests, skills, education programs, and more. The NACElink Network allows students to post their résumés on-line in response to specific job listings. Extensive career information and career counseling is also available to all freshmen and sophomores. Juniors are encouraged to seek summer internships through the center. Emphasis is placed on individual attention. All students, at all levels, are strongly encouraged to participate.

STUDENT EXPENSES

Fees charged to students not in residence in university dormitories include all privileges of the University except those pertaining to resident life. The University has no out-of-state tuition charges.

All regular students are entitled to admission without charge to concerts, lectures, forensic and athletic events except where reserve seat charges are added, or where admission charges are authorized for the benefit of student organizations. The fees also include use of health services, the University publications, social activities, and use of the University testing services.

Damage to University property, including laboratory equipment, will be assessed against students who are responsible at the cost of repairs or replacement.

The University encourages students to keep their personal finances within moderate limits. Students should allow approximately \$475 per semester for books and reasonable amounts for clothing, travel, amusements, and incidental expenses. Student Financial Services issues vouchers for the OBU Bookstore to students with credit balances or book scholarships.

The University does not provide banking services on the campus. There are, however, four financial institutions in Arkadelphia, all of which carry personal accounts at a nominal monthly charge. An ATM machine is available in the Student Center.

Manner of Payment

Students may choose one of the following payment options:

- 1) A student's account may be paid in full by registration each semester.
- 2) The balance due after verified financial aid may be paid in five monthly installments over the course of a semester with a \$35 per semester handling charge. The first payment is due at the student's initial registration in August or January and the remainder may be paid in monthly installments due on the 15th of each month with the final payment due by December 15th in the fall, and the final day of school in the spring, May 13th. Any account not paid in full by the completion of the appropriate semester will be charged interest on a monthly basis at a rate equal to 1% above the Bloomberg Financial Services Prime Rate.

Students who do not pay in full by registration will be automatically signed up for the monthly payment plan. Late monthly payments will be charged a \$20 late fee for every month that the payment is late. Any payments will be applied to previously outstanding charges before they will be applied to current semester charges.

Additional charges such as music fees, traffic fines, private room, and tuition overload, along with hourly rates for part-time students, may be spread over the semester they are incurred, and thus become part of the monthly installment plan.

Fees for May term, summer sessions, and winter mini-terms are due upon enrollment for those terms.

Refunds

Refunds upon withdrawal from the University or withdrawal from a class when special fees are charged are handled as follows:

Tuition and Fees. If withdrawal occurs within the first two weeks of classes, 20% of tuition and fees will be charged; during the third week, 40% will be charged; during the fourth week, 60% will be charged; during the fifth week, 80% will be charged, and thereafter full charge will be made. During the summer, one day is considered equal to one week of a regular semester.

Room and Board will be refunded on a pro rata basis upon official withdrawal.

The Residence Hall or University Apartment Deposit may be returned to the student at the end of his or her stay in Ouachita housing provided the residence is in good condition and the student is not indebted to the University. If a student has reserved housing, the deposit will be refunded if that student gives written notice of cancellation before June 1 for the fall semester (December 1 for the spring semester). Housing deposits will not be refunded if a student withdraws from university housing during the semester.

If a student is absent from school for at least two weeks due to illness, Student Financial Services will refund the meal plan fee on a pro rata basis when notified in writing by the Vice President for Student Services.

Settlement of Accounts

Payment in full of all semester charges must be made in Student Financial Services before a student may enroll for an ensuing semester, obtain an official transcript or graduate.

Return of Title IV Funds (R2T4)

The return of Title IV funds is administered by Student Financial Services Ouachita Baptist University. This policy applies to students who withdraw (official, unofficially) or are dismissed from enrollment at Ouachita Baptist University. It is separate and distinct from the Ouachita Baptist University Refund Policy (see Refunds section under Student Expenses in the University General Catalog). Therefore, the student may still owe funds to the school to cover unpaid institutional charges. The school may also attempt to collect from the student any Title IV program funds that the school was required to return. The calculated amount of the "Return of Title IV Funds" that is required for students affected by this policy are determined according to the following definitions and procedures, as prescribed by regulation.

The Institution has 45 days from the date the institution determines that the student withdrew to return all unearned funds for which it is responsible. The school is required to notify the student if they owe a repayment via written notice. The school must advise the student or parent that they have 14 calendar days from the date the school sent the notification to accept a post-withdrawal disbursement. If a response is not received from the student or parent within the permitted time frame or the student declines the

Student Expenses

funds, the school will return any earned funds that the school is holding to the Title IV programs. **Post-withdrawal disbursement must occur within 120 days of the date the student withdrew.**

The Return of Title IV Funds (R2T4) regulation does not dictate the institutional refund policy, however. The calculation of Title IV funds earned by the student has no relationship to the student's incurred institutional charges.

Title IV funds are awarded to a student under the assumption that he/she will attend school for the entire period for which the assistance is awarded. When a student withdraws from all his/her courses, for any reason including medical withdrawals, he/she may no longer be eligible for the full amount of Title IV funds that he/she was originally scheduled to receive.

A school is required to determine the earned and unearned Title IV aid a student has earned as of the date the student ceased attendance based on the amount of time the student was **scheduled** to be in attendance.

If the student withdraws from all his courses prior to completing over 60% of a semester, he/she may be required to repay a portion of the federal financial aid that he/she received for that term. A pro rata schedule is used to determine the amount of federal student aid funds he/she will have earned at the time of the withdrawal. Federal aid includes: Federal Loans (subsidized and unsubsidized), Perkins Loans, Parent Plus Loan, Pell Grants, SEOG Grants, ACG, SMART, TEACH and any other Title IV funds.

The return of funds is based upon the concept that students earn their financial aid in proportion to the amount of time in which they are enrolled. Under this reasoning, a student who withdraws in the second week of classes has earned less of his/her financial aid than a student who withdraws in the seventh week. Once 60% of the semester is completed, a student is considered to have earned all of his financial aid and will not be required to return any funds.

Withdrawal before 60%:

Ouachita Baptist University must perform a R2T4 to determine the amount of earned aid up through the 60% point in each *payment period*. Student Financial Services will use the Department of Education's prorata schedule to determine the amount of R2T4 funds the student has earned at the time of withdrawal. After the 60% point in the payment period or period of enrollment, a student has earned 100% of the Title IV funds he or she was scheduled to receive during the period. The institution must still perform a R2T4 to determine the amount of aid that the student has earned.

Withdrawal after 60%:

For a student who withdraws after the 60% point-in-time, there are no unearned funds. However, Ouachita Baptist University will still determine whether the student is eligible for a post-withdrawal disbursement.

Note: Ouachita Baptist University has provided an example of the calculation used to determine the amount of unearned aid a student would be expected to repay based on the reported last day of attendance of the term from which a student withdraws.

Withdrawals:

A student's **official** withdrawal date is determined by using one of the following:

- The date he/she officially withdrew with the Office of the Registrar during the Registrar's withdrawal period.
- The date the student submitted his petition to withdraw to the Office of the Registrar if the Office of the Registrar's withdrawal period has ended and the student successfully petitioned to withdraw.
- The date the student was expelled/dismissed from the university.

In the event that a student does not go through the proper withdrawal procedures as defined in the Academic Information section of the University General Catalog the student's **unofficial** withdrawal date is determined by using one of the following:

- The date the student died, if the student passed away during the semester.
- The last date that the student attended class or checked out of their dorm room, whichever is later.

The student must inform in a timely fashion, in person or by email if personal appearance is not possible, the Student Financial Services Office at finaid@obu.edu of any withdrawal occurring during a semester.

Ouachita Baptist University does not allow students to take a Leave of Absence during a semester.

Student Financial Services (SFS) determines the return of Title IV funds percentage. Institutions are required to determine the percentage of Title IV aid “earned” by the student and to return the unearned portion to the appropriate aid program.

The return of Title IV funds policy follows these steps:

Step 1: Student’s Title IV information

SFS will determine:

A) The total amount of Title IV aid disbursed (Not aid that could have been disbursed) for the semester in which the student withdrew.
A student’s Title IV aid is counted as aid disbursed in the calculation if it has been applied to the student’s account on or before the date the student withdrew.

B) The total amount of Title IV aid disbursed plus the Title IV aid that could have been disbursed for the semester in which the student withdrew.

Step 2: Percentage of Title IV Aid Earned:

SFS will calculate the percentage of Title IV aid earned as follows:

The number of calendar days completed by the student divided by the total number of calendar days in the semester in which the student withdrew.
The total number of calendar days in a semester shall exclude any scheduled breaks of more than five days.

$$\text{Days Attended} \div \text{Days in Enrollment Period} = \text{Percentage Completed}$$

If the calculated percentage exceeds 60%, then the student has “earned” all the Title IV aid for the enrollment period.

Step 3: Amount of Title IV Aid Earned by the Student

SFS will calculate the amount of Title IV Aid earned as follows:

The percentage of Title IV aid earned (Step 2) multiplied by the total amount of Title IV aid disbursed or that could have been disbursed for the term in which the student withdrew (Step 1-B).

$$\text{Total Aid Disbursed} \times \text{Percentage Completed} = \text{Earned Aid}$$

Step 4: Amount of Title IV Aid to be Disbursed or Returned:

- If the aid already disbursed equals the earned aid, no further action is required.
- If the aid already disbursed is greater than the earned aid, the difference must be returned to the appropriate Title IV aid program.

Student Expenses

Total Disbursed Aid – Earned Aid = Unearned Aid to be Returned

- If the aid already disbursed is less than the earned aid, the SFS will calculate a Post-Withdrawal Disbursement.

Earned AID:

Title IV aid is earned in a prorated manner on a per diem basis (calendar days or clock hours) up to the 60% point in the semester. Title IV aid is viewed as 100% earned after that point in time. A copy of the worksheet used for this calculation can be requested from the financial aid director.

In accordance with federal regulations, when Title IV financial aid is involved, the calculated amount of the R2T4 Funds is allocated in the following order:

Return of the Title IV Aid, based on the type of aid disbursed, in the following order:

1. Unsubsidized Federal Direct Loan
2. Subsidized Federal Direct Loan
3. Federal Perkins Loans
4. Federal Direct PLUS received on behalf of the student
5. Pell Grant
6. ACG Grant
7. SMART Grant
8. SEOG Program Aid
9. Teach Grants
10. Other Title IV Aid

Loans must be repaid by the loan borrower (student/parent) as outlined in the terms of the borrower's promissory note.

The student's grace period for loan repayments for Federal Unsubsidized and Subsidized Direct Loans will begin on the day of the withdrawal from the University. The student should contact the lender if he/she has question regarding their grace period or repayment status.

Institutional and student responsibility in regard to the Federal Return of Title IV Funds policy

SFS's responsibilities in regard to the Return of Title IV funds policy include:

1. Providing each student with the information given in this policy;
2. Identifying students affected by this policy and completing the Return of Title IV Funds calculation;
3. Informing the student of the result of the Return of Title IV Funds calculation and any balance owed to the University as a result of a required return of funds;
4. Returning any unearned Title IV aid that is due to the Title IV programs and, if applicable, notifying the borrower's holder of federal loan funds of the student's withdrawal date;
5. Notifying student and /or Plus borrower of eligibility for a Post-Withdraw Disbursement, if applicable;

The student's responsibilities in regard to the Return of Title IV Funds policy include:

1. Becoming familiar with the Return of Title IV Funds policy and how withdrawing from all his courses effects eligibility for Title IV aid;
2. Resolving any outstanding balance owed to Ouachita Baptist University resulting from a required return of unearned Title IV aid.

Post-Withdrawal Disbursements

In the event a student is eligible for a post-withdrawal disbursement based on the student's budget, awarded financial aid and Title IV funds and R2T4 calculations, a post-withdrawal disbursement must be made only after the following conditions are met.

1. Student and parents were in most cases verbally notified of the availability of post-withdrawal disbursements by Student Financial Services within one week from the date of R2T4 calculation was performed.
2. Student and parents in most cases verbally notified Student Financial Services within a reasonable time indicating their acceptance of available post-withdrawal disbursement amounts. The reasonable time refers to allowing sufficient time for school to process a post-withdrawal disbursement within the deadlines set by the Department of Education.
3. Student has outstanding institutional charges that are due and wants to pay off those charges by applying his/her post-withdrawal disbursement.
4. Student/Parents completed all necessary paperwork related to such post-withdrawal disbursement within a reasonable time.
5. Student Financial Services must track the notification and authorization to make the disbursement and meet deadlines as prescribed by ED. A school must process Title IV aid within 120 days from the last day of the enrollment period.

The post-withdrawal disbursement must be applied to outstanding institutional charges before being paid directly to the student.

The procedures and policies listed above are subject to change without advance notice.

STUDENT FINANCIAL AID

The costs of tuition, fees, room, and board at Ouachita are among the most economical of private universities in the nation. Ouachita is an affordable, yet superior, private education guided by Christian influences and ideals.

The Office of Student Financial Services provides a comprehensive program that includes merit-based and need-based scholarships, as well as grants, loans, and part-time campus employment designed to help eligible students. The office exists for the purpose of securing and providing financial assistance for students who, without such aid, would be unable to attend the university. Over 90 percent of all students qualify for and receive some form of financial assistance.

FINANCIAL AID APPLICATION PROCESS

Students who wish to apply for university scholarships and discounts listed in this catalog must contact the Office of Student Financial Aid for information on how to apply. Merit-based scholarships for incoming freshmen are awarded on the basis of ACT/SAT scores, grade point averages, and other criteria relevant to specific scholarships. Merit-based scholarships for currently enrolled students are awarded based on the cumulative Ouachita grade point average. Incoming freshmen may apply for institutional aid at the time of application for admission to university. It is the responsibility of the student to contact the Office of Student Financial Services for any deadlines that apply. (A few scholarships require separate application and are noted accordingly.)

Students wishing to be considered for need-based aid should complete the Free Application for Federal Student Aid. The FAFSA is required to determine eligibility for Ouachita, federal, and state need-based aid. The application should be completed after December 31 each year with the most current year's tax information. The FAFSA processing deadline at Ouachita is June 1 prior to enrollment.

UNIVERSITY SCHOLARSHIPS

Trustee Scholarship- Arkansas Governor's Distinguished Scholars: Scholarships up to full cost of tuition, room, board, and fees (excluding extra room charges for the Student Village) are available to recipients of Arkansas' Governor's Scholarship. Recipients must maintain a grade point average of 3.250 eligibility for the Governor's program in order to continue eligibility under the Trustee Scholarship.

National Merit Ouachita Baptist University Scholarship. Ouachita is a college sponsor of the National Merit Scholarship Corporation and annually designates a minimum of three \$1000 awards per year to National Merit Finalists which will be included as part of the Trustee award. Finalists must select Ouachita as first choice school with National Merit Scholar Corporation by March 1 to be considered for award and cannot be chosen for another NMSC or corporate sponsor award.

Presidential Scholarship: Full tuition scholarships are awarded to seven incoming freshmen each year. One scholarship is awarded in each of the following areas of study: Business, Christian Studies, Education, Fine Arts, Humanities, Natural Sciences, and Social Sciences. A cumulative GPA of 3.250 is required to retain scholarship.

These scholarships are funded by the John and Mayme Carter Fund; Carole Nelson Ricks University Science Scholarship Fund; Perrin-Conger Memorial Scholarship Fund; and the Harvey and Bernice Jones Charitable Trust. The Humanities Scholarship is named in honor of Fay Holiman. The Christian Studies Scholarship is named in honor of Charles and Ann Ferguson.

Ouachita Scholars Scholarship: Scholarships ranging from \$6,000 to \$10,000 per year are available to entering freshmen. Scholarships are based upon academic performance indicators such as ACT/SAT scores and high school GPA. A cumulative GPA of 2.75 must be maintained in order to retain the scholarship.

Ouachita Collegiate Award: Awards ranging from \$2,500 to \$4,000 per year are available to entering freshmen. Awards are based upon academic performance indicators such as ACT/SAT scores and high school GPA. A cumulative GPA of 2.00 must be maintained in order to retain the award.

Transfer Scholarships: Scholarships ranging from \$2,500 to \$7,500 per year are available to entering transfer students. Scholarships are based upon academic performance as determined by the accepted college GPA. A cumulative GPA of 2.00 must be maintained in order to retain the scholarship.

Acteens Scholarship: Scholarships ranging from \$200 to \$550 per year are available to incoming freshmen students who have completed various levels of Missions Quest achievement. The Acteens Scholarship can be held in conjunction with other institutional scholarships. A cumulative GPA of 2.000 is required to retain scholarship.

Associational Scholarship: OBU scholarships available from each association within the Arkansas Baptist State Convention. The amount is \$250 per year totaling \$1000 for four years of study. The Associational Scholarship may be held in conjunction with other institutional scholarships. Applications should be obtained directly from associational offices. A cumulative GPA of 2.000 is required to retain scholarship.

Ben Elrod Endowment: The Ben Elrod Scholarship and the Honors Council Scholarship are awarded annually to outstanding Junior participants in the Carl Goodson Honors Program. The Honors Council recommends the recipients to the President.

Church Matching Grant: \$250 per student will be matched by Ouachita for any in-state or out-of-state Southern Baptist Church wishing to financially support an OBU student. Scholarships will be matched on a first-come, first-served basis to the extent matching funds are available.

First Tee Scholarship: Two full tuition, fees, room, and board scholarships are available to The First Tee participants who have been certified through The First Tee program at learning facilities across the country. Scholarships are available for up to 8 semesters of study. A cumulative grade point average of 3.25 is required to maintain scholarship.

International Study: Funding is available for students interested in pursuing an international study program approved by the University. One-half of any OBU scholarship currently received may be used during a fall or spring semester international study period. Federal grants and student loans are available to students who meet eligibility requirements. To be eligible, a student must be considered a full-time degree-seeking student at Ouachita.

A limited number of scholarships are also available to international students who wish to study at OBU. Contact the Daniel R. Grant International Studies Office for further information.

Legacy Award: Children of former Ouachita students (the parent must have completed at least one full semester) are eligible for a \$1,000 per year award. This award is available for up to eight semesters at \$500 per semester.

Music Scholarship: The Division of Music awards performance scholarships based upon audition. Students desiring to major in music whose performance area is piano, organ, voice, or stringed instruments should contact the Dean of the School of Fine Arts for audition and scholarship information. Students desiring to major in instrumental music (band) or students desiring to participate in band should contact the Director of Bands for audition and scholarship information.

P.A.R.K. Scholarship: Scholarship and work funds up to full cost (excluding extra room charges for the Student Villages) are available to the student selected each year by the leadership of the Positive Atmosphere Reaches Kids program of Little Rock, Arkansas. Funds are renewable for up to 8 semesters of study. Student must maintain satisfactory academic progress for continuing eligibility. (Work is not required during the first fall and spring semesters of study under this program.)

Phi Theta Kappa Transfer Scholarship: \$2,000 scholarship awarded up to five outstanding junior transfer students with AA degree and Phi Theta Kappa membership. Grade point average of 3.000 is required.

THEA Foundation Scholarship: In recognition and support of the arts in Arkansas, Ouachita provides a \$14,000 (\$1,750/semester) scholarship for the first place winners in the THEA Foundation Visual and Performing Arts competition. A \$4,000 (\$500/semester) scholarship is available for students who place second through tenth in the competition. Each of these awards is renewable for up to eight semesters.

Tiger Network Scholarship: Twenty-five (25) two-thousand dollar (\$2,000) scholarships are awarded upon the recommendation of Tiger Network members. The Tiger Network is made up of Ouachita alumni who are helping the university in recruitment efforts. The scholarships are \$500 per year for four years and may be held with other scholarships and financial aid. Applications can be obtained from Tiger Network members. A cumulative 2.000 GPA is required to maintain the scholarship.

TRIO Program Scholarship: A \$1,000 OBU scholarship awarded annually to an outstanding participant in Ouachita's TRIO program.

Youth Speakers Scholarship: State-wide winners in the tournament sponsored by the Arkansas Baptist State Convention are awarded one-year scholarships in the amount of \$600 (winner) and \$400 (runner-up).

Recognition Scholarship: Scholarships in this group come from money given by friends of the University. Usually, each donor has made certain stipulations as to persons qualifying for the scholarships. Selection is by the University Awards and Events Committee. A cumulative GPA of 3.000 is required to retain scholarships. Exceptions may be made by the committee. Names of recognition scholarships are as follows:

Student Financial Aid

Abernathy, Hamilton, McKee Scholarship
Hudson Lavon and Mary Ruth Abbott Endowed Scholarship
Paul R. Aiken Scholarship
Andy Blake Allison Endowed Scholarship

UNIVERSITY DISCOUNTS

Baptist Children's Home Discount: OBU makes possible an education for those young people who are dependents of the Arkansas Baptist Children's Home and Family Ministries residential programs. A combination of federal and state aid and university discount are combined to cover all room, board, tuition, and activity fees. In order to qualify for the discount, a student must present, along with their application for admission, documentation of dependency status and a letter of support from the Director of the Arkansas Baptist Children's Home and Family Ministries, outlining a four-year commitment of tangible support of the student through such things as the purchase of books and other materials, as well as a regular financial allowance. The discount may not exceed 8 semesters and is awarded at the discretion of the Director of Student Financial Services. The discount may be withdrawn in the event that a student ceases to receive support from Arkansas Baptist Children's Home and Family Ministries.

International Missionaries (SBC) Dependent Discount: Dependent students of current or former missionaries who are eligible to receive the International Mission Board Post-Secondary Education Allowance will be eligible to receive from Ouachita a discount equal to \$3,500 per year. Families are encouraged to complete the Free Application for Federal Student Aid to determine eligibility for federal aid programs—including grants, work-study, and student loans.

Minister's Child and Spouse Discount: Available to the dependent children and wives of active, retired, or deceased ministers of Southern Baptist Churches and current associational missionaries; dependent children and spouses of full-time Ministers of Music, Education, Youth, Outreach and Recreation; dependent children and spouses of those personnel employed by the Arkansas Baptist State Convention (ABSC) Office who occupy positions that require ABSC Executive Board approval; and dependent children and spouses of chaplains who are endorsed by the North American Mission Board of the Southern Baptist Convention. The amount of the discount is \$1,000 per year.

GRANTS

Federal Pell Grant: federal grants to students with exceptional need

Grants-in-Aid: awards to selected athletes in keeping with regulations of the NCAA Division II and the Gulf South Conference

Federal Supplemental Educational Opportunity Grant (FSEOG): Federal grants which are intended to assist students with exceptional financial need. Priority is given to Pell Grant recipients.

STUDENT EMPLOYMENT

Federal Work-Study (FWS): Federal on-campus work program for eligible students. An average work load is 7-8 hours per week. Students are paid on a monthly basis. Opportunities for work in areas of community service are also available under this program.

University Student Employment Program: A university work program established to enable Ouachita to employ qualified students who do not meet federal aid eligibility requirements, but who possess skills needed by the University.

LOAN PROGRAMS (STUDENT AND PARENT)

Federal Perkins Loan: long-term, low-interest federal loans with repayment beginning nine months after the student ceases to be enrolled at least half-time. Undergraduates may be eligible to borrow up to \$4,000 annually, or a maximum of \$20,000. Priority is given to previous Perkins borrowers and Pell Grant recipients.

Federal Family Educational Loan Program (FFELP)

Federal Direct Loans: low-interest loans made to undergraduate or graduate students attending school on at least a half-time basis. Awards may not exceed the cost of education. The Federal Direct Loan Program offers two types of loans: *Subsidized* Federal Direct Loan and *Unsubsidized* Federal Direct Loan. Interest rates are variable, not to exceed 8.25 percent.

Subsidized Federal Direct Loans are awarded on the basis of financial need. Interest is paid by the Federal government during time of enrollment.

Unsubsidized Federal Direct Loans are not awarded based on need. This program enables students, regardless of income, to obtain a low-interest student loan. The borrower is responsible for interest payments during enrollment.

First-time borrowers are also required to complete an on-line student loan entrance interview prior to receipt of the first disbursement of loan funds.

Federal Parent Loans for Undergraduate Students (PLUS): low interest loans made to parents or legal guardians of dependent undergraduate students attending school on at least a half-time basis. This loan may not exceed the student's cost of attendance minus other financial aid. Interest rate is variable.

INITIAL AND CONTINUING ELIGIBILITY

To receive financial assistance, a student must be a regularly enrolled undergraduate student who is carrying twelve or more hours per semester and three or more hours each summer term attended, and who is making satisfactory academic progress (defined later). A student must not owe repayment of a Pell Grant, Supplemental Educational Opportunity Grant, or State Grant and must not be in default on a federal student loan or parent loan received at Ouachita or any other school.

DISBURSEMENT METHOD

Ouachita scholarships are awarded for a maximum of 8 semesters. Awards to transfer students will be reduced by the number of semesters previously enrolled at another institution.

All financial aid, with the exception of work-study and ministerial scholarships, is disbursed to the recipient at the beginning of the enrollment period. University scholarships may be combined (according to eligibility requirements) up to a maximum of tuition, fees, room, and board charges. For students receiving University scholarships and discounts, the maximum financial aid awarded from federal, state, private, and University sources shall not exceed Cost of Attendance set forth by the University. University scholarships and discounts are not refundable.

One-half of total aid is disbursed at the beginning of the fall semester and one-half is disbursed at the beginning of the spring semester. Financial aid will be credited to the student's account in Student Financial Services. If the amount of aid disbursed exceeds the total charges, the student will be credited with difference. If total aid is less than charges, the student will be expected to pay the difference. Changes in program funding, additional financial aid, and failure to maintain guidelines or satisfactory progress, may cancel or revise this award. The University reserves the right to make adjustments to awards. All awards are subject to change based on housing status.

Satisfactory Academic Progress

The University is required to define and enforce standards for Satisfactory Academic Progress (SAP) to encourage the student to successfully complete courses for which financial aid is received.

Quantitative Progress

Full-time students are expected to complete degree requirements at Ouachita Baptist University within 4 years (8 semesters). Completion of a minimum of 15-16 credit hours each term is necessary to graduate within that time period. University aid is limited to 8 semesters of study.

Students will be eligible to receive federal financial aid (all Title IV programs) for up 150% of their degree program's published length. These limits are prorated for longer periods of time for students enrolled less than full-time.

Federal student aid recipients are considered to be making satisfactory progress if they meet the following quantitative requirements:

By the end of the:	Credit Hours Completed if full-time	Credit Hours Completed if three quarter-time or less
1 st Academic Year	21	12
2 nd Academic Year	42	24
3 rd Academic Year	63	36
4 th Academic Year	84	48
5 th Academic Year	105	60
6 th Academic Year	128	72

The number of credit hours completed will be reviewed at the end of the spring semester each academic year. Students who fail to meet the minimum standards will be suspended from receiving financial aid until the deficient credit hours are satisfactorily completed. Summer credits may be counted toward meeting requirements for the previous academic year. Correspondence courses may also count toward the requirements for the previous academic year provided they are completed (final grade and credit recorded) during that academic year.

A course in which a grade of "incomplete" is assigned will not be used to meet course load requirements. If the incomplete is changed to a passing grade, it will be recorded in the term during which the course was taken and will then apply to the requirements.

Transfer credits will be counted as part of the cumulative GPA and quantitative progress towards a degree.

Withdrawals, repetitions, and noncredit remedial courses will not be used to meet course load requirements.

Students receiving financial aid who reduce their course loads after enrollment must contact Student Financial Services.

Qualitative Progress

Student aid recipients must also maintain minimum cumulative grade point averages (GPA) consistent with requirements for graduation to remain eligible for aid. These requirements are based upon an escalating scale of cumulative GPA as follows:

Freshman	(0-28)	1.7	Junior	(59-88)	1.9
Sophomore	(29-58)	1.8	Senior	(89-up)	2.0

Students are required to achieve a C average by graduation. C average is defined as a 2.0 on a 4.0 scale. Grade point averages will be reviewed at the end of the spring semester each academic year. Students must have the required grade point at the end of the term or they will be suspended from receiving financial aid until such time as they have achieved the required GPA.

Probation

There is not a probation period for students failing to meet satisfactory progress.

Suspension

If students are denied aid because of lack of satisfactory progress, courses must be taken at student's own expense until minimum number of hours and/or the required GPA has been reached. Once the required number of hours and/or GPA has been attained the student must inform the Director of Student Financial Services in writing for their eligibility to be reinstated.

Appeal Process

Students who feel that mitigating circumstances prevented them from making satisfactory academic progress may appeal the decision to suspend their financial aid eligibility. A written appeal may be submitted to the Director of Student Financial Services.

Academic Competitiveness Grant (ACG)

For an ACG, the student's GPA is checked only at the end of the first year. That average, which includes all the grades in the payment period in which the student completes the first year, determines whether a student can receive a second-year grant at all. If a student has a GPA below 3.0 at the end of the first year, no improvement of his average to above 3.0 will make him eligible for any part of a second-year ACG. Conversely, if his cumulative GPA is 3.0 or better at the end of the first year, a decline in his GPA will not make him ineligible for the second-year ACG.

For the first payment period of a student's ACG for the second year and for any payment period for which a student will receive a National SMART grant, a school can make an interim disbursement if final grades from the previous period are not yet available. If the grades once posted lower the student's GPA below 3.0, then the school must cancel the disbursement and it is liable for that disbursement.

National Science and Mathematics Access to Retain Talent (SMART) Grant

The cumulative GPA covers the most recently completed payment period prior to any disbursement of a National SMART grant. This allows for a change of eligibility status for SMART grant funds. A student who is ineligible for an initial grant at the beginning of his third year because his GPA isn't high enough can become eligible later that year or next year if he raises his cumulative GPA to 3.0 or higher. If his average is already 3.0 and it drops below that, he becomes ineligible for a SMART grant disbursement until his GPA is at least 3.0 again.

SAP for transfer Students who are receiving ACG or SMART Grant

To determine ACG eligibility for a student who transfers between one and two years' worth of hours, the current school must calculate GPA using grades for courses accepted from any prior institution toward the

Student Financial Aid

student's ACG-eligible program. For a student who transfers hours that constitute less than one year, the GPA is calculated using grades for all courses accepted into the eligible program and for courses earned at the current school.

When a school determines National SMART grant eligibility for transfer students and calculates the students' GPA, it must, for at least the first payment period, include grades for courses accepted for transfer into the National SMART grant-eligible program. For subsequent payment periods, the school must follow its academic policy regarding the calculation of the GPA, whether that is to include grades for courses that transfer or to exclude them.

Appeal process for ACG and SMART Grant

There is no GPA appeal process for ACGs and SMART grants.

Teach Grant

If the student is in the first year of a program of undergraduate education as determined by the institution, he or she must have a final cumulative secondary school grade point average (GPA) upon graduation of at least 3.25 on a 4.0 scale.

The student must maintain a numeric equivalent through the most recently completed payment period of at least a 3.25 on a 4.0 scale. The GPA must be based on courses taken at the institution through the most recently completed payment period.

If the student is beyond the first year of a program of undergraduate education as determined by the institution a cumulative undergraduate GPA of at least 3.25 on a 4.0 scale or the numeric equivalent through the most recently coupled payment period.

If the student is a graduate student during the first payment period, he or she must have a cumulative undergraduate GPA of at least 3.25 on a 4.0 scale, or the numeric equivalent.

If the student is a graduate student beyond the first payment period, he or she must have a cumulative graduate GPA of at least 3.25 on a 4.0.

REQUIREMENTS FOR OBU SCHOLARSHIP MAINTENANCE

Scholarships/grants offered by Ouachita Baptist University are awarded for 8 regular semesters of study (summer school not included). University scholarships awarded to transfer students will be reduced by the number of semesters previously attended at another institution. Scholarships are automatically renewed each semester provided students maintain the cumulative grade point required for the scholarship and maintain all satisfactory progress requirements. Grade points are checked at the end of each semester. One semester of warning is allowed for those students who have not maintained the required grade point. [There will not be a warning semester for those students who do not meet minimum satisfactory progress guidelines as stated above.] If the required grade point is not reached by the end of the next regular semester, the scholarship is dropped. In the event the student later raises the GPA to the required level, a written appeal for reinstatement of the scholarship may be made to the Director of Student Financial Services (with the exception of Trustee Scholarships which cannot be reinstated once they have been dropped).

SCHOLARSHIP/GRANT	CUMULATIVE GRADE POINT REQUIRED
ACTEENS/ASSOCIATIONAL/TIGER NETWORK	2.000
OBU GRANT	2.000
PRESIDENTIAL SCHOLARSHIP	3.250
SCHOLASTIC EXCELLENCE SCHOLARSHIP	2.750
TRUSTEE SCHOLARSHIP	3.250
OUACHITA SCHOLARS	2.750

The Ouachita Scholarship Committee meets annually to select students for scholarships created by friends and donors to the university. Amounts range from a few hundred dollars to full tuition and fees. A 2.50 Cumulative grade point at the time of application will be considered.

ADMISSION

All entering students are expected to abide by the standards set forth in the University's **Tiger Handbook**. A prospective student must submit a completed Application for Admission to the Office of the Registrar, Ouachita Baptist University, Box 3757, Arkadelphia, Arkansas, 71998-0001. Students may also apply on-line at www.obu.edu. A certified high school transcript and an official report of the American College Test (ACT) or Scholastic Aptitude Test (SAT) scores must be on file with the University prior to admission.

Ouachita Recommends but does not require the following high school course units for success at the college level: four in English, three in social science with American History and World History recommended, two in Natural Science preferably selected from Biology, Chemistry, and/or Physics, and two in Mathematics with Algebra I and Geometry recommended. Of the remaining units, it is recommended that at least two units be in one foreign language.

Requirements for High School Graduates

The University will consider for regular admission the application of a student who submits:

1. an official transcript from high school
2. a minimum high school grade point average (GPA) of 2.750 on a 4.000 scale
3. a minimum ACT composite score of 20 or SAT score of 940

The University may grant Conditional Admission to students who fall below the previously stated standards. Most of these students will be advised to enroll in certain Academic Skills courses. The University will refuse admission to students whose high school GPA or ACT/SAT composite score indicates an inability to meet Ouachita's academic standards.

Requirements for Non-Graduates of High School

The University will consider for regular admission the application of a student who is not a high school graduate who submits:

1. a certificate indicating one has earned 16 units in high school
2. a GPA of 3.000 or higher on a 4.000 scale in these high school units
3. a recommendation from one's principal, superintendent or counselor
4. a minimum ACT composite score of 20 or SAT score of 940

The University will consider for conditional admission the application of a student who is 18 years old or older who is not a high school graduate who submits:

1. a minimum General Education Development (GED) test score at the 50th percentile
2. a minimum ACT composite score of 20 or SAT score of 940

Requirements for Home-Schooled Students

A student who has been home-schooled and desires admission to Ouachita must submit:

1. a transcript of high school work completed
2. a high school GPA of 2.750 or higher on a 4.000 scale
3. a minimum ACT composite score of 20 or SAT score of 940

High School Student Program

High school students are allowed to take OBU classes for credit after their 10th grade year. The University will consider for admission the application of a high school student who submits:

1. a completed application for admission
2. an ACT score of 20 (SAT score of 940)
3. an official high school transcript

Requirements for Transfer Students

Those who wish to transfer to Ouachita should apply for admission as transfer students and supply course descriptions for all courses taken. Transfer students may be admitted only if they are eligible to return to the institution from which they came. They must declare all colleges and universities attended in the past. Transfer students may use any Ouachita catalog which has been in effect since they entered college, as long as the catalog is not more than 3 years old.

Admission

Students from accredited junior or senior colleges will receive full credit for courses taken in such institutions, subject to departmental or other limitations. All grades of all college level courses will be transferred and used in calculating the grade point average except those with D or F grades which cannot be repeated at Ouachita. Courses accepted in transfer must be consistent with the liberal arts character of the Ouachita curriculum. Ouachita will accept academic skills courses from other universities, but the number of hours required for graduation increases by the number of hours of academic skills courses.

Up to thirty hours will be accepted from an accredited theological seminary. Extension work from accredited colleges will be accepted up to thirty hours, including up to ten hours of such credits in the major.

A transfer student who has fewer than twenty-nine hours of acceptable credit must submit ACT or SAT scores and a transcript from previous colleges before being admitted.

Students transferring from educational institutions not accredited by a regional accreditation agency may enroll if they have a 2.000 GPA. They will receive full credit for courses taken in such institutions, but a maximum of 12 of those hours will apply toward graduation.

All students, including transfers, are required to maintain a minimum 2.000 cumulative GPA on work done at Ouachita. Transfer students who have 29 or more hours of credit are required to submit a degree plan during their first semester in residence. To earn a baccalaureate degree, transfer students must meet all requirements outlined on pages 31-32, as well as those for the degree they seek. Sixty resident hours are required □ 30 of the last 36 hours and at least 12 hours (6 junior-senior) in the major and 9 (3 junior-senior) in the minor must be taken in residence at Ouachita.

International Student Admissions

Qualified students from other countries are eligible for admission as English as a Second Language (ESL) students, freshmen, or transfer students. Students who score 78-80 internet Based Test (iBT) or 213 Computer Based Test (CBT), or 550 Paper Based Test (PBT) or higher on the Test of English as a Foreign Language (TOEFL) exam will be admitted to a degree program. Those who score below 78-80 iBT, 213 CBT or 550 PBT on the TOEFL exam will be admitted to the English as a Second Language Program. Degree-seeking students who transfer from universities outside of the US must successfully complete one regular semester of college level courses at Ouachita before being granted any transfer credit. All transfer credit must be evaluated by Educational Credential Evaluator (ece.org), the evaluator of choice for our institutional needs. The deadline for submitting an application and all other required admissions documents is July 31 for fall admission and December 20 for spring. Applicants must submit:

1. A completed and signed Application for Admission.
2. The required application fee, housing deposit, and tuition deposit.
3. A completed Ouachita Health form.
4. A completed International Student Certification of Finances (ISCF) Form.
5. Official transcripts from all secondary or post-secondary schools attended and certified copies of the results of all standardized examinations.
6. One of the following scores is required: TOEFL, ACT, or SAT.
7. Any additional requirements as published by the international programs office.

Applicants whose native language is not English must also submit scores earned on the TOEFL exam if the ACT or SAT score cannot be provided or does not meet admission requirements. Students interested in taking the TOEFL should go to www.ets.org.

For more information, contact the Daniel R. and Betty Jo Grant Center for International Education Office, 410 Ouachita Street, Box 3777, Arkadelphia, AR 71998-0001, USA. Office phone: 870.245.5197 or e-mail c07@obu.edu (“c” “zero” “seven”@obu.edu).

Department of Veterans Affairs

Ouachita Baptist University is an approved institution for veterans and veterans' beneficiaries training. Veterans of recent military service, widows, or children of military personnel who lost their lives in service or who are totally disabled as a result of service should contact the nearest VA Regional Office as far in advance of enrollment date as is possible for assistance in securing veterans benefits.

ACADEMIC INFORMATION

Academic Honesty

In order to promote scholarly endeavor and growth within a Christian environment, Ouachita expects a high level of academic integrity from all its students. This expectation is stated explicitly in the Covenant on Academic Honor, which includes a pledge that all students are obligated to uphold. Violations of proper academic conduct constitute a severe disciplinary problem, which will result in penalties that may include expulsion from class or suspension from the University. The complete Covenant on Academic Honor, including penalties and procedures for adjudicating violations, is found in the *Tiger Handbook*.

Degrees Offered

The University offers the following degrees through its various schools: Bachelor of Arts, Bachelor of Science, Bachelor of Music, and Bachelor of Music Education. Specific requirements for these degrees appear in each individual school's section of this catalog.

General Degree Requirements

Evidence of good moral character, fulfillment of all general and specific academic requirements, and formal approval by the faculty are the essential conditions for receiving a degree. A student may not participate in the commencement ceremony unless all conditions have been met.

A student must successfully complete the general requirements for graduation in either the catalog in effect at the time of admission or in a subsequent one. A student out of school more than two years must re-enter under the catalog in force at that time. Transfer students see pages 31-32.

A student desiring a second undergraduate degree from Ouachita must be admitted to candidacy by the dean of the appropriate school. At least thirty additional hours beyond those required for the first degree must be completed, and any additional requirements must be met to the dean's satisfaction. The second degree cannot be the same as the first, and a different major must be designated. All hours for the second degree must be taken in residence, but the sixty hour residence requirement for earning a baccalaureate degree will be waived.

A student is required to be present to receive a diploma at the next commencement after completing all degree requirements. In case of extreme hardship, a person may receive special permission to be graduated in absentia, if application is made to the President before the commencement date.

Details of General Degree Requirements

1. Interdisciplinary Studies: All students must successfully satisfy the general requirements in the School of Interdisciplinary Studies — see pages 51-53 for specific requirements.

2. Majors and Minors: A major consists of at least 24 hours, but not more than 40 in one department, with at least 12 on the Junior-Senior level. See residence requirements, number 8.

A minor consists of at least eighteen hours, but not more than thirty, with at least six hours on the Junior-Senior level. The minor requirement may also be met with a second major or split minor. The split minor requires a minimum of nine hours in each of two departments with at least three hours from the Junior-Senior level in each department. Split minors must be approved by the student's advisor and the appropriate chairs. The requirement for a minor applies only to the B.A. and B.S. degrees.

Specific requirements for majors and minors appear in departmental listings.

3. Grade Point Average: A student must have 24 hours with grades of C or higher in the major and must achieve a GPA of 2.000 overall and in all Ouachita work, as well as in the major, minor, and both parts of the split minor.

4. Chapel: A student must earn a chapel credit for every full-time semester (minimum of 12 semester hours) enrolled at Ouachita, up to a maximum of 7 credits. See page 40 for additional policies.

5. Foreign Language: Two semesters of the same foreign language are required. Exemption from the foreign language requirement will be given to students who make an acceptable score on a Modern Foreign Languages Department-administered competency examination. The foreign language requirement is waived for non-native English speakers.

6. Hours Requirement: A minimum of 128 semester hours is required for graduation.

NOTE: No more than 40 hours may be counted toward graduation in a student's major department. No more than 30 hours may be counted toward graduation in any other department. A maximum of 4 hours of music ensembles and 2 hours of physical education activities courses may count toward the 128-hour requirement.

7. Junior-Senior Hours: A student must complete a minimum of 42 hours of courses from the 3000/4000 level. At least 12 must be in the major and 6 in the minor.

8. Residence Requirement: Only courses for which a student is enrolled at Ouachita count toward the residence requirement. A baccalaureate degree requires 60 resident hours, including 30 of the last 36. At least 12 in the major and 9 in the minor must be taken in residence. A minimum of 12 junior-senior hours in the major and minor must be taken in residence. Of those 12, at least 6 must be in the major and at least 3 in the minor.

Academic Advisors

Ouachita provides guidance for one's studies in two ways: (1) by the admission and degree requirements explained in this catalog, and (2) by faculty members who advise individual students toward their educational and vocational objectives. Freshmen are assigned to an academic advisor, but students may change advisors at will in the office of the dean of the school of their major.

Registration

Students who have been officially admitted to the university may enter at the beginning of any regular session. Students should pre-register during the specified registration period, but only a student's official advisor may perform that function. Late registration is discouraged and is forbidden after the third day of classes. Students registering after the official Registration Day will pay a \$20 fee for each day late, up to a total of \$60. Students must complete initial registration for a regular semester by 5:00 PM on the third day of classes and may add a class until 5:00 PM on the sixth day of classes. Registration is not complete until the student has arranged payment of charges with Student Financial Services.

Students may pre-register for courses during the specified pre-registration period or any time thereafter until Registration Day. Newly-admitted freshmen complete pre-registration during one of the official Early Registration sessions (ER) prior to Registration Day. Transfer students may pre-register in the same manner as current students. Pre-registered students must confirm their class schedule on Registration Day to be registered officially.

Credit will not be given in a course for which a student is not officially registered.

Changes in Registration

Students may obtain Drop/Add forms and Course Withdrawal forms from the Dean of their School. After Registration Day, Ouachita charges a \$15 fee for each submitted form.

The last day to add, drop, or withdraw from a course appears in the official Ouachita calendar printed inside this catalog's front cover.

The distinction between dropping and withdrawing is as follows: A course which the student has officially dropped will not appear on the student's record. A course from which the student has officially withdrawn will be assigned a final grade of W.

Failure to attend without either dropping or withdrawing officially from a course will result in a grade of F.

Definition of the Credit Hour

The semester or credit hour, the basis for accreditation of academic work, typically represents one fifty-minute recitation or its equivalent per week for one semester. One recitation period presumes that the student must spend at least two additional hours in preparation, laboratory work, or both.

Academic Load

The average course load is 16 hours per semester. Fewer than 12 or more than 18 hours per semester is considered outside the range of the normal load. A person carrying 12 or more hours is classified as a full-time student. A student carrying more than 18 hours per semester must have the permission from the dean of the school in which enrolled. Those registered for fewer than 10 semester hours, or not pursuing a degree program in the University, are classified as special students.

Overload exceptions will be based on the following grade point requirements: 18.5 hours, 2.800 cumulative GPA; 19 hours, 3.300 cumulative GPA; 20 hours, 3.600 cumulative GPA; 21 hours, 3.900 cumulative GPA. Loads over 21 hours will not be allowed.

In any semester, students may not register for more than 3 courses under the same instructor unless they have the approval of the departmental chair and permission from the dean of the school.

A student may not simultaneously register in another school without written prior permission of the Vice-President for Academic Affairs. The student's semester load will be determined by the total number of hours attempted in all institutions and is subject to the limits explained above. Students must receive written approval prior to enrolling for courses at another college or university either in person or by correspondence. The approval form is available in the Academic Affairs Office.

Repeating Courses

A student may repeat a course in which a D or F has been previously recorded. The second and any succeeding grades will be used to calculate the grade point average, though all grades will appear on the transcript. If a student repeats a course in which a C or better has been recorded without prior Deans' Council approval, both grades will be included in the GPA, though credit hours will be recorded only once. Courses being repeated count toward the total load.

Enrollment as an Auditor

Enrollment as an auditor is permitted in all courses subject to the approval of the instructor and the Dean of the School. Enrollment as an auditor may be changed to one for credit if the change is made not later than the 6th day of class of the semester or the 2nd day of a summer term, and if the instructor and the Dean approve. Fees for enrollment as an auditor are the same as fees for enrollment for credit. Courses taken by an auditor will be listed on the transcript with the designation AU provided the student has attended at least 75% of the class meetings. A change from credit to audit must be made no later than the last day to drop for each semester. Courses taken by audit receive no credit. Online classes cannot be audited.

Classification of Students

Special students are those registered for fewer than 10 semester hours or not pursuing a degree program in the University.

An undergraduate student is not entitled to class privileges until certified by the Registrar as a member of that class. A student becomes a sophomore after earning 29, a junior after earning 59, and a senior after earning 89 semester hours.

Class Standing	Freshman	Sophomore	Junior	Senior
Hours Earned	0 – 28.5	29 – 58.5	59 – 88.5	89 – and above

Degree Plan

A student must file a degree plan in the appropriate dean's office as soon as the degree objective is decided. A degree plan is the official declaration of a student's major. Students who entered as freshmen may not participate in registration, including pre-registration, for their first junior semester until a degree plan is on file with the school dean. Transfer students who enter as sophomores or higher must file a plan during the first semester in residence, no later than the beginning of the pre-registration period.

The student prepares a degree plan stating curriculum objectives--including courses in the CORE, the major, the minor, and electives--to meet all degree requirements. The degree plan, developed in consultation with the academic advisor, becomes the program which, if completed successfully, leads to the conferring of the desired degree.

The student is responsible for the content and successful completion of the degree plan. Since the advising program and the degree plan are aids in meeting degree requirements, it is advantageous to file as early as possible.

Graduation Check

In order to verify that a student has met all requirements for graduation, a Dean's Degree Check and a Graduation Check must be conducted. These checks are to be done in the semester prior to the student's semester of graduation. The following steps must be taken:

1. A Dean's Degree Check must be done by the dean of the student's major. After it is established that the student meets all graduation requirements, the student makes an appointment with the Registrar's Office for a Graduation Check.
2. A final Graduation Check must be conducted by the Registrar's Office.

It is the student's responsibility to make appointments for the Degree Plan Check and the Graduation Check. Students will not be considered for graduation until both steps are complete.

Henderson State University Courses for Ouachita Students

Ouachita students may take courses at H.S.U. that enhance their degrees, provided they have been approved by the chair of the Ouachita department and dean of the school in which the course is offered, the student's academic advisor, and the Vice-President for Academic Affairs. The Henderson instructor reports the grade directly to the Ouachita Office of the Registrar where the credit and grade are recorded on the student's transcript with the letter H preceding the departmental designation. The student is expected to meet all requirements established by Henderson and the instructor.

Students are expected to take all courses offered by Ouachita at Ouachita unless there is an irreconcilable schedule conflict.

Correspondence Courses

A student may take no more than 6 hours by correspondence. The student must obtain prior approval from the chair of the department in which the course is offered and from the dean of the school. The final course grade for a graduating senior must be submitted to the Registrar prior to the beginning of the student's final semester. Correspondence courses do not apply to the Ouachita residence requirement. Permission forms are available in the Dean's Office.

Internet-based Courses

Ouachita offers a limited number of Internet-based courses that count toward the residency requirement. Ouachita accepts Internet-based courses on the same basis as all other transfer credits.

Credit by Examination

Ouachita grants degree credit on the basis of a number of advanced-standing examinations. The total credit by examination which may be counted toward a degree may not exceed 24 hours, and not more than 9 of these may be counted in the major, nor 6 in the minor. For courses passed by examination, credit but no grade is recorded.

A student may not receive credit by examination in a course if more advanced work has been taken in that subject, or if a grade below C has been recorded in a course which is prerequisite to the course in which credit is sought. All programs that lead to credit by examination are considered as advanced placement programs. Their recommended use is to allow students to take more advanced courses in each of the specified areas rather than bypassing portions of the general education curriculum.

College Level Examination Program: The Subject Tests may yield equivalent credit when evaluated by the appropriate department chair. Credit will be awarded only for CLEP Subject Examinations. Please refer to www.obu.edu/academics/apandclep for a list of appropriate Subject Tests and specific score requirements.

Tests may be scheduled and taken at any CLEP Center. Official score reports should be sent to the Office of Academic Affairs at Ouachita, center number 6549.

International Baccalaureate Program: Credit may be granted for a score of 5 or higher on the higher level examinations. Credit is not awarded for tests taken at the standard level. Scores should be reported to the Office of Academic Affairs at Ouachita.

Ouachita Credit Examinations: In subjects in which no CLEP subject test is available, a student may receive credit in a course by passing an examination given by the chair of the department in which the course is offered. Permission must be obtained from the Dean of the School in which the student is enrolled, and a non-refundable fee of \$50 per semester hour must be paid to Student Financial Services in advance.

After the examination is completed, the instructor must submit the examination papers, signed application, and fee receipt or fee receipt number to the Dean of the School. The Dean of the School is responsible for having the credit recorded in the Office of the Registrar. The examination must be completed with a grade of C or above to receive credit. If the examination is successfully completed, credit but no grade will be recorded on the transcript.

Advanced Placement: The University accepts credits established by a grade of 4 or higher on the Advanced Placement program of Educational Testing Service. Tests are given by the high schools in May of each year. Inquiry should be made directly to the teacher of the course or the principal of the high school. Scores should be reported to the Office of Academic Affairs at Ouachita. Please refer to www.obu.edu/academics/apandclep for a link to specific score requirements.

Course Offerings

All courses are open to all students, subject to any prerequisites or restrictions listed in the course description. Every effort is made to offer courses during the semesters specified in the catalog.

The University reserves the right to withdraw, add or change courses.

The schedule of classes is available online at least one week in advance of pre-registration. For specific information about all course offerings, contact the Office of Academic Affairs.

Numbering of Courses of Instruction

A four-digit number is assigned to each course in the university curriculum and is unique within the department or school that lists the course. Half-credit courses are indicated by a 5 following the decimal point.

The first digit of the course number indicates the course's academic level. If the first digit is 1, the course is primarily for freshmen; if 2, for sophomores; if 3, for juniors; and if 4, for seniors.

The second and third digits usually designate the order in which the course is to be taken in relation to other courses in the same department. For example, CORE 2313 should be taken before 2323. Special middle digits 70-99 are used to indicate special categories of courses. For example, 70-79 are used for variable topics courses in some departments; 80-96 for special courses, individual studies and workshops; and 98 for Honors Directed Studies, Seminars and Thesis. For example, Philosophy 2981 indicates an Honors Directed Study in that department.

The fourth digit (and fifth, in some instances) indicates the amount of credit assigned to the course. For example, CORE 1013 indicates that three semester hours are considered attempted and three hours of credit are given for successful completion of the course. MUEN 1000.5, Concert Choir, indicates one-half hour of attempt or credit.

Special Courses and Individual Studies

Group studies, readings, and research courses are available in many departments. The purposes of these studies are enrichment of the curriculum, involvement in current issues, employment of expertise of resident or visiting scholars, and study of topics not included in standard courses. Topics may be proposed by an instructor or 3 students on application forms supplied by the Dean of the School by mid-semester prior to the projected course offering. Applications should describe succinctly the study's bounds, the research design, or the creative work to be undertaken. If approved by the department chair and the Dean of the School, the course will appear in the regular class schedule. The course name should be a brief but accurate description of the study's subject and should not parallel another course in the catalog. A student may take a maximum of 12 hours in such courses but not more than 8 of these in the major.

A special course may be offered on a Satisfactory-Unsatisfactory basis when recommended by the department chair and approved by the Dean of the School. Successful completion of a course so offered will not contribute to the required 2.0 GPA in the major or minor.

Developmental Programs

Ouachita offers programs in tutoring and special (ASKL) courses in reading, math and study skills. See page 49.

Courses by Conference

Seniors who lack required courses which are not currently scheduled and for which no suitable substitution can be found may take catalog courses by conference. They must secure in advance of registration the consent of the instructor, the departmental chair and the Dean of the School.

Grades

Scholastic achievement at Ouachita is indicated by these symbols:

- A indicates superior work.
- B indicates good work.
- C indicates average work.
- D indicates the minimum standard for passing.
- F indicates failure to achieve a passing quality of work.
- I indicates that a student's required work is incomplete and is given at the discretion of the instructor for good and sufficient reason. A grade of "I" automatically becomes "F" unless the deficiency is made up before the last day of regular class.
- W indicates that the student officially withdrew from the course.
- AU indicates that a student was registered as an auditor, not for credit, and attended at least seventy-five percent of the class meetings.
- S indicates credit for work done under the Satisfactory-Unsatisfactory policy (below) which will not carry quality credits or affect the GPA.
- U indicates unsatisfactory work in a non-graded course and calculates as an "F" in the GPA.

Satisfactory-Unsatisfactory Policy:

Junior and senior students with a cumulative GPA of 2.000 or higher may take 2 elective courses on a satisfactory-unsatisfactory basis with prior approval of their instructor, advisor, and dean. The student will be assigned the grade of S (credit, satisfactory performance) or U (no credit, unsatisfactory performance). Permission to take an elective course on a Satisfactory-Unsatisfactory basis must be obtained during the first 6 days of a regular term, or during the first 2 days of a summer term. The enrollment status may not reverse after the sixth day of a regular term, or the first two days of a summer term.

Courses in observation in the public schools and in student teaching, the Washington Seminar, Honors Program studies, internships, and all credit by examination are regularly offered on a Satisfactory-Unsatisfactory basis. A special course may be offered on an S-U basis when recommended by the department chair and approved by the dean of the school.

Changes of Grades

Instructors may change final grades as soon as they discover an error. A grade that has been allowed to stand unchallenged past Monday of the tenth week of the next semester is considered final.

Quality Credits and Grade Point Average

Quality credits are assigned to the grades on the following formula: the number of semester hours credit times 4 for an A, 3 for a B, 2 for a C, and 1 for a D, and none for an F or U.

The GPA is calculated by dividing the sum of quality credits by the sum of attempted hours for grades A through F and U and carried to 3 decimal places.

GPA requirements for graduation are 2.000 cumulative on all course work, 2.000 on all Ouachita course work, 2.000 in the major, 2.000 in the minor.

Academic Honors Recognition

The honor roll compiled at semester's end lists the names of undergraduates whose grade records are considerably above average. The minimum qualifying quality credit average is 3.500 or above on those courses for which credits are given. Students who have a 4.000 GPA are named to the President's List. Students who have a GPA of 3.500 up to 3.999 will be placed on the Deans' List. To be eligible for the President's or Dean's Lists, a student must not only have the stipulated quality credit average but also must be registered for at least twelve hours of academic courses and have no incomplete or failing grade for the semester.

Graduation with honors is accorded to graduates who achieve at least a 3.500 overall GPA for both their college careers and on their work at Ouachita. Graduation with honors is based on the following levels of achievement:

Cum Laude	3.500-3.749 cumulative GPA
Magna Cum Laude	3.750-3.949 cumulative GPA
Summa Cum Laude	3.950 or higher cumulative GPA

The Faculty must recommend that students graduate with honors.

Academic Probation

Academic Probation is the status of a student whose academic performance is below minimal standards. After grades are posted, the student, advisor, and Registrar will be notified of the student's placement on Probation I, Probation II, or Academic Suspension.

A student will be placed on Probation I when the following requirements are not satisfied:

Cumulative GPA of 1.700	0 – 28.5 semester hours
Cumulative GPA of 1.800	29 – 58.5 semester hours
Cumulative GPA of 1.900	59 – 88.5 semester hours
Cumulative GPA of 2.000	89 – and above semester hours

A part-time student who does not meet the above minimal standards will be placed on Probation I when the attempted hours reach the equivalent of a full load (12 hours).

A student on Probation I status whose semester GPA is less than 2.000 or who does not raise the cumulative GPA to meet the above minimal standards will be placed on Probation II. A part-time student on Probation I status whose semester GPA is less than 2.000 or whose cumulative GPA does not meet the above minimal standards after the next 12 hours will be placed on Probation II.

A student on Probation II status whose semester GPA is less than 2.000 or who does not raise the cumulative GPA to meet the above minimal standards will be placed on Academic Suspension. A part-time student who is on Probation II status whose semester GPA is less than 2.000 or whose cumulative GPA does not meet the above minimal standards after the next 12 hours will be placed on Academic Suspension.

While on Academic Suspension, a student may not earn credit to be transferred to Ouachita.

After being placed on Academic Suspension status, a student may apply for readmission following a lapse of at least one regular semester. At the Deans' Council's discretion, a student on Probation II whose semester work would result in Academic Suspension may be considered for immediate readmission if the student has attempted 89 or more semester hours and makes a semester GPA of 2.000 or better. In all cases, written application to the Deans' Council for readmission must state reasons for desiring reinstatement and plans for remedying academic deficiencies.

A student who has been suspended for academic reasons and readmitted to the University will be placed on Probation II status.

Freshmen entering on Conditional Admission I and students placed on Probation I must complete a diagnostic reading examination and, if examination results so indicate, enroll in ASKL 1031 Fundamentals of Reading or ASKL 1041 Developmental Reading. A student entering on Conditional Admission I must enroll in ASKL 1011 Transition Seminar. The academic load of a student on Conditional Admission I, Conditional Admission II, Probation I, or Probation II must not exceed 14.5 hours, except by permission of the Coordinator of Academic Services. The student's program of study should help that student attain regular academic status.

A student on Probation I, as a condition of registration, shall have passed or be enrolled in ASKL 2001 Success Seminar and repeat such courses with D or F grades that will contribute most to the requirements of a degree. A student may repeat a course in which a D or F has been previously recorded. The second and any succeeding grades will be used to calculate the GPA.

A student on Probation II or Conditional Admission II, as a condition of registration, shall have passed or be enrolled in ASKL 2001 Success Seminar, repeat such courses with D or F grades that will contribute most to the requirements of a degree and sign a contract of participation in the Student Retention Program. A student's failure to honor the contract will be grounds for being asked to withdraw from school.

Regaining Regular Academic Status

A student on Conditional Admission I may attain regular academic status by meeting the minimum cumulative GPA requirements for the number of hours attempted as stated above.

A student on Conditional Admission II, Probation I or Probation II may attain regular academic status by meeting the following conditions:

1. Achieve a semester GPA of 2.000 AND raise the cumulative GPA to meet the minimal standard as stated above. For the purpose of attaining regular academic status, the GPA will be calculated at the end of the fall and spring semesters and the second summer term.
2. Maintain a minimum course load of 12 semester hours during the semester or 9 semester hours during the summer terms if a full-time student, or accumulate attempted hours equal to a full-time load (12 hours) if a part-time student.

Academic Appeals

Any student seeking an exception to academic policy may petition the Deans' Council. Forms are available in the Office of the Registrar. The Deans' Council will notify the student in writing of its decision. Referrals or appeals from the Deans' Council to the President must be made in writing, with all pertinent records and reports included. No appeal will be considered until all materials are furnished. The President's response to the referral/appeal will be made in writing to the student, with copies to members of the Deans' Council, Registrar, and Vice President for Academic Affairs.

Class Attendance

Students are expected to attend all classes in which they are enrolled. Absentee policies for particular classes are at the discretion of the individual faculty member.

Academic Requirements for Chapel

A student must earn a chapel credit for every full-time semester (minimum of 12 hours) enrolled at Ouachita, up to a maximum of 7 credits. Chapel credits are not required, during the semester of student teaching or participation in an international studies semester. Chapel credit is granted at the conclusion of each semester.

In order to receive a semester's chapel credit, a student must attend at least three-fourths of the regularly scheduled chapel programs or complete the Open Chapel requirement. (To receive a chapel credit, a student can miss **no more than 4** chapel programs.) In exceptional circumstances, students who are deficient in chapel credits may be allowed to enroll in Chapel Makeup I or II through the Office of Academic Affairs.

OPEN CHAPEL: Juniors or seniors may opt to take an open chapel for one semester. The student may pre-register for open chapel during the normal pre-registration process. Open chapel verification reports may be obtained in the Dean of Students' office at the beginning of each semester. Completed reports must be turned in to the Dean of Students' office by noon on Wednesday prior to final exams in order to receive a chapel credit. A student may not enroll in both chapel and open chapel concurrently.

TRANSFER STUDENTS: Transfer students are required to earn 1 chapel credit for every semester of full-time enrollment at Ouachita, up to a maximum of 7 chapel credits. Full-time enrollment is defined as a minimum of 12 semester hours. ***No chapel credit will be awarded for chapel attendance at former colleges or universities.***

SECOND DEGREE STUDENTS: Students who attend Ouachita to seek a second degree are required to earn 1 chapel credit for each semester they are enrolled as a full-time student, up to 7 credits. If the student's first degree is from Ouachita, the chapel requirement has been met.

ACCELERATED STUDENTS WITH CLEP AND/OR AP: Students who have received credit for CLEP and/or AP must earn a chapel credit for each semester of enrollment up to 7 credits.

The chapel requirement is for ***all full-time students.***

Withdrawal from the University

A student may withdraw voluntarily or at the request of the University. The student may be asked to withdraw if

1. it is determined that the student's actions or attitudes are unworthy of a good campus citizen;
2. his or her scholastic record falls below normal expectations or for failure to regain regular academic status, as explained on page 39; or
3. the student's financial record is unsatisfactory to the University.

When a student withdraws from the University for any reason, that student must report in person to either the Office of Student Services or the Office of Academic Affairs. From that point, clearance will be obtained from Student Financial Services, Library, and other check points. Withdrawal is complete when the residence hall check-out sheet is forwarded to the Office of Student Services. Failure to complete the process will result in continued charges for food and housing. Any student who withdraws or is suspended must leave campus within 24 hours. Instructors will assign letter grades to any student who withdraws from the University after the last day to withdraw from a course designated in the school calendar.

Transcripts

A student wishing to have an official transcript sent to another institution should request one at least a week before it is needed. The request must be approved by both the Registrar and the Student Financial Services office. No transcript is issued to or for a student who is in debt to the University until such indebtedness has been paid in full. Transcripts are issued only at the student's written request. Release of student academic records is subject to the provisions of the Family Educational Rights and Privacy Act (FERPA). The first 10 transcripts requested will be free. Each additional transcript will cost \$2.00.

The Carl Goodson Honors Program

B. Pemberton, Director

To further academic excellence and to inspire intellectual curiosity, Ouachita Baptist University provides an Honors Program for selected students. Students selected to participate in the Honors Program may pursue 7 hours above their regular degree plan to explore subjects not offered through the regular curriculum. These explorations take place through a one-on-one directed study between an honors student and his or her chosen professor and through two small group seminars teams taught by two professors taking an interdisciplinary approach. The Honors Program at Ouachita is named after Dr. Carl Goodson, who served the University as Professor of Religion from 1961 to 1968 and as Vice President for Academic Affairs from 1970 to 1982.

Admission

There are two ways to join the honors program. The first way occurs at the beginning of a student's freshman year. All incoming freshmen with a 3.500 G.P.A. and a 27 or higher ACT are invited to join the Honors Program. The Honors Director will send these students a written invitation to join prior to their registering for classes. Then, those freshmen who choose to be a part of the Honors Program are able to sign up for CORE Honors courses during their first and second semesters. The other way to join the Honors Program is to qualify after one's first semester on campus. After one semester in residence and the completion of fifteen semester hours with a minimum grade-point average of 3.500 other freshmen and sophomores will be sent a written invitation from the Honors Director to join the Honors Program. IF those invited wish to join, they send the Honors Director an e-mail stating their response, accompanied by two letters of recommendation from faculty members. The Honors Council, a committee comprised of faculty representing each school of the university, judges the applications. Finally, the Honors Director notifies the students of their acceptance and opportunities.

Honors Study Programs

The 7 extra hours of the Honors Study Program consists of one sophomore-level directed study, two junior-level group seminars, and 4 hours of research toward a senior-level thesis.

The directed study offers the opportunity for investigating an academic subject about which formal courses are not offered. The student selects the faculty member under whom to complete the study, which may be in any area.

Weekly interdisciplinary seminars will be offered each semester. Students may petition to have a seminar offered in a subject area of interest. All seminars will deal with a definite subject area. Upcoming seminars are listed by titles and professors on the Honors website.

The Honors Thesis will involve an in-depth study of a topic of special interest to the student, conducted over a period of two to four semesters under the supervision of a faculty advisor. Between the student's junior and senior years, she or he may apply for scholarships from the Honors Program to complete and enrich his or her thesis project. Traditionally, students have used scholarships to travel to places from Antarctica to Amherst. Scholarships have enabled students to film, to enroll in off-campus workshops, to shadow experts in their fields, and to interview persons with challenging perspectives. The Honors Program encourages all students to dream big and apply for these funds. Participants should take four hours of Honors Thesis over a period of two or three semesters. Prior to beginning the Honors Thesis, the honors student will select a second faculty member who, along with the project advisor, will serve on the Thesis Committee. The Honors Director will select a third member for the committee. Upon completion of the Honors Thesis, the student will present his or her research publicly on Scholar's Day in the spring before graduation. All three faculty members of the Thesis Committee will judge acceptability of the study. In the event that judgment is not unanimous, the Honors Council will consider final approval of the thesis.

Grading of all Honors Program studies will be satisfactory or unsatisfactory. The minimum credit standard will be a grade of B. No more than six hours of Honors Studies may be counted in the academic major, and no more than two in the minor.

Administration

The President of the University appoints the Director and Assistant Director of the Honors Program. The faculty selects one member from each academic division to serve on the Honors Council, which provides general administration and coordination of the Honors Program.

Graduation with Honors Recognition

A student wishing to graduate with recognition for participation in the Carl Goodson Honors Program must complete a directed study of one semester hour, two seminars of one semester hour, and an Honors Thesis of four semester hours.

On Notice Designation

Any students who drop below a 3.500 cumulative GPA during any semester will be informed that they are “on notice” for one semester. If a student’s GPA remains below a 3.500 at the end of the “on notice” semester, the Director will ask the student to withdraw from the Honors Program.

Withdrawal from the Honors Program

The Director may ask a student to withdraw from the Honors Program if (a) the cumulative grade-point average drops below 3.3 at any time, (b) the student receives no credit in Honors Studies, and/or (c) the student is uncooperative in the Honors Program.

Honors Program Courses

Honors students will take all courses related to the Carl Goodson Honors Program in the appropriate division or department of the studies. With prefixes designating the division or department of the study, the following course numbers and descriptions apply:

2981. Honors Directed Studies.

A special topics course designed to meet the needs of the individual Sophomore Honors student. **Fall, Spring.**

3981. Honors Seminar.

An interdisciplinary seminar designed for the Junior Honors student. **Fall, Spring.**

4981-3. Honors Thesis.

A critical study and analysis course designed for the individual Junior or Senior Honors student. **Fall, Spring.**

Daniel and Betty Jo Grant Center for International Education

I. Cosh, Director

The Center for International Programs is named in honor of Dr. Daniel R. Grant, President of Ouachita Baptist University from 1970 to 1988 and his wife Betty Jo Grant who served alongside him as Ouachita’s first lady. The center provides opportunities for students and faculty to have international study opportunities, both on campus and abroad.

The purposes of the Grant Center for International Programs include:

1. To serve the Christian missions purposes of Ouachita, while promoting good will and the cause of world peace.
2. To be a catalyst for expanding the global consciousness of the university’s student body and faculty with emphasis on the role of the church-related liberal arts university in addressing the challenge of global problems.
3. To integrate global awareness and concerns into the interdisciplinary studies component of the curriculum and to assist the departments of the university in meeting specific departmental interests and cross-cultural requirements of their majors, minors, or pre-professionals.
4. To provide meaningful academically-oriented exchanges between peoples of other countries and the students, faculty, staff, and constituent publics of the university while assisting sister institutions abroad to achieve their educational objectives.
5. To serve the regional community of Ouachita by providing certain types of expertise related to international concerns such as business, industry, agriculture, community development, and education.

Courses in the international studies program relate in general to the courses which the student will take at the overseas institution. The departmental prefix appropriate to the exchange studies program will be used.

2801-3803. Summer Study.

Appropriate credit is awarded through the following summer study programs: European Summer Study Tour, Salzburg Study Program, China Study Program, Belize Study Program (alternate summers), Seinan Gakuin Study Program and Costa Rica Study Program. **Summer.**

3080. Model U. N. Seminar.

Students study the issues and procedures of the United Nations. Prerequisite: permission of the instructor is required. Also listed as HIST 3080 and PSCI 3080. **Fall.**

3083. Model U. N. with Practicum.

Students prepare for a regional simulation of the United Nations by learning about their country's history, government, and foreign policy. Students enroll for this only if this is their first time attending a Model U. N. simulation as a Ouachita student. Prerequisite: permission of the instructor and HIST/INTL/PSCI 3080. Also listed as HIST 3083 and PSCI 3083. **Spring.**

3091. Model U. N. Practicum.

Students prepare for a regional simulation of the United Nations by learning about their country's history, government, and foreign policy. This course cannot be in the same department that HIST/INTL/PSCI 3083 was taken. Prerequisite: permission of the instructor and HIST/INTL/PSCI 3083. Also listed as HIST 3091 and PSCI 3091. **Spring.**

3400. EST Practicum.

Students enrolled in the European Study Tour are required to take this course during the spring semester as part of their academic preparation for the tour part of the EST that takes place in the early summer. **Spring.**

4001. International Studies Seminar.

This course is designed for students who have completed an overseas study experience. The course will assist in a student's reflection of his or her overseas experience. This course is required for the minor in International Studies and must be taken the semester the student returns from a semester of study abroad. **Fall, Spring.**

4709. International Study Abroad.

One or two semesters of study may be taken at an approved international site. See International Study Program. **Fall, Spring.**

4721-9. International Study Abroad Practicum.

A course designed to complement the international study abroad experience. **Fall, Spring.**

International Studies Minor

A minor in International Studies will include at least 27 hours as follows:

1. Language Component: The student must complete two years of study in one foreign language for a total of 12 to 14 hours.

At least one semester of the language must be taken prior to the overseas study experience. The language study must be in a field relevant to the overseas study experience.

2. Overseas Study: The student must complete at least one semester of overseas study experience in a program approved in advance by the Director of the Center for International Programs.
3. International Studies Seminar: The student must complete this one-hour seminar, INTL 4001, after returning from the overseas study experience.

4. Additional Requirements: The student must complete other approved courses to fulfill the 27-hour minor. These may include pre-approved courses taken overseas or on-campus courses related to the student's degree program. Such courses will include, but not necessarily be limited to:

PSCI 3013, World Politics

PSCI 4023, Comparative Politics

HIST 4703-4793, Topical Seminar (only as approved)

MSSN 3403, World Religions

MSSN 4313, Cross Cultural Communication

SPCM 3023, Communication and Culture

Other courses must be approved by the Director of the Center for International Programs

The student must achieve at least a 2.000 GPA on all course work included in the minor.

International Study Programs

Participants in any Ouachita International Study Abroad Program must be Sophomores, Juniors, or Seniors with a 2.500 cumulative GPA or higher. Participants must also be in good standing with the university and submit an application with recommendations from at least two Ouachita Faculty members. Other requirements may also apply. For more information contact the Director of the Center for International Education or visit the Center's web site.

Ouachita conducts the following international study programs:

- Australia:** University of New South Wales, Sydney. **Fall, Spring.**
- Austria:** Salzburg College, Salzburg. **Fall, Spring, Summer.**
- Belize:** Rain forest study (natural science majors and minors). **Alternate summers.**
- Biblical Studies/Christian Ministries International Trip.** **Summer.**
- China:** Peking University, Beijing. **Summer.**
- Costa Rica:** University of Costa Rica, San Jose. **Summer.**
- European Study Tour:** England, France, and Italy study tour conducted by Ouachita faculty. **Summer.**
(Applications are processed in the fall so that students may take the EST practicum in the spring as preparation for the tour.)
- France:** University of Orleans, Orleans. **Fall, Spring, Summer.**
- Hong Kong:** Hong Kong Baptist University, Hong Kong (business majors and minors). **Fall, Spring.**
- Indonesia:** Universitas Pelita Harapan, Jakarta. **Fall, Spring.**
- Japan:** Seinan Gakuin University, Fukuoka. **Fall, Spring.**
- Morocco:** AlAkhawayn University, Ifrane. **Fall, Spring.**
- South Africa:** University of Cape Town, Cape Town. **Spring.**
- Spain:** University of Alicante, Alicante. **Fall, Spring, Summer.**
- United Kingdom:** University of Reading, Reading, England. **Fall, Spring.**
University of Edinburgh, Edinburgh, **Fall, Spring.**

English as a Second Language Program

S. Cosh, Coordinator

Ouachita requires international students, with a TOEFL score of less than 78-80 iBT (internet Based Test) or 213 CBT (Computer Based Test), or 550 PBT (Paper Based Test), to take ESL in order to improve their reading, writing, and oral skills in the English language. This program provides each student with quality instruction in learning the English language for academic purposes. Instruction is also provided in American history and American culture. Students have the opportunity to audit one regular course in their area of interest and may enroll in the following courses offered at three levels of competence:

103.0 - 123.0 Conversational English

Students will engage in practical linguistic acquisition. Classes accommodate specific linguistic goals at three levels, using listening and speaking skills, video and audio, integration of learned grammar, and structured use of vocabulary.

203.0-223.0 English Grammar

Students will develop a strong syntactical language base through in-depth grammar instruction at one of three levels. The use of innovative developmental texts, audio and computer-based lessons enables rapid progress through the necessary skills of acquiring sound academic language.

303.0 – 323.0 Reading and Comprehension

Students will be required to read college-level texts adapted to the appropriate level of language acquisition. They will learn strategies and vocabulary-building skills to give them confidence and ability to progress to higher levels of academic competence.

403.0-423.0 Writing

Students will gain proficiency in the academic writing process and will progress from the standard organizational patterns of the paragraph to the basic concepts of writing academic essays using MLA format.

550.0 Computer Lab

Students may use programs provided in the computer lab to gain keyboarding and technological proficiency. (This is an optional course for technologically challenged students).

603.0 Pronunciation

Students will receive clinical assistance with pronunciation under the guidance of a personal Speech Communication Disorders tutor for the semester. They will also be required to work with computer-assisted pronunciation programs weekly.

710.0 – 730.0 Language Lab

State of the art language-based computer programs provide students with interactive language acquisition. This supplements class work for a minimum of three hours per week.

Military Science Program

853.0 American Culture (Fall) / American History (Spring)

This alternating course offers a holistic approach to the acquisition of the English language through instruction and experiential learning both in and out of the classroom.

The following classes are also offered:

American Culture (Fall only)
American History (Spring only)
Study Skills (on request)
New Testament (on request)

These courses are independent of the regular Ouachita curriculum and are designed to enable students to become eligible for enrollment in degree programs within one to three semesters. At the end of each semester, the English as a Second Language Program Staff will administer a comprehensive exit examination in order to evaluate student eligibility for enrollment in the regular degree programs. Students wishing to enter the degree program must pass all course work and the exit examination with a B average or earn a minimum TOEFL score of 61 iBT (internet Based Test), 173 CBT (Computer Based Test), or 500 PBT (Paper Based Test). Assessment for ESL will be made not only on grades, but will be based on participation in the class, attendance, and diligence.

Students successfully completing ESL courses at the Advanced level with a grade of B or better shall:

- Receive a letter of recommendation, written by the ESL Program coordinator and forwarded to each professor teaching the student in the next semester.
- Be admitted into the undergraduate program.
- Count up to 12 hours of ESL credit toward graduation.

Requirements for admission to the English as a Second Language Program:

Military Science Program

Major (R) Larry Roberts, Officer-In-Charge

Instructors: Major Duane Green; CPT Kyle Schultz; CPT Matthew Burnette; MSG (R) Philip Smith

The Army Reserve Officers Training Corps (ROTC) is an academic program which can lead to a commission as an officer in the active Army, the Army National Guard, or the U.S. Army Reserve. Ouachita's ROTC program is operated through a partnership with Henderson State University. Instructors in the Military Science Program who administer the Reserve Officers Training Corps Program are members of the active army, army reserve, army contractors, or government civilians assigned to the two universities for this purpose.

The ROTC Program is divided into a two-year basic course and a two-year advanced course. During the basic course, the freshman and sophomore years, the student incurs no military obligation. Upon entering the advanced course, the junior and senior years, a military obligation is incurred by the individual signing a contract with the Army. After commissioning, a student can either go on active duty or serve in the Reserve (Federal) or National Guard (State). Students in the advanced course are required to go to a five-week course between their junior and senior years. Students may attend during the summer months such Army schools as Airborne or Air Assault Training. They may also participate with an active duty unit after the five week course under the cadet troop leadership training program. In order to earn a commission, each Advanced Course cadet is also required to complete academic courses in Written Communications, American Military History, and Computer Literacy.

All students participating in the ROTC program are furnished, on a loan basis, necessary textbooks and other items required in the program. Students are also provided required uniforms. Students in the basic course do not receive pay unless they contract. Contracted freshmen cadets receive \$300 a month for ten months and sophomore cadets receive \$350 a month for ten months. Students enrolled in the advanced course receive a \$450 a month for twelve months for juniors and \$500 a month for ten months for seniors.

Advanced placement credit for the two-year basic course may be given for prior military service, Junior ROTC, or ROTC Leaders Training Course. Students who are active in the Army National Guard or U.S. Army Reserve may qualify for advanced course placement by participating in the Simultaneous Membership Program (SMP). Anyone with questions should contact the Department of Military Science at 870-230-5915.

Basic Courses in Military Science

HMSC 1011. Introduction to the Reserve Officer's Training Corps (ROTC). The purpose of this semester is to introduce cadets to fundamental components of service as an officer in the United States Army. These initial lessons form the building blocks with lessons in values, fitness, leadership, and officership. Additionally, the semester addresses communications theory and practice (written and oral), and interpersonal relationships. Upon completion of this semester, the cadets are prepared to receive more complex leadership instruction. This course meets one hour per week in addition to a leadership lab. Students must participate in one hourly weekly physical fitness training session.

HMSC 1021. Introduction to Leadership. This semester builds upon the fundamentals introduced in the previous semester by focusing on leadership theory and decision making. Topics during this semester include: problem solving, critical thinking, leadership theory, followership, group interaction, goal setting, and feedback mechanisms. Upon completion of this semester, cadets are prepared to advance to more complex leadership instruction concerning the dynamics of organizations. Additionally, they are increasingly required to demonstrate knowledge of leadership fundamentals and communications (written and oral). Students must participate in one hourly weekly physical fitness training session.

HMSC 2032. Self/Team Development. This semester contains the principal leadership instruction of the basic course. Building upon the fundamentals introduced in the MS-I year, this instruction delves into several aspects of communication and leadership theory. The use of practical exercise is significantly increased over previous semesters, as cadets are increasingly required to apply communications and leadership concepts. This course is designed to refine and apply the skills that help to develop an individual's leadership abilities and contribute to the building of effective teams. Other areas of emphasis include developing oral presentations, issuing written operation orders, event planning, coordination of group efforts, and basic military tactics. This semester also involves a major leadership and problem solving case study which draws on virtually all of the classroom instruction received in the first three semesters of the Basic Course. Upon completion of this semester, cadets are well grounded in the fundamental principles of leadership, and be prepared to intensify the practical application of their studies during the MS-III year. Students are required to participate in two one-hour physical fitness seasons and a leadership lab. Students are encouraged to participate in one overnight field training exercise.

HMSC 2042. Individual/Team Tactics. The final semester of the basic course focuses principally on officership, providing an extensive examination of the unique purpose, roles, and obligations of commissioned officers. It includes a detailed look at the origin of our institutional values and their practical application in decision making and leadership. In addition, this course provides an introduction of basic military tactics, small unit leadership, planning considerations, pre-execution checks, and risk assessments. This semester, more than any before it, draws the various components of values, communications, decision making, and leadership together to focus on a career as a commissioned officer. Upon completion of this semester, cadets will possess a fundamental understanding of both leadership and officership, demonstrate the ability to apply this understanding in real world situations, and understand the responsibilities of a commissioned officer in the United States Army. Students are required to participate in two one-hour physical fitness sessions and a leadership lab. Students are encouraged to participate in one optional overnight field training exercise during the semester.

Advanced Courses in Military Science

HMSC 3053. Advanced Leadership and Tactics I. The advanced course accepts cadets with various levels of leadership competencies gained through the ROTC Basic Course or lateral entry (active army, National Guard, army reserve) constructive credit activities. The instructional content and activities in the MSC 3053 level curriculum are intended to build leadership competencies and facilitate the cadet's initial demonstration of individual leadership potential at the Leadership Development Assessment Course (LDAC), while also preparing cadets for their future responsibilities as officers. Students will learn small unit maneuver tactics and refine basic military skills. While a measure of technical and tactical understanding of small unit operations is necessary, the focus of instruction is on the leadership competencies. Much of the application and assessment of MSC 3053 level leadership instruction will be conducted using the Leadership Development Program (LDP) for out-of-class activities and leadership positions during labs and unit field training exercises (FTX). The MSC 3053 semester begins with

instruction in the Leadership Development Process (LDP) which is used throughout the academic year and at LDAC to assess and develop leadership. The MSC 3053 semester uses a defensive scenario because the planning requirements for defense operations better facilitates the achievement of our learning objectives, and because defensive operations are more universally relevant to officers of all branches. Instruction in principles of war, purposes, fundamentals, and characteristics of the defense provides the necessary knowledge base for meaningful contextual treatment of the Troop Leading Procedures (TLP). Instruction in the decision-making, planning, and execution processes of the TLP are followed by the refocus on the critical leadership task of communicating the plan using the army Operations Order format. Special emphasis is placed on physical conditioning and stamina. Students are required to participate in physical training three times per week. The semester closes with instruction in small unit battle drills to facilitate practical application and further leader development during lab, FTX's, and Squad Situational Training Exercises (STX). Students enrolled in this course receive a stipend of \$450 per month for twelve months.

HMSC 3063. Advanced Leadership and Tactics II. The final semester of the MS III year continues focusing on doctrinal leadership and tactical operations at the small unit level. It includes opportunities to plan and conduct individual and collective skill training for offensive operations to gain leadership and tactical experience. This critical semester synthesizes the various components of training, leadership and team building. Cadets are required to incorporate previous military science instruction from MSC 3053 and the Basic Course for their practical application in a performance oriented environment. Upon completion of MSC 3063, cadets will possess the fundamental confidence and competence of leadership in a small unit setting. The MSC 3063 curriculum compliments progression through the cadet's campus leadership evaluation process and in the culminating event of the MS III year in the field training environment of LDAC. Students are required to participate in physical fitness three times per week. In addition they receive a stipend of \$450 per month.

HMSC 3093. U. S. Military History. Conducted in the spring semester only. Cadets must complete this class to be commissioned.

HMSC 3131. Military Science Lab. Practical application of army tactics at the squad level with a focus on MS III LDAC preparation.

HMSC 4073. Applied Leadership and Management I. This semester of the advanced course concentrates on leadership, management and ethics and begins the final transition from cadet to lieutenant. The course focuses cadets, early in the year, on attaining knowledge and proficiency in several critical areas they will need to operate effectively as Army officers. These areas include: Coordinating Activities with Staffs, Counseling Theory and Practice within the "Army Context," Training Management, and Ethics. The introduction of these subjects early in the MS IV year has the added benefit of preparing cadets to lead the cadet battalion throughout the remainder of the year. While the proficiency attained in each of these areas will initially be at the apprentice level, cadets will continue to sharpen these skills as they perform their roles as cadet officers in the battalion and after commissioning. At the end of this semester, cadets will possess the fundamental skills, attributes, and abilities to operate as competent leaders in the cadet battalion leadership and confidently communicate to subordinate cadets. Students are required to participate in physical fitness three times per week. Students enrolled in this course receive a stipend of \$500 per month for ten months.

HMSC 4083. Applied Leadership and Management II. The final semester of the Advanced Course focuses on completing the transition from cadet to lieutenant. As a follow up to the ethics instruction in MSC 4073, the course starts with a foundation in the legal aspects of decision making and leadership. The next module reinforces previous instruction on the organization of the Army and introduces how we organize for operations from the tactical to strategic level. This is followed by instruction on administrative and logistical management that will focus on the fundamentals of soldier and unit level support. The final module that introduces new information focuses on the often confusing process of changing duty stations and reporting to a new unit. At the core of this semester is the Advanced Course's Capstone Exercise. This 12-lesson exercise will directly reinforce all modules from this semester, and will also incorporate and reinforce many learning objectives from modules throughout the entire curriculum. The Capstone Exercise will require the cadets, both individually and collectively, to apply their knowledge to solve problems and confront situations commonly faced by junior officers. Upon completion of this semester, the cadets will be prepared to shoulder the responsibility of being a commissioned officer in the

United States Army. Students are required to participate in physical fitness three times per week. Students enrolled in this course receive a stipend of \$500 per month.

HMSC 4123. Independent Study in Leadership. The ROTC Program Officer –In-Charge will conduct weekly classes with participants, including a written and oral book report on military leadership during the semester.

Maddox Public Affairs Center

D. Reed, Director

Established in 1974 with a generous endowment from Judge and Mrs. Edward Maddox, the Maddox Public Affairs Center is Ouachita Baptist University's clearinghouse for student internships in the public sector.

The MPAC Director customizes internships to meet students' academic, professional, and location needs. Specifically, the director assists OBU students by

- supporting and coordinating internship applications, goal setting, and interview preparation
- coordinating with the internship organization
- arranging for academic credit

The MPAC endowment also covers travel expenses for participants in the "Washington Seminar" course taught by the OBU Political Science Department during the winter interim.

Academic Skills Development Program (ASKL)

B. McCrary, Director

Courses in the Academic Skills Development Program provide assistance in the acquisition of college level reading, mathematics, English, and study skills. The number of hours required for graduation is increased by the number of hours taken in ASKL courses.

1011. Transition Seminar.

A seminar designed to survey the University's resources and assist first-year students with the transition to the demands of college work. The student will be introduced to various learning styles and study skills such as note taking, effective listening, and test taking. Students will also survey the course requirements for a major of their choice, discuss their role as an advisee, and learn about the University's rules and policies. Particular attention will be given to the discussion of ethical issues such as dishonesty, plagiarism, and classroom etiquette. **Fall, Spring.**

2001. Success Seminar.

A seminar designed to help continuing students identify academic problems and formulate strategies for dealing with those problems. The course will emphasize case studies designed to spark in-depth discussion on real issues such as the application of time management or study skills and personal responsibility. **Fall, Spring.**

1013. Intermediate Algebra.

A beginning course in algebra for students needing a foundation for college mathematics courses. A grade of C or better is required before a student is eligible to enroll in a higher mathematics course. **Fall, Spring.**

1023. Introductory Problem-Solving Skills.

A beginning course in mathematical problem solving for students needing to strengthen their foundational quantitative reasoning skills before taking Mathematics for the Liberal Arts. This course will not adequately prepare a student for College Algebra. A grade of C or better is required before a student is eligible to enroll in CORE 1033. **Fall, Spring.**

1031. Fundamental Reading.

A diagnosis of reading problems and an intensive search for their solution. The course is required of students who score below college level on the Nelson-Denny Reading Test. **Fall, Spring.**

1041. Developmental Reading.

A course for acquiring and developing college reading proficiency. The course focuses on difficulties most often encountered in college-level reading. **Fall, Spring.**

Sign Language (SNLG)

2012. Sign Language I.

Introductory course in manual communication. **On Demand.**

2022. Sign Language II.

Intermediate course in manual communication. Prerequisite: SNLG 2012 or consent of instructor. **On Demand.**

Communication Across the Curriculum Program

J. Wink & R. Jones, Co-Directors

Recognizing that language guides behavior, builds community, and shapes the narratives of our lives, the Ouachita Faculty has established a Communication Across the Curriculum Program (CAC) to foster and promote effective written and oral communication skills. In order to ensure that students have an opportunity to practice these skills, each major requires the successful completion of at least one course designated by the department as a writing-intensive course (CAC-W) and one designated as a course with a significant oral communication component (CAC-O).

For writing-intensive courses, students can expect: (1) to write on a continual basis throughout the semester; (2) writing will constitute a significant portion of their overall grade; (3) their writing's focus will include not only "learning to write" but, more importantly, "writing to learn" activities. For oral communication courses, students can expect: (1) to make at least one oral presentation in class; (2) oral presentation skills will constitute a significant portion of the overall grade; (3) activities designed to help students prepare for the oral presentation will be suggested. The symbols "CAC-W" and "CAC-O" designate courses in the Communication Across the Curriculum Program both in the catalog and on student degree plans.

Internships

The University offers a learning environment which combines practical experience with classroom theory. The number of credit hours available and the minimum prerequisites for participation will be determined by the department offering the internship. All courses will be graded on a Satisfactory-Unsatisfactory basis.* Not more than four (4) hours from internships will apply toward major, minor, or graduation.

Participation also requires prior approval of individuals in the University and the organization in which the internship will take place. Forms for participating in internships are available from the appropriate academic dean. Once the Academic Vice-President has approved these forms, the student must register prior to beginning the internship.

*This course will be graded on a Satisfactory-Unsatisfactory basis where Satisfactory is defined as a grade of C or higher and Unsatisfactory is equivalent to any grade below C.

SCHOOL OF INTERDISCIPLINARY STUDIES

Stan Poole, Dean

The School of Interdisciplinary Studies offers the CORE curriculum, a group of courses designed to foster intellectual inquiry and breadth of knowledge consistent with Ouachita’s identity as a Christian liberal arts university. The curriculum reflects the institution’s understanding, expressed earlier in this catalog, that the love of learning and rational inquiry into all the disciplines represents “an expression of faith, hope, and love addressed to God and embodied within a community of faith” (7). Within this context, the CORE curriculum seeks to prepare students to live responsibly, productively, and meaningfully in a global society.

To achieve these aims, the CORE curriculum encourages students to further their knowledge in a broad array of scholarly disciplines and to develop enhanced skills in critical thinking, effective communication, and quantitative reasoning.

To guide the use of such knowledge and skills, the CORE curriculum further seeks to promote in students a sense of civic responsibility, an appreciation for cultural diversity, and a commitment to personal integrity, physical well-being, and spiritual growth.

CORE Course Requirements

All students must take the following program of courses.

Course Number	Course Title	Hours
1012	Introduction to the Liberal Arts	2
1022	Concepts of Wellness	2
1023	The Contemporary World.....	3
1033	Mathematics for the Liberal Arts	3
1043	Composition I.....	3
1053	Composition II.....	3

Entering freshmen must enroll in *Introduction to the Liberal Arts* within their first two semesters at Ouachita, and until they have successfully completed the course, they must continue to enroll in it each semester thereafter. This requirement is waived for transfer students who have been enrolled full-time for two semesters at another college or university. All students must complete *Composition I* and *II* (or approved course substitutions) within their first four semesters at Ouachita or must remain enrolled in the sequence thereafter until they have successfully completed both courses.

¹Upon approval by the Dean of Interdisciplinary Studies, participation in either the European Study Program or the Beijing Summer Study Program earns 3 hours of generic Fine Arts credit.

1012. Introduction to the Liberal Arts.

Students will explore the aims and relevance of a liberal arts education. Classical and contemporary readings from a broad range of disciplines will prepare students for further study in the CORE curriculum and guide them to discover connections between knowledge and a sense of purpose. **Fall, Spring.**

1022. Concepts of Wellness.

Students will examine their fitness needs, producing an exercise program and lifetime personal fitness goals. **Fall, Spring.**

1023. The Contemporary World.

Students will examine major issues in the current world, emphasizing the development of understanding to address these issues. **Fall, Spring.**

1033. Mathematics for the Liberal Arts.

Students will engage in a study of mathematical ideas and thinking, learning to solve problems and make decisions using sound quantitative reasoning. Students are strongly encouraged to complete the Mathematics requirement within their first four college semesters. Prerequisite: Official placement or a grade of C or better in ASKL 1013 or ASKL 1023. **Fall, Spring.**

1043. Composition I.

Students will improve their ability to write clear, well-organized, and well-reasoned prose, observing the grammatical and mechanical conventions of Standard American English, through study of grammar and a variety of rhetorical modes and patterns of exposition. Students must pass a competency examination to complete the course. **Fall, Spring.**

1053. Composition II.

Students will improve their ability to read, research, and write about texts, observing the conventions of formal prose. Prerequisite: CORE 1043. **Fall, Spring.**

1113. Survey of the Bible.

Students will survey the redemptive story of the Bible from Genesis to Revelation, emphasizing how that story shapes the Christian's worldview and affects life decisions. **Fall, Spring.**

1123. Interpreting the Bible.

Students will learn to recognize and develop valid interpretations and applications of the Bible. **Fall, Spring.**

2113. American Civilization.

Students will examine North American culture from pre-Columbian times to the present, emphasizing the historical-cultural context of institutions and intellectual movements. This course also highlights the ideas, individuals, and events from which modern American culture emerged. **Fall, Spring**

2123. American Letters.

Students will examine the literary and philosophical currents of American culture, focusing on primary source material from a diverse range of authors and perspectives. **Fall, Spring**

2213. Western Civilization.

Students will survey the diversity of Western human experience in historical-cultural context, sketching as well the West's entwining with global culture. **Fall, Spring.**

2223. Western Letters.

Students will survey the diversity of Western literary and philosophical currents in historical-cultural context, sketching as well the West's entwining with global culture. **Fall, Spring**

2314. Physical Science.

Students will survey key concepts in the physical sciences and how these concepts influence daily life. Includes laboratory. Suggested prerequisite: CORE 1033 or higher mathematics. **Fall, Spring.**

2324. Life Science.

Students will survey key concepts in the life sciences and how these concepts influence daily life. Includes laboratory. Prerequisites: CORE 2314. **Fall, Spring.**

2413. Intellectual Traditions.

Students will survey the development of humans as thinkers in cultural context from prehistory to the present. **Fall.**

2433. Personal Finance.

Students will survey the management of personal and family finances, including budgeting, consumer buying, personal credit, savings and investment, home ownership, insurance, and retirement. **Fall, Spring.**

2443. Social Science Survey.

Students will survey the web of human culture and interaction, emphasizing the structures and tensions inherent in human diversity and the lines of power therein. **Spring.**

3113. Fine Arts: Art.

Students will examine visual expression and its cultural context from prehistory to the present. Students also will develop the analytic skills needed to confront art and architecture, fostering the awareness needed to appreciate museums, galleries, and everyday life. **Fall, Spring.**

3123. Fine Arts: Music.

Students will examine musical expression and its cultural context from prehistory to the present. Students will also survey the major musical stylistic periods, enhance their listening skills, and acquire an understanding of musical elements and forms. **Fall, Spring.**

3133. Fine Arts: Theatre.

Students will examine theatrical expression and its cultural context from prehistory to the present. Students will also survey the literary dimensions of play-writing and the technical, literary, and performance aspects of theatre. **Fall, Spring.**

4001. Senior Seminar.

This seminar directs students to cultural, historical, philosophical, scientific, and theological works chosen to draw together their liberal arts experience within the context of their chosen domain of study. The course provides a conceptual springboard for using experience to inform life-long learning of and service to humans and the world humans inhabit. **Fall, Spring**

4801-4893. Special Studies.

This course permits students to pursue independent research or creative work within the interdisciplinary studies domain. **On Demand.**

Information Resources.

These educational opportunities, taught in concert with specific content courses, provide instruction in the assessment, retrieval, and ethical use of information. Students will learn how to choose research topics, produce scholarly papers, and use academic style manuals.

Introduction

The Frank D. Hickingbotham School of Business seeks to combine Christian principles and academic excellence in preparing students for careers in business administration and for graduate study. Students will complete the interdisciplinary studies component, basic business school required courses, the business core, and then pursue a chosen business major.

Ouachita offers students an opportunity to study the disciplines of business in a strong Christian environment. Emphasis in teaching and leadership development provides opportunities for an excellent undergraduate education in business.

The School of Business is located in the newly constructed Hickingbotham Hall which provides students a state-of-the-art facility for their academic pursuits. This facility contains all business faculty offices, business classrooms, auditorium, and the business computer lab. Hickingbotham Hall is conveniently located in the center of the Ouachita campus.

Fully networked computers are available for Ouachita business majors. These workstations provide the latest in hardware and software plus full networking capability. In addition, a multimedia system provides the latest in audio/visual equipment for innovative presentations and computer instruction.

Accreditation

The undergraduate degree program in business offered by the Frank D. Hickingbotham School of Business at Ouachita Baptist University is accredited by AACSB International – The Association to Advance Collegiate Schools of Business.

The Mission Statement

The mission of the Frank D. Hickingbotham School of Business is to educate undergraduate students in business administration and accounting in a church-related, traditional, residential liberal arts university where values, leadership, and ethics are modeled and taught. In accordance with the University mission and in partnership with all areas of the University, the School seeks growth in each student through intellectual, spiritual, social, and physical pursuits.

Instruction is the major emphasis of the faculty. Emphasis is also placed on intellectual development activities resulting in intellectual contributions primarily in the areas of contributions to practice and learning-and-pedagogical research.

² Holder of the Jay and Lynn Heflin Chair of Business Administration

³ Holder of the Harvey Jones Chair of Marketing

⁴ Holder of the Regions Bank Chair of Economics and Finance

Values and Beliefs

1. The primary purpose of the School is to provide quality education in business in a Christian environment.
2. Students who are properly instructed and advised are more likely to succeed.
3. Opportunities to participate and excel in non-classroom settings expand the horizons of students.
4. The educational process should foster critical thinking skills in order to prepare the student for life's experiences.
5. The instructional process is enhanced by the faculty's pursuit of professional development and scholarly contributions.
6. Quality role modeling by the faculty is enhanced by service to the University, School, community, and local church.
7. All constituencies are important contributors to the maintenance of an appropriate educational program.

Student Organizations

Beta Gamma Sigma is an honor society for business school majors. Membership is by invitation and is based on scholarship.

Students in Free Enterprise (SIFE) provides opportunity for student participation in educational outreach projects concerning the free enterprise system. SIFE participants compete at regional and national expositions, and SIFE participation can build career connections between college students and potential employers.

Business Student Advisory Council

Business students at Ouachita may be selected to serve on the Business Student Advisory Council. This Council offers business majors the opportunity to interact with the administration of the Hickingbotham School of Business and to provide a student perspective in a number of important areas. Students are selected to the Council on the basis of faculty nominations.

School Organization and Majors

The Hickingbotham School of Business is organized into two departments: (1) Accounting and, (2) Business Administration. The School of Business offers a curriculum leading to a Bachelor of Arts degree. Two majors are available: Accounting and Business Administration. Business Administration majors will select an area of emphasis from: Finance, Management, and Marketing. No minor is required in the School of Business.

Accounting

The accounting major provides the background for entry level accounting positions in industry, not-for-profit organizations, and accounting firms. Graduates planning a career in accounting with a public accounting firm should also plan to meet the requirements to sit for the CPA examination as set forth by the Arkansas State Board of Public Accountancy. The Board requires, in addition to the OBU degree requirements for an accounting major, that CPA candidates satisfy the following (effective January, 2008):

- 1) Take 9 hours of accounting electives (Accounting Information Systems is required)
- 2) Earn grades of “C” or better in all 30 hours of required accounting courses
- 3) Earn at least 150 hours of credit

All individuals sitting for the CPA examination in Arkansas will be required to have a total of 150 hours of college credit and the requirements listed above.

Each student who earns a Bachelor of Arts in the School of Business will meet the University residence and chapel requirements (see pages 31-40), successfully complete the courses associated with the chosen major, achieve an overall GPA of 2.000, achieve a 2.000 GPA at Ouachita and earn at least 128 hours. At least one half of the total hours in business must be taken at Ouachita, and each student must earn at least forty-two hours from the 3000/4000 level. At least 60 of the 128 hours must be earned at Ouachita.

A major in accounting requires completion of the University Core, the University foreign language requirement, the Basic School Requirements, the Business Core, and the course work designated for the chosen major. Additionally, accounting majors must earn a 2.000 GPA in the major and have at least 24 hours of “C” or higher in the major.

ACCOUNTING MAJOR (in addition to six hours of Accounting Principles)..... 21 Hours

- ACCT 3013 Intermediate Accounting I
- ACCT 3023 Intermediate Accounting II
- ACCT 3033 Cost Accounting
- ACCT 3053 Institutional Accounting
- ACCT 4003 Federal Income Tax
- ACCT 4013 Advanced Accounting
- ACCT 4023 Principles and Procedures of Auditing

Students planning to sit for the CPA exam must take additional courses to establish eligibility to sit for the exam. In many jurisdictions, including Arkansas, the minimum number of hours is 150.

School Mission Statement

Grounding Affirmations:

- We are human beings created in the image of God.
- We are followers of Jesus Christ.
- We are educators who teach and affirm evangelical Christianity within a Southern Baptist context while educating students to think critically about other theological and philosophical positions.
- We advocate a servant-leader model of Christian life and ministry.
- We seek to integrate quality scholarship with a vibrant Christian faith.

In Relation to our Local Community:

- We seek to transform our local community by living as responsible citizens (i.e., loving our neighbors as ourselves), by being servant-leaders in the community, and by offering an authentic Christian witness to the gospel of Jesus Christ in both word and deed.

In Relation to Churches:

- We seek to offer a liberal arts education in the context of a Southern Baptist university under the lordship of Jesus Christ.
- We seek to be involved in Christian ministry.
- We seek to prepare students for effective Christian ministry.
- We seek to offer resources to churches and church leaders.
- We seek to edify and enhance churches.

¹ J. C. and Mae Fuller Professor of Biblical Studies

² W. O. Vaught Professor of Christian Ministries

³ Elma Cobb Professor of Christian Theology

In Relation to the Broader University Community (including students not majoring in the School of Christian Studies):

- We will serve as faculty for select Interdisciplinary Studies courses (e.g., Survey of the Bible, Interpreting the Bible, Introduction to Liberal Arts).
- We will provide a biblical, theological, and philosophical foundation for all students.
- We will promote the integration of faith and learning along with the development of a Christian worldview among administrators, faculty, staff, and students.

In Relation to the Global Community:

- We seek to increase the university’s global awareness by facilitating opportunities for faculty and students to learn from other cultures.
- We seek to enhance the university’s involvement in the global Christian movement to transform the world.
- We seek to encourage faculty, staff and students toward individual participation in opportunities for Christian proclamation and service.

In Relation to Christian Studies Students:

(Please see the departmental mission statements.)

Department of Philosophy
Professor B. Eubanks, Chair

Mission Statement:

The Department of Philosophy seeks to provide a context in which students can think critically and creatively about fundamental questions posed by human life and experience. Confident that the search for truth ultimately points toward God as its source, we encourage students to participate in and contribute to the philosophic quest for truth, wisdom, and the meaningful life. We seek to engender a reflective approach to life that produces integrity of belief and action.

In the discipline of Philosophy, students may choose (1) to major in Christian Studies with an emphasis in Philosophy or (2) to get a traditional major in Philosophy (see below).

For Christian Studies majors an emphasis in Philosophy requires 12 hours from the classes listed below, excluding 1003 and 4013 which are required as part of the Christian Studies Basic Requirements.

Students seeking a traditional Major in Philosophy (PHIL) must satisfy the following requirements (total of 27 hours):

PHIL	1003	Introduction to Philosophy
PHIL	1023	Logic
PHIL	4053	Philosophy of Religion
THEO	4403	Christian Theology

MICHAEL D. HUCKABEE SCHOOL OF EDUCATION

Merribeth D. Bruning, Dean

The School of Education includes the Department of Education, the Department of Kinesiology and Leisure Studies, and the Teacher Education Program. The Bachelor of Arts degree is conferred upon student candidates who meet CORE requirements and major or teaching field requirements as outlined by the Department of Education. Student candidates choosing the field of secondary education must complete a second major in their chosen teaching field.

The Teacher Education Program

Professor M. Bruning, Director

The Teacher Education Program is a college-wide responsibility coordinated through a Teacher Education Council composed of representatives from the Schools of Education, Fine Arts, Humanities, Natural Sciences, and Social Sciences. The primary purposes of the Teacher Education Program at Ouachita Baptist University are the development of specialized scholarship in subject matter areas, vocational preparation through professional education courses and competence in the teaching-learning process through the professional semester which includes a successful, responsible student teaching internship.

The curriculum sequence of professional education provides a systematic plan of orientation and evaluation designed to assist the prospective teacher to assess his or her vocational interest and aptitude for teaching after examining the requirements, responsibilities, and opportunities of teaching as a profession.

Our Vision

Our vision is to equip and empower our candidates to become master teachers.

Our Mission

Our mission is to provide the curriculum and environment that will prepare future teachers who:

- Are student-centered and see teaching as a ministry.
- Possess the knowledge, skills, and dispositions for being effective in diverse classrooms.
- Are life-long learners involved in their disciplines and in professional development.

Objectives of Teacher Education

To accomplish the purposes of teacher education, faculty members assist and encourage student candidates to meet the following objectives by the time they have completed requirements for teacher licensure. Student candidates completing Ouachita's education program will:

1. Become familiar with students' background knowledge and experiences.
2. Articulate clear learning goals for the lesson that are appropriate for the student.
3. Demonstrate an understanding of the connection between past, present and future content.
4. Select methods, activities, and materials that are aligned with the lesson.
5. Select evaluation procedures that are appropriate for students and aligned with the goal.
6. Create a climate that promotes fairness.
7. Establish and maintain rapport with students.
8. Communicate challenging learning expectations to each student.
9. Establish and maintain consistent standards of behavior.
10. Make the physical environment as safe and conducive to learning as possible.
11. Make learning goals and instructional procedures clear to students.
12. Make content comprehensible to students.
13. Encourage students to extend thinking.
14. Monitor students' understanding through a variety of means, provide feedback to students to assist learning, and adjust learning activities as the situation demands.

15. Use instructional time and instructional technology effectively.
16. Reflect on the extent to which learning goals were met.
17. Demonstrate a sense of efficacy.
18. Build professional relationships with colleagues to share teaching insights and to coordinate learning activities.
19. Communicate with parents or guardians about student learning.
20. See teaching as a ministry.

Admission

Admission to the Teacher Education Program is generally completed during the sophomore year. Admission may be permitted at a later stage for transfers, students who desire to change their major, and student candidates who fail to meet admission requirements during their sophomore year. However, a late admission may require additional time to complete the requirements of a teaching core and teacher education sequence.

Procedures

A prospective teacher expresses interest in the Teacher Education Program by enrolling in EDFN 1001 Freshman Seminar and then in EDFN 2003 Educational Foundations. Freshman Seminar serves as an introduction to the various education programs at OBU and provides a supportive environment for those who are interested in majoring in education or who want to explore the options of an education major. The purposes of Educational Foundations 2003 are four-fold: (1) to acquaint the student with the historical development of our schools and the modern concepts of education; (2) to acquaint the student with the requirements, opportunities, and responsibilities of teaching as a profession; (3) to provide for the compilation of pertinent data on each student, individual and group counseling, and the administration of tests to be used as a basis for evaluating the student's potentiality as a teacher; and (4) to give each student an opportunity to work as an observer-participant in classrooms in at least three developmental levels in early childhood through high school settings. Upon completion of Foundations, most students apply for admission to Teacher Education. Prerequisites for admission to the Teacher Education Program are listed under Criteria for Admission and Retention.

Policies

The Director of Teacher Education begins and continues the development of the student's record based on data secured through EDFN 2003 Foundations of Education. Students apply for admission for Teacher Education upon completing pre-requisites. The Teacher Education Council gives approval, disapproval, or postpones admission of the applicant to the Teacher Education Program. Official minutes concerning the Council's action are maintained. A student who is denied admission may apply again after completing at least one additional semester and removing the deficiencies stated by the Council.

Criteria for Admission and Retention

1. Have and maintain a minimum 2.500 cumulative grade point average on a 4.000 scale in all work completed and a grade of C or above in CORE 1043, 1053 Composition I and II, EDFN 2003 Foundations of Education, and Mathematics for the Liberal Arts or an approved math course and a GPA of 2.5 in Teaching Field (major).
2. Receive a satisfactory evaluation of academic and personal qualities by the academic advisor, by the Dean of Students, by the instructor in Foundations of Education, and by two other faculty members.
3. Receive at least the minimum state scores on the Praxis I Test.

Candidates generally should be admitted to the Teacher Education Program no later than the semester following the successful completion of Foundations of Education.

The Professional Semester

The professional semester includes professional education courses and the student teaching internship. These courses along with student teaching will constitute a full course-load. Students may not enroll in or complete correspondence courses, register for afternoon or evening courses, or in any way increase their academic load beyond the requirements of the professional semester.

Application for approval for student teaching internships during the fall semester must be filed at the mid-term of the previous spring semester. Application for student teaching internships during the spring semester must be filed at the mid-term of the previous fall semester.

A. Requirements for Admission to the Professional Semester include:

1. Admission to the Teacher Education Program.
2. Senior standing with a cumulative grade point average of 2.500 or above.
3. A grade point average of 2.500 or above in the teaching field and a grade of C or above in all professional education courses.

4. Favorable evaluation as a prospective teacher by the department head or faculty member of the appropriate teaching field.
 5. Completion of at least seventy-five percent of the required courses in the teaching field.
 6. A successful Initial Portfolio Presentation and Interview with a team of educators that include public school personnel, a Teacher Education Council member, and a member of the Department or School of Education.
 7. Approval of the Teacher Education Council.
- B. To be eligible for Student Teaching Internship a candidate must have passed the appropriate Praxis II: Subject Assessments Specialty Area Tests. During the Professional semester, candidates must demonstrate competencies for Student Teaching Internship as determined by the Education Faculty.
- C. Candidates who receive credit for Student Teaching Internship and present an acceptable score on the Praxis II: Principles of Learning and Teaching (PLT) Test and other course requirements are eligible to be recommended for a teaching license.

Department of Education

Assistant Professor L. Bass, Chair

Professor M. Bruning

Instructors K. Collins, C. Sharp

The Department of Education offers programs leading to the degree of Bachelor of Arts. Early Childhood majors are prepared to teach preschool through grade four (P-4). Middle School teachers are prepared to teach grades four through eight (4-8). Secondary teachers are prepared in various subject matter fields (grades 7-12).

Educational Foundations (EDFN)

The curricula in Educational Foundations are designed to provide student candidates with an understanding of the framework for professional preparation.

1001. Freshman Seminar in Education.

Students in the School of Education will experience a holistic approach as they begin to develop into future educators. The holistic approach will consist of intellectual as well as emotional, spiritual, occupational, physical, and social areas. This is required for students planning to major in education.

2003. Foundations of Education.

A course designed to give the student a basic understanding of the foundations of the educational function in our society. Emphasis will be placed on the steps necessary for planning a career in education and the responsibilities of a teacher. Classroom observation will be a part of the course. Prerequisite to other courses in education. [CAC-O] **Fall, Spring.**

2012. Instructional Technology.

A study of use of technology in education and the integration of it into the K-12 curriculum. **Fall, Spring.**

2014. Education in the Christian School: Philosophy and Practice.

An introduction to the philosophy of education in the Christian school, with emphases on current issues and materials with a Christian world view. Supervised field experiences in Christian school settings including observation and directed teaching experiences to integrate theory and practice. **Spring of even years.**

2053. Child and Adolescent Development.

An examination of the physical, emotional, cognitive, aesthetic and spiritual development from conception to age 18 with an emphasis on observation, analysis, and application of developmental stages to the education of youth from pre-school through high school. **Fall, Spring.**

4061. Seminar in Education.

Students will be exposed to major issues in education with emphasis on multicultural education, special education and school law relating to classroom activity. This course must be taken concurrently with Student Teaching/Internship. Pre-requisite: Admission to Teacher Education. [CAC-W] **Fall, Spring.**

4082. Teaching Exceptional Learners.

A study of the major areas of exceptionality including the learning disabled, mentally retarded, physically handicapped and the gifted as well as their special needs in a school program. Pre-requisite: Admission to Teacher Education. **Fall, Spring.**

4103. Education and Public Policy Field Experience.

Students in this course will participate in a field experience set in a public-policy making venue. Prerequisite: Junior standing or consent of instructor. **On Demand.**

4123. Learning Theories and Assessment Practices.

This course emphasizes an application of development and learning theories to effective teaching practices in classrooms. It includes brain-based learning/teaching strategies and student motivation and a study of assessment tools for the improvement of the teaching-learning process. Pre-requisite: EDFN 2053, Junior/Senior standing and admission to Teacher Education. **Fall, Spring.**

4405. Student Teaching I.

Provides for observation, participation and responsible teaching experience in a public school system. Concurrent enrollment required in EDFN 4061, EDFN 4415, and CORE 4031. Prerequisites: Approval to do student teaching. **Fall, Spring.**

4415. Student Teaching II.

Provides for observation, participation and responsible teaching experience in a public school. Concurrent enrollment required in EDFN 4061, EDFN 4405, and CORE 4031. Prerequisites: Approval to do student teaching. **Fall, Spring.**

SCHOOL OF FINE ARTS

D. Scott Holsclaw, Dean

Mission Statement

Ouachita Baptist University's School of Fine Arts strives for a balance between a Christian liberal arts education and an applied or professional education through a challenging atmosphere of creativity and collaboration. We are dedicated to facilitating critical thinking, the creative process, and personal expression by developing and maintaining curricular and performance programming which emphasizes the creative process. The School of Fine Arts seeks to produce artists and scholars who are able to integrate their intellect and faith with their art, and their art with their worldview.

The school encourages the larger university community to appreciate all the Arts through various concerts, exhibits, productions, master classes, and lecture demonstrations. By providing an enriching exposure to the challenges and possibilities of the Arts, the School of Fine Arts encourages other disciplines to explore the Arts as an integral part of the Christian liberal arts education.

Ouachita Baptist University's School of Fine Arts consists of the Division of Applied Arts (the Department of Theatre Arts and the Department of Visual Arts) and the Division of Music (the Department of Applied Music, the Department of Church Music, the Department of Composition and Theory, the Department of Literature and History, and the Department of Music Education).

Goals:

- To provide a curriculum based on the current standards associated with the accrediting agencies; National Association of the Schools of Music (NASM), National Association of the Schools of Theatre (NAST), and National Association of Schools of Art/Design (NASDA).
- To provide pedagogy consistent with the art's disciplines.
- To provide facilities that enhance the teaching, the application, and the performance quality expected of our students.
- To provide Arts education for the larger university through concerts, performances, exhibits and the CORE curriculum.
- To address the challenges and possibilities of music, theatre, and visual arts in our world.

Division of Music

Associate Professor Gary Gerber, Chair

Professors S. Flora, C. Hamilton², P. Houlihan, O. Keck¹,

F. McBeth³, G. Secrest, J. Secrest, C. Taylor

Associate Professors L. Cai, R. Hewell, R. Hodges

Assistant Professors S. Garner, M. Garrett, R. Lewis, M. Worthen

Instructors K. Grant, R. Hesse

Lecturers S. Glenn, E. Larti, S. Monroe, R. Richardson-Williams

Visiting Assistant Professor C. Thomas

The Division of Music prepares students for careers in the fields of music performance, music education, theory-composition, history and literature, church music and musical theatre.

Emphasis is placed upon performance as a means of achieving technical excellence and as the synthesis of that which is learned through study, research and analysis.

Mission Statement

The Division of Music seeks to provide opportunities for students to gain professional competence in the art of music, integrating the highest standards of musical performance with a broad-based curriculum of scholarly studies within the framework of a strong Christian liberal arts tradition.

The Division offers personalized attention in teaching and research with the goals of developing the talents and abilities of each individual student; discovering the ways in which music study leads to understanding oneself, humanity, and the world; and preparing the student for a variety of career objectives. In addition, the Division of Music offers opportunities for non-music majors to experience the arts through performance and scholarly study of music.

Academic Study

The Division of Music provides students a comprehensive academic program that encompasses studies toward the completion of the Bachelor of Music degrees in performance, worship arts, theory-composition and musical theatre; the Bachelor of Music Education degree in choral and instrumental music; and, the Bachelor of Arts degree in music.

The curricula are established to comply with the standards of the National Association of Schools of Music, 11250 Roger Bacon Drive, Suite 21, Reston, Virginia 22090; telephone 703-437-0700, of which Ouachita Baptist University's Division of Music is a member. In addition, the music education curricula meet the requirements of the Arkansas State Department of Education and of the National Council for Accreditation of Teacher Education.

Performance Opportunities

Students interested in instrumental music are provided with a wide range of performance opportunities including the Marching and Symphonic Bands, the Wind Ensemble and the Jazz Band. Small instrumental ensemble experiences are offered in the areas of brass, woodwinds, percussion and strings. A handbell choir is offered to those desiring this experience.

A comprehensive program of choral ensembles includes the Concert Choir, the Ouachita Singers, the Women's Chorus and the Ouachita Sounds. The Opera Theatre and Musical Theatre provide additional performance opportunities.

Music participation opportunities available to the non-music major include private music lessons, choral and instrumental ensembles and the Fine Arts: Music course.

Students majoring in music have the opportunity to combine professional studies in music with a liberal arts curriculum. CORE courses within the School of Interdisciplinary Studies are included in the degrees.

Admission Requirements

1. Although no examination is required, each prospective music major is required to audition for the appropriate faculty prior to admission to a degree program. Remedial work may be required to remove deficiencies.
2. Transfer students will be evaluated during their first semester on campus. Remedial work may be required.

** Students must take a minimum of two semesters of either Marching Band, Symphonic Band or Concert Choir. All applied music students with principal applied course numbers must take a jury at the end of each semester of study until degree requirement in Principal Applied is met.

General Degree Requirements

1. General Degree Requirements:
 - A. Approved college work of a minimum of 131.5 semester hours; thirty out of the last thirty-six must be taken in residence.
 - B. Forty-two semester hours from 3000/4000 level courses.
 - C. An overall grade point average of 2.000 and a grade point average of 2.000 in music courses.
 - D. A grade point average of 2.000 in Ouachita courses.
 - E. At least forty hours of non-music courses must be included for each degree.
2. Fine Arts courses waived for music majors based on satisfactorily completing Music Literature 1 & 2 and History of Western Music 1 & 2.
3. Minimum Recital Requirements:
 - A. Bachelor of Music in Performance

(1) Sophomore Recital	(15 minutes)
(2) Junior Recital	(25 minutes)
(3) Senior Recital	(50 minutes)
 - B. Bachelor of Music in Musical Theatre

(1) Sophomore Recital	(15 minutes)
(2) Senior Recital	(50 minutes)

 - D. Bachelor of Music in Theory-Composition

(1) Junior Recital, Principal Applied	(15 minutes)
(2) Senior Composition Recital	(50 minutes)
 - E. Bachelor of Music Education in Choral or Instrumental Senior Recital

	(25 minutes)
--	--------------
4. Principal applied students must perform for a committee selected from the applied music faculty at the end of each semester until principal applied degree requirements are met. Principal applied students are not required to perform for a committee at the end of the semester in which they present degree recitals, except at the discretion of the principal applied teacher.
5. Secondary applied students enrolled in a required secondary must perform for a committee selected from the applied music faculty at the end of each semester until secondary applied degree requirements are met.
6. Bachelor of Music in Performance, Musical Theatre, and Theory-Composition candidates must receive permission of the appropriate applied music faculty at the end of the sophomore year in order to continue work on a degree in performance, musical theatre, or theory-composition.
7. Bachelor of Music candidates whose principal applied area is winds, percussion, or voice are required to pass the four levels of the piano proficiency examination or enroll for piano each semester until all four levels of the examination are passed or until graduation.
8. Bachelor of Music Education candidates who follow the choral major requirements must choose as the principal applied area either voice, piano or organ. One of two options may be selected:
 - (1) Twelve hours of voice and, as a minimum, four hours of piano.
 - (2) Twelve hours of piano or organ and a minimum of six hours of voice.

Those students choosing option (1) are required to pass the four levels of the piano proficiency examination or enroll for piano each semester until all four levels of the examination are passed or until graduation.

Those students choosing option (2) are required to pass a voice proficiency examination by the end of the junior year or continue to enroll for voice until the voice proficiency examination is passed or until graduation.
9. Students seeking degrees that require secondary piano must pass a minimum of four semesters of secondary piano in order to graduate. Bachelor of Music Education candidates who follow the instrumental (winds, strings, or percussion) major requirements and Bachelor of Music Church Music majors are required to pass the four levels of the piano proficiency examination or enroll for piano each semester until all four levels of the examination are passed or until graduation.
10. Ensemble Requirements: Instrumental wind and percussion majors are required to enroll in Marching Band or Wind Ensemble (fall) and Wind Ensemble or Symphonic Band (spring). Music Education majors are required to participate in Marching Band each fall of enrollment, with the exception of the professional education semester.

Vocal principals, Musical Theatre majors and Bachelor of Music Education Choral majors must participate in Concert Choir each semester of enrollment. BME candidates are exempt during the professional education semester. Bachelor of Music in Church Music majors must participate in an

ensemble each semester of enrollment (Vocal Emphasis: Concert Choir. Instrumental Emphasis: Marching Band or Wind Ensemble (fall) and Wind Ensemble or Symphonic Band (spring). Keyboard Emphasis: Concert Choir or fall Marching Band then spring either Wind Ensemble or Symphonic Band.) All students on vocal scholarships must audition for Ouachita Singers, Ouachita Sounds, and Women's Chorus. Those selected by audition will perform with at least one of these three groups. Students not selected to perform in any of these groups will satisfy their ensemble requirement through participation in Concert Choir. Bachelor of Music in Musical Theatre majors are required to have four semesters of Musical Theatre Workshop.

Bachelor of Music in Performance keyboard majors must participate in a large ensemble during the freshman and sophomore years. Large ensemble is defined as Marching Band, Wind Ensemble, Symphonic Band or Concert Choir. During the junior and senior years these students may select any ensemble but must be enrolled in an ensemble each semester of enrollment. Piano principals must take at least one semester of Piano Ensemble.

Bachelor of Music in Theory-Composition majors must participate in a large ensemble each semester of enrollment.

Bachelor of Music in Performance voice majors must participate in Concert Choir each semester of enrollment. In addition to this ensemble requirement, this major is required to have four semesters of Opera Theatre.

String principal students must satisfy the large ensemble requirement each semester of enrollment unless a noted exception is met.

Performing Arts Class (MUAP 1070) is required of music majors every semester of enrollment until eight credits are received. Students pursuing the BME degree are exempted from Performing Arts Class during the professional education semester. Grades are based on attendance at the Friday Performing Arts Classes and at evening concerts both on and off campus.

DIVISION OF APPLIED ARTS

D. Scott Holsclaw, Chair

Department of Theatre Arts (THEA)

Professor E. Phillips, Chair

Associate Professor M. Handiboe

Assistant Professor D. Inouye

The Department of Theatre Arts provides undergraduate students the opportunity to gain a broad spectrum of theatrical knowledge and experience within a Christian liberal arts setting. Productions are strongly student supported. The areas of involvement include acting, teaching, crewing, writing, directing, and designing. The Theatre Arts program challenges students to explore the theoretical and practical aspects of theatre as a significant force in history and culture. Particular attention is given to the collaborative process in theatre as an art form.

Requirements for a major in Theatre Arts: THEA 1003, 1042, 2003, 2013, 2023, 3003, 4013, 4023, 4033, four hours of 1011, six additional hours in Theatre Arts selected from an Area of Specialty including a minimum of six Junior-Senior hours: ENGL 4223 or 4303, or THEA 4053.

Areas of Specialty: Choose the six additional hours in Theatre Arts required for the major from one area or any approved combination of the three areas:

Performance: Voice and Movement, Advanced Acting, Directing Styles (special studies), and Senior Project (special studies).

History and Criticism: American Drama, Twentieth Century Theatre, Dramatic Criticism, Playwriting.

Technical Design: Lighting Design, Scene Design, Makeup, Costuming, Prop Construction, Stage Managing, Senior Project (special studies).

Requirements for a major in Musical Theatre (Theatre Emphasis): THEA 1003, 1011 (2 hours), 1042, 1151 (4 hours), 2003, 2013, 2023, 3003, 3013, 4002, 4013, 4023, three additional Junior-Senior hours in Theatre Arts; ENGL 4223, or ENGL 4303, or THEA 4053; MUAP 1051, 1051, 2051, 2051, 3051, 3051, 4051, 4051, ; MUTH 1002, 1012, 1022, 1032; MUAP 1271, 1371; MUHL 1312, 2112, 3173, MUEN 1000.5 each semester of enrollment, four semesters of MUAP 1070, THDA 1001, 1011, 1021, 2001, 2021, 2031, 3002. Students seeking admission to this program must audition. Sophomores in the program must present a 15 minute satisfactory performance project for continuation in this degree track. Students must also complete a 25 minute senior performance project. Majors in this program are required to participate in a Ouachita production each semester. Bachelor of Arts in Musical Theatre majors receiving a music scholarship must perform in one choral ensemble and participate in all theatre productions during each semester of enrollment.

Requirements for a major in Speech Communication and Theatre Arts (Teaching Emphasis): COMM 1033; SPCM 1003, 2043, 3033, 3063, 3091, 4821; THEA 1003, two hours of 1011, 2003, 2013, 3003, 3091, 4013, 4023, 4103. In addition, students must complete a second major in education as outlined on page 82.

Note: CORE requirements for all Theatre Arts Majors are found on pages 51-53 of this catalog.

Requirements for a minor in Theatre Arts: THEA 1003, 2003, 2013, 4013 or 4023, two hours of THEA 1011, and six additional hours of Theatre Arts including a minimum of three Junior-Senior hours.

Department of Visual Arts (ART)

Associate Professor D. Bieloh, Chair
 Professor R. Halaby
 Assistant Professors D. Copeland, S. Bruch

The Department of Visual Arts provides an environment and curriculum devoted to promoting and nurturing creative and critical thinking skills, individual artistic expression, and spiritual growth within the framework of a Christian-based liberal arts program that balances tradition and innovation, and values diverse approaches to art making and design. Our vision is to provide a structured, creative environment that enables students to ask questions, solve problems, and take risks as they gain the knowledge, skills, and attitudes necessary for meaningful and productive lives as artists, designers, and citizens of the world. The Department of Visual Arts is a collaborative teaching and learning environment that encourages students to develop meaningful interaction across the visual arts and other disciplines.

Education in art develops appreciation for the beautiful and harmonious in life. Courses in art are open to students wishing to develop critical and creative abilities and to students desiring professional art training.

An introduction to preparing, organizing, delivering, and evaluating a speech delivered to an audience. Also listed as COMM 1003. [CAC-W and CAC-O] **Fall, Spring.**

2043. Small Group Communication.

A study of the factors affecting the success or failure of small, problem-solving groups/work teams. Topics include the advantages and disadvantages of working in groups, the phases of group development, group roles, decision-making, and leadership in groups. Also listed as COMM 2043. Prerequisite: Sophomore standing. **Spring.**

3003. Advanced Public Speaking.

The course covers advanced topics in public speaking such as handling multiple visual aids within one speech, introducing speakers (and being introduced), and moderating question & answer periods. Students will also present eulogies, speeches to inspire, and after-dinner speeches. **Spring.**

3023. Intercultural Communication.

A study of the factors that impact the success (or failure) of the communication between people from different cultures. Topics include the definition of culture, the structural elements of culture, the impact of nonverbal communication on cultural encounters, and the barriers to effective intercultural communication. The course also examines culture shock and reverse culture shock. Finally, using root metaphor analysis, students engage in an in-depth examination of a number of cultures. Prerequisite: Sophomore standing or consent of instructor. **Spring.**

3033. Interpersonal Communication.

This research-based course examines communication interactions between individuals. The course focuses on how people attempt to achieve their presentational, relational, and instrumental goals by using the tools of perception, listening, language, and nonverbal communication. The course also explores how certain personality variables may impact an individual's communication. Prerequisite: Sophomore standing or consent of instructor. **Fall, Spring.**

3073. Argumentation.

The study and practice of developing and refuting logical arguments. Prerequisite: Sophomore standing or consent of instructor. **On Demand.**

3091. Teaching Speech in the Secondary School.

A study of the methods of teaching speech communication at the secondary level. **On Demand.**

3783. Great Speeches.

Students will study some of the greatest speeches in U.S. and world history. All students will research the historical context and biographical information of their chosen speeches/speakers, present the information on the historical context and biographical background of the speakers, show (or read) the speech, and then apply an established theoretical model to critique the speech. **Fall.**

4023. Communication Criticism.

A critical analysis and evaluation of the roots, nature, and effects of messages in a variety of communication acts and settings including speeches, movies, television, music, advertisements, etc. Prerequisite: Junior standing or consent of instructor. **On Demand.**

4053. Organizational Communication.

A study of the functions of speech communication – how people relate and communicate – in organizations of all kinds with emphasis on being goal-oriented and people-conscious agents for change. Prerequisite: Junior standing. Also listed as COMM 4053. **On Demand.**

4063. Diffusion of Innovations.

A study of how innovations (new ideas, processes, or products) are diffused (or adopted) by a group of people (social system), and how an individual can become a more effective, conscientious change agent in facilitating the adoption of the innovation. Students will receive an introduction to the field of entertainment- education for social change. Prerequisite: Junior standing or consent of instructor. **Fall**

4433. Family Communication.

This course examines the function of communication in families and explores various types of familial relationships. The course covers concepts, definitions, patterns, problems, and theories related to family communication. The purpose of the exploration is to develop a deeper understanding of the role of communication in the family experience. **Spring.**

4463. Conflict in Communication.

This course explores the principles of managing conflict in interpersonal (or international) relationships developed by the Harvard Negotiation Project. Research findings from the field of Speech Communication, such as the types of conflict, conflict styles, and conflict outcomes, supplement the primary texts. **Fall.**

4793. Gender Communication.

A critical, research-based examination of the ways men and women communicate differently. Prerequisite: Junior standing or consent of instructor. **Fall, Spring.**

J. D. PATTERSON SCHOOL OF NATURAL SCIENCES

Joe Jeffers, Dean

The School consists of the Departments of Biological Sciences, Chemistry, Mathematics and Computer Science, and Physics. The School of Natural Science seeks to provide the highest quality educational experience for all students. The School promotes student learning in an atmosphere that nurtures critical and creative thinking, an appreciation of the beauty and complexity of natural systems, the development of ethical codes in striving for moral excellence, the ability to communicate effectively in speaking and writing, and an understanding of the importance of service and leadership. Within the liberal arts tradition, the School emphasizes the methods of science as it prepares all students for informed citizenship and as it prepares natural science students for positions of leadership in the professions. The School places emphasis on the preparation of students for graduate and professional schools.

2000. Health Professions Seminar.

A seminar course for those students interested in pursuing a health profession career. Periodic presentations will be offered by visiting health professional representatives. A health fair will also be offered. Students must keep a log of events attended. This log will be required for all students who wish to conduct a mock interview with the Health Professions Committee prior to applying for professional school. Prerequisite: Sophomore standing or higher. **Fall.**

2003. Earth Science.

An introduction to the physical universe with emphasis on the processes, forces, and interrelations of the earth. The course includes selected topics, from geology, oceanography, meteorology, and astronomy. **Spring of even-numbered years.**

2801. Special Topics in Natural Science.

A variable topics seminar course at the sophomore level in the environmental and natural sciences. **On Demand.**

3001. Readings in Natural Science.

A self-paced reading course for Natural Science students to acquaint them with general readings in the natural sciences. Prerequisite: Sophomore standing. Course is offered on a Satisfactory-Unsatisfactory basis. **Fall, Spring.**

3003. Natural Science for Elementary/Middle School Teachers.

A course for early childhood teachers and middle school teachers with an emphasis in English/History. This course includes methods, materials, and teaching units in natural science. Prerequisites: CORE 2314, 2324. **Spring.**

3013. Methods in Natural Science for Middle and Secondary Schools.

A methods course adapted to the teaching of science at the middle and secondary school level. It will involve practices, problems and trends in the sciences at this level. Emphasis will be placed upon correlating the lecture topics with computer applications and laboratory techniques. **On Demand.**

3183. Issues in Science and Religion.

A study of the processes and products of theological reflection and scientific inquiry and the issues that arise in the interaction of the two enterprises. Also listed as PHIL 3183. **Fall of even-numbered years.**

3951-6. Workshop.

Provides upper division students an opportunity to approach current topics and problems in a cooperative and concentrated manner. **On Demand.**

3961. Laboratory Practicum.

This course is designed specifically for students seeking teacher certification in one of the natural science fields. It is designed to enable them to plan, create and execute a laboratory in secondary school science courses. **On Demand.**

4002. Medical Terminology.

A programmed course designed to meet objectives related to career goals in biological and health-related fields such as medical secretary, social worker or records clerk. **Fall.**

4801. Special Topics in Natural Science.

A variable topics seminar course at the senior level in the environmental and natural sciences. **On Demand.**

REQUIREMENTS FOR TEACHING FIELDS IN THE SCIENCES

See page 82.

Suggested Sequences for Pre-Professional Training in Medicine, Dentistry, Pharmacy, Optometry*, and Veterinary Medicine

Students intending to pursue any of the above courses of study should have at least four units of English, one unit of algebra, one unit of plane geometry, two units of science, and two units of history from high school. The first-year curriculum is the same for all of the above courses of study. However, some variations do occur in entry requirements for professional schools. Please note that requirements of professional schools change, are posted on their websites, and often take effect immediately. Their requirements supersede OBU catalog listings. Check with the Health Professions Advisor for current requirements. The first year student should register as follows:

The School of Pharmacy requires a typing skill of at least thirty words per minute. A course in typing cannot be counted as an elective.

All students should consult their advisors in planning their programs as there are sometimes reasons for departing from the above program. Those students who plan to obtain a degree before entering one of the professional schools will need to modify the above program. Applicants to pharmacy school must take the Pharmacy College Admission Test, preferably in November or February of the academic year of application.

Cooperative Degree Programs in Health Professions

A candidate for the Bachelor of Science degree at Ouachita who later attends a school of medicine, dentistry, or pharmacy may count up to thirty-two semester hours of courses with C or higher grades taken at such a school in the major, minor, or as electives. These courses will be regarded as Junior-Senior level. The student must complete a major in one of the natural sciences and must meet the conditions listed under CORE Requirements on page 51 of this catalog, except that the last hours may be taken at the professional school. At least sixty-six semester hours, including at least twenty at the Junior-Senior level, must be completed at Ouachita.

Pre-Medical Technology

The student who plans to complete the professional course at the University of Arkansas for Medical Sciences or Baptist Medical Center and get a Medical Technology degree from Ouachita should spend five semesters and one summer term at Ouachita and complete 94 specified hours. The professional curriculum at UAMS is comprised of four semesters in a 17-month period with a January beginning date. The professional curriculum at the Baptist Medical Center is a 12-month program with a July beginning date. Plans of study are available at www.obu.edu/natsci or check with the Health Professions Advisor.

Pre-Physical Therapy

Students pursuing physical therapy may follow either an allied health track or main line science track. Requirements vary from program to program. Check with the Health Professions Advisor.

Pre-Nursing

A student who wishes to obtain a B.S. degree in nursing at the University of Arkansas for Medical Sciences may complete the first two years of work at Ouachita as outlined below. A student who plans to enter any other nursing program should consult the catalog of the appropriate school before registering at Ouachita. Please note that requirements of professional schools change, are posted on their websites, and often take effect immediately. Their requirements supersede OBU catalog listings.

Chemistry and one biology must be completed *before* UAMS application.

For personal reasons a student may want to vary the above program slightly and should therefore consult with the counselor to see that the minimum requirements for admission to the Dental Hygienist Program are attained. A student who wishes to return to Ouachita to obtain a Bachelor's degree may be able to transfer some of the credits in the Dental Hygienist Program toward this degree and should, therefore, have the transcript from the University of Arkansas examined by the Registrar at Ouachita.

The Arts-Engineering Programs

Cooperating with the University of Arkansas, Vanderbilt University, and Louisiana Tech University, Ouachita Baptist University offers several combination programs.

The joint program with the University of Arkansas involves a three-year program of study at Ouachita University. Following one year at the University of Arkansas College of Engineering, the Bachelor of Arts degree or the Bachelor of Science degree, if all requirements are met, will be conferred by Ouachita University. At the end of the fifth year, the student will receive from the University of Arkansas the Bachelor of Science in Engineering.

In order to receive a degree under this program, a student must complete each of the courses listed below. At least sixty-six semester hours, including at least twenty at the Junior-Senior level, must be completed at Ouachita. In those cases in which the B.A. degree is conferred before the engineering degree, the student must have completed a total of 128 semester hours with a grade point average of 2.000 in all courses in which grade points are given.

Arrangements for students who will go to other engineering schools are possible. Such students should confer with a pre-engineering advisor.

Students who are interested in engineering should consult the curriculum of the Department of Physics on page 151 for the Engineering Physics Option.

Pre-Engineering Programs

Students wishing to undertake a program of pre-engineering other than the Arts-Engineering programs should complete as many of the following courses as possible before transferring:

- MATH 1034, 2014, 2024, 3034, 3043
- PHYS 1112, 2004, 2014, 2123, 2133, 3123
- CHEM 1004, 1014
- CORE 1043, 1053
- CSCI 1044

The Mathematics courses are especially important, since MATH 3034 is prerequisite to many Junior-Level courses in engineering. All the courses listed above are part of the Engineering Physics Option on page 151. Interested students should consider this option.

Pre-Architecture

The University of Arkansas School of Architecture permits the first year of their Architecture program to be taken at Ouachita with the following suggested curricula:

Biology (BIOL)

The Department of Biology provides undergraduate instruction in the biological sciences to students seeking admission to graduate and professional schools; to students majoring in other disciplines who desire insight into biological principles; to students seeking certification as public school teachers; and to general, liberal arts students. The department seeks to serve students within the liberal arts tradition described in the University's mission statement.

Requirements for a major in Biology:

B.S. degree: BIOL 1014, 1024, 4001, two courses from 3034, 4054, 4064, and additional BIOL hours to total thirty hours in the department. Additionally, eight hours of chemistry are required. A minor of at least twenty hours must be completed in Chemistry, Computer Science, Mathematics, Physics or Psychology. Experimental Research (4001) is waived upon completion of lab-based Senior Thesis for those participating in the Honors Program.

B.A. degree: BIOL 1014, 1024, at least 16 additional hours in the department, including a minimum of 12 Junior-Senior hours. Additionally, eight hours of chemistry are required. A CAC-O course in any discipline is required.

B.A. degree (field emphasis): BIOL 1014, 1024, 3034, 3663, 3802 and one of the Travel Study courses 3863, 3873, or 4783, and one additional 4-hour, junior/senior level BIOL course; At least one from the following: NSCI 3001, LST 2083, 3033, 4842, PHIL 3183, Additionally, eight hours of chemistry and MATH 2063 are required.

Requirements for a major in Biology (Teaching Emphasis): BIOL 1014, 1024, 2014, 2024, 3034, 4001 and two courses from 3014, 4054, 4064. NSCI 2003, 3013, 3961; CHEM 1004, 1014; PHYS 1004, 1014; MATH 1003 or 1034. In addition, students must complete a second major in education as outlined on page 82.

Math 2063 Elementary Statistics is strongly suggested for all those pursuing a Biology major or minor.

Requirements for a minor in Biology: BIOL 1014, 1024, at least ten additional hours in the Department, including a minimum of six Junior-Senior hours. A split minor may not be taken in Biology.

1014. General Biology (Zoology).

A study of the animal kingdom from the standpoint of systematics with emphasis upon the progressive advances of tissue organization, physiology and reproductive adaptation, including a consideration of ecological principles and economic importance of the major animal groups. Three hours lecture and three hours laboratory. [CAC-W] **Fall, Spring.**

1024. General Biology (Botany).

A study of the plant kingdom from the standpoint of systematics with emphasis upon the progressive advances of tissue organization, physiology and reproductive adaptation, including a consideration of ecological principles and economic importance of the major plant groups. Three hours lecture and three hours laboratory. **Fall, Spring.**

2014. Human Anatomy and Physiology I.

A study of the organization of the human body, its tissues and the structure and functional relationships in the integumentary, skeletal, muscular, and nervous systems. Three hours lecture and three hours laboratory. Prerequisite: Four hours of Biology. **Fall.**

2024. Human Anatomy and Physiology II.

A continuation of BIOL 2014 concentrating on the cardiovascular, endocrine, respiratory, digestive, excretory and reproductive systems. Three hours lecture and three hours laboratory. Prerequisite: Four hours of Biology. **Spring.**

3014. Microbiology.

A study of bacteria and other life forms from the standpoint of classification, morphology, physiology and environmental factors, and of the relation of bacteria to water, foods, industrial processes and diseases. Three hours lecture and three hours laboratory. Prerequisites: Four hours of Biology or CORE 2324; Eight hours of Chemistry; Junior standing. **Fall.**

¹ J.D. Patterson Professor of Biology

3034. Ecology.

A study of principles governing the relationships between plants, animals and their environment. Consideration is given to local aquatic and terrestrial communities. Lectures, laboratories and field trips. Prerequisites: BIOL 1014, 1024 and four hours of Chemistry. **Fall.**

3064. Neuroscience.

An introduction to the biological substrate of behavior and experience, especially as expressed in neuroanatomy, neurophysiology and behavioral neuroscience. Prerequisite: CORE 2324 or BIOL 1014. Also listed as PSYC 3064. **Spring.**

3663. Introduction to Wildlife Conservation and Management.

This course will introduce the principles governing the conservation and management of fish and wildlife. The course will include a brief introduction to the history of management followed by an emphasis on conservation and management from both a broad ecological perspective and an urban perspective. Prerequisites: BIOL 1014, 1024, and 3034. **[CAC-O] Spring**

3801-3894. Individual Study, Group Study, Research.

This course is offered to provide competent students an opportunity to do independent study and research. Prior to registration, a student is required to obtain approval from a professor in the department who consents to serve as faculty supervisor. For Travel Study trips, multiple trips may be taken, but only one travel course will count toward the minimum hours for a biology major or minor. Prerequisite: Permission of supervising faculty member and department chairman. **On Demand.**

3802. Internship.

Internships must relate to the emphasis of the student's coursework (lab or field) and must be approved in advance by the Department Chair and the Dean of Natural Sciences. The course will be graded on a Satisfactory-Unsatisfactory basis where Satisfactory is defined as a grade of C or higher. **On Demand.**

4001. Experimental Research.

A course in lab or field research in biological science. Course may be taken only once for credit. Prerequisite: 8 hours of Chemistry; BIOL 1014, 1024, and 8 additional hours in Biology. **[CAC-W and CAC-O] Fall, Spring.**

4013. Histology and Microtechniques.

Lecture and laboratory dealing with primary tissues of vertebrate animals. A practical course for laboratory technicians, pre-medical students, and other Biology students. Prerequisite: BIOL 2014. **Spring.**

4054. Genetics.

This course is a study of the basic principles, theories and mechanisms of heredity in the context of historical Mendelian approaches and modern molecular techniques. It will address transmission genetics, population genetics, quantitative genetics, and molecular genetics. The course incorporates recent research in the presentation and analytical evaluation of course material with a focus on laboratory techniques and molecular mechanisms. Prerequisites: MATH 2063, eight hours of biology and eight hours of chemistry. **Spring.**

4064. Cell and Molecular Biology.

This course is designed to address general and specific principles of cellular and molecular biology. The course covers basic chemical and physical concepts important to understanding cellular and molecular processes, cell membrane structure and function, storage and expression of genetic information, signal transduction, synthesis and function of cellular membrane systems, cellular interactions, cytoskeletal structure and function, and the cell cycle. The course incorporates recent research in the presentation and analytical evaluation of course material with a focus on laboratory techniques and molecular mechanisms. Prerequisites: BIOL 1014, 2014 or 2024, 8 hours of chemistry. Recommended: CHEM 3005 and 3015. **Fall.**

4342. Laboratory Teaching Internship.

Student interns will assist the instructor in the preparation and instruction of a laboratory course. Interns will engage in individual and small group instruction during laboratory, will be prepared to answer questions related to weekly lab exercises, will assist in the preparation, administration and grading of lab assignments and exams, and will be formally evaluated by the faculty instructor a minimum of two times during the semester. Student interns may be required to design a laboratory exercise and or create exam questions. Students must have completed 16 hours of biology and complete a written application. Satisfactory /unsatisfactory based on instructor's requirements. The internship may be taken multiple times, but only once toward the minimum hours for a biology major or minor. **On Demand.**

4783. On the Ouachita.

An interdisciplinary and place-based approach to environmental sciences. The course incorporates perspectives from disciplines such as history, natural science, ecology and leisure studies and requires field work and travel after the end of the regular semester. For Travel Study trips, multiple trips may be taken, but only one travel course will count toward the minimum hours for a biology major or minor. Also listed as HIST 4783, LST 4783, and PHIL 4783. Consent of Instructor. **On Demand.**

4801-4894. Individual Study, Group Study, Research.

See BIOL 3801-3894 for course details and requirements. For Travel Study trips, multiple trips may be taken, but only one travel course will count toward the minimum hours for a biology major or minor. **On Demand.**

Communication Sciences and Disorders (CMDS)

Professor N. Hardman¹, Director

Requirements for a major in Communication Sciences and Disorders: CMDS 1013, 2023, 3003, 3013 or 3113, 3023, 3063, 4003, 4013, 4033, 4040.5, 4053, 4063, minimum of 2.5 hours of 4140.5-3, choose two of the following to equal minimum of 5 hours: SPCM 1003, SOCI 2023, BIOL 3064, ENGL 3073, DIET 3083, DIET 3203, NSCI 4002, PHIL 4103, and eighteen hours in one related field. The requirement for a minor is waived.

Requirements for a minor in Communication Sciences and Disorders: CMDS 1013, 2023, 3003, 3023, 3063, 4053.

Please note that requirements of professional schools change, are posted on their websites, and often take effect immediately. Their requirements supersede OBU catalog listings.

1013. Phonetics.

A study of the International Phonetic Alphabet and standard regional dialects. An analysis of speech sounds with an emphasis on phonetic transcription, pronunciation, and effective communication. **Spring.**

2023. Introduction to Communication Disorders.

The study of the development of speech in the child, etiology and principles of therapy of speech disorders, including the areas of articulation, language, voice and fluency. **Fall.**

3003. Clinical Management.

Clinical procedures for working in various practicum settings, using diagnostic and therapeutic techniques, writing behavioral objectives, observations and procedures for report writing. Prerequisite: CMDS 2023 or consent of instructor. **Fall.**

3013. Voice Disorders.

Study of normal voice function and voice pathologies including evaluation techniques and specific remediation procedures for patients with voice disorders. Prerequisite: CMDS 2023. [CAC-W]. **Fall of odd-numbered years.**

3023. Vocal Anatomy.

A study of the structure and function of the speaking mechanism. **Fall of even-numbered years.**

3063. Language Development.

An introduction to linguistics as well as a study of developmental psycholinguistics as related to the acquisition of language and speech as well as normal phonological development. Prerequisite: CMDS 2023. [CAC-W] **Fall of odd-numbered years.**

3073. Linguistics.

See ENGL 3073. **Spring of odd-numbered years.**

3113. Fluency Disorders.

Study of the nature and theories of stuttering, diagnosis, and treatment procedures. Prerequisite: CMDS 2023. [CAC-O] **Spring of even-numbered years.**

3801-3893. Special Studies in Speech Pathology.

This course is offered to provide competent students an opportunity to do directed study or research. Prerequisite: Junior or Senior standing and consent of instructor. **On Demand.**

¹ Edna and Freda Linn Professor of Communication Disorders and Pre-Medical Studies

4003. Introduction to Audiology.

An introduction to the problems of the deaf and hearing impaired, the classification of hearing disorders and development of audiometry through pure tone techniques are considered. **Spring of odd-numbered years.**

4013. Diagnostic Methods.

Procedural guide for evaluation of speech and language disorders in children and adults, and effective usage of available testing materials. **Spring of odd-numbered years.**

4033. Fundamentals of Speech and Hearing Science.

Basic principles of acoustics related to speech and hearing are studied. Areas covered include basic sound, mathematical computation of sound intensity and pressure, and physiological aspects of acoustics. **Fall of even-numbered years.**

4040.5. Clinical Observation.

Supervised observation of evaluation and therapeutic management of a variety of communication disorders. Prerequisite: concurrent enrollment in, or completion of CMDS 2023, 3003, or consent of instructor. **Fall, Spring.**

4053. Language Disorders.

A study of the etiology, pathology and remediation of language disorders and articulation disorders in children and adults. Prerequisite: CMDS 2023. **Spring of even-numbered years.**

4063. Articulation and Phonological Disorders.

Identification, classification, analysis, and remediation of phonological and articulation disorders in children. Prerequisite: CMDS 2023. **Spring of even-numbered years.**

4140.5-3. Clinical Practicum.

Supervised participation in evaluation and therapeutic management of a variety of communication disorders. (May be repeated for credit.) Prerequisite: CMDS 4040.5 and an overall grade point average of 2.500 or consent of instructor. **Fall, Spring.**

Dietetics and Nutrition (DIET)

Associate Professor S. Freeman, Director

Mission of the Didactic Program in Dietetics

The Didactic Program in Dietetics is based upon the philosophy that optimal nutrition is essential for the health and well being of every person. Likewise, the program recognizes that societal needs are best served by having a population that is adequately nourished. Thus, the purpose of the Didactic Program in Dietetics is to prepare individuals with a unique combination of knowledge and skills conducive to helping individuals and society meet their nutritional needs. The mission of the Didactic Program in Dietetics is to:

- Provide students with a comprehensive knowledge of the interrelationships of food, nutrition, and health based upon the integration of principles from a variety of disciplines;
- Provide students interested in the dietetics profession with an American Dietetic Association (ADA) accredited didactic academic program in preparation for entrance into a dietetic internship or approved pre-professional practice program;
- Provide students interested in food service systems management and nutrition-related professions with knowledge, skills, and training in the areas of food, nutrition, and management;
- Prepare students interested in graduate study with the knowledge and skills for completion of advanced degree programs; and
- Inspire students to have a commitment to life-long learning and to Christian leadership and service in all areas of life.

Goals of the Didactic Program in Dietetics

The Didactic Program in Dietetics at Ouachita Baptist University will provide an academically strong didactic program based on the curriculum for "Foundations of Knowledge and Skills for Didactic Programs" established by the CADE (Commission of Accreditation for Dietetics Education) of the American Dietetic Association. The Didactic Program in Dietetics will enable students to acquire essential knowledge, skills, and dispositions in this academic discipline for successful careers, advanced studies, and student leadership.

1. The Program will prepare graduates to have the foundation knowledge for entry into a CADE (Commission of Accreditation for Dietetics Education) accredited post-baccalaureate Dietetic Internship.

2. The Program will prepare graduates to possess the foundation skills for entry into a CADE accredited post-baccalaureate Dietetic Internship.
3. The Program will prepare students to have a solid foundation for advanced studies.
4. The Program will provide students with opportunities to develop communication, collaboration, problem solving, and critical thinking skills.
5. The Program will provide students with a high quality Christian liberal arts education that enables graduates to demonstrate a commitment to Christian service and professional service.

The Dietetic Program is a Didactic Dietetic Program and is accredited by the Commission of Accreditation for Dietetics Education of The American Dietetic Association. The Didactic Program in Dietetics is the first step in the process of becoming a registered dietitian. Upon graduation, the student will receive verification that they have completed the foundation knowledge and skills required by the Commission of Accreditation for Dietetics Education. In order to become a registered dietitian, the student must take the next step in the process. This step involves completion of a supervised practice program in order to be eligible to take the national Registration Examination for Dietitians. Please note that requirements of the Commission of Accreditation for Dietetics Education of The American Dietetic Association may change and may take effect immediately. Their requirements supersede OBU catalog listings.

Guidelines for Issuing Verification Statements from the DPD Program at Ouachita Baptist University:

1. The student must successfully complete the general requirements for graduation in either the catalog in effect at the time of admission or in a subsequent one.
2. The student must successfully satisfy the requirement for a B.S. degree in Dietetics and Nutrition as specified in the current university catalog.
3. The student must have a C or higher in all courses.
4. The student must score 80% or higher on the DPD exit exam.
5. Verification Statements will be issued on or after the date of graduation by the DPD Director.

Requirements for the B.S. degree with a major in Dietetics and Nutrition meeting the prerequisites to enter a Dietetic Internship accredited by the American Dietetic Association: DIET 1001, 2003, 3002, 3043, 3053, 3083, 3093, 3203, 4013, 4031, 4033, 4041, 4043, 4051, 4053, 4063, 4092; BIOL 1014, 2024, 3014; CHEM 1024, 1034, 3203; MATH 1003, 2063; BUAD 1033; ENGL 3013; PSYC 1013 or SOCI 1003. A minor is not required.

Requirements for a minor in Dietetics and Nutrition: DIET 1001, 3002, 3043, 3053, 3083, 3093, and 4063.

1001. Introduction to Dietetics and Nutrition.

An introduction to the field of dietetics and nutrition. The course will cover the requirements of the Commission of Accreditation for Dietetics Education (CADE). **Fall.**

2003. Foods.

Use of food science principles in food selection and preparation procedures. Introduction to food science research. **Spring.**

3002. Topics in Nutrition.

Current topics in nutrition will be discussed and researched. **Spring.**

3043. Sports Nutrition.

Nutrient needs and food related issues in exercise for wellness and training for competitive athletes. **Fall.**

3053. Nutrition.

Functions of various nutrients and their interrelationships with emphasis on personal food habits and selection. Recommended prerequisite: CHEM 1024. **Fall, Spring.**

- 3083. Community and Life Cycle Nutrition.**
Prevention and treatment of nutrition problems common to individuals, families, and communities. Includes survey of federal, state, and local nutrition programs for various age groups. Prerequisite: DIET 3053 recommended. **Fall.**
- 3093. Nutrition Assessment.**
Methods used to assess the nutritional status of individuals and populations. Interpretation of anthropometric, biochemical, clinical and dietary data as a basis for recommending nutritional care. Prerequisite: DIET 3053. **Spring.**
- 3203. Nutrition Counseling and Education.**
A study of nutrition counseling theory and methods, interviewing techniques, and nutrition education theory and techniques. The course will also focus on the development of nutrition education materials. Prerequisite: DIET 3093 or consent of instructor. **Spring.**
- 4013. Food Systems Management.**
Study of the principles of organization and management applied to institutional food service. Menu planning; recipe development; food procurement; receiving and storage; food production; quality assurance; management of financial resources; equipment selection and layout; computer-assisted management and distribution. Study of the principles of organization and management applied to institutional food service. Prerequisite: DIET 2003. **Fall.**
- 4031. Medical Nutrition Therapy I Practicum.**
Supervised clinical practice in medical nutrition therapy. This course must be taken with DIET 4033.
- 4033. Medical Nutrition Therapy I.**
An in-depth study of nutrition from the perspective of disease prevention and treatment, including patient interviewing, charting techniques, and medical terminology. Prerequisites: DIET 3093. **Fall.**
- 4041. Medical Nutrition Therapy II Practicum.**
Supervised clinical practice in medical nutrition therapy. This course must be taken with DIET 4043.
- 4043. Medical Nutrition Therapy II.**
A continuation of the study of nutrition in the prevention and treatment of disease. Prerequisite: DIET 4033. **Spring.**
- 4051. Senior Seminar in Dietetics.**
Procedures and application process for obtaining professional status through dietetic registration and licensure. Professional ethics and legal responsibilities. Strategies for integration of current issues into dietetic practice. Prerequisite: senior standing in dietetics and nutrition. [CAC-W] **Fall.**
- 4053. Experimental Food Science.**
An advanced course consisting of a study of the composition and chemical properties of food. The course also includes a study of food problems and an analysis of current research in food materials and processes. Prerequisite: DIET 2003. **Spring.**
- 4063. Advanced Nutrition.**
Food nutrients, their digestion, absorption and metabolism. Methods of determining requirements and interrelationships of nutrients. [CAC-W] Prerequisite: DIET 3053. **Spring.**
- 4092. Research in Dietetics.**
Individualized and directed research in the area of dietetics and nutrition. Prerequisite: Senior standing in dietetics and nutrition. **Fall.**

Athletic Training Education Program (ATEP)

Associate Professor, T. DeWitt, Director
Approved Clinical Instructors: B. White, K. White
Medical Director: W. Kluck, MD

This program is accredited by the Commission on the Accreditation of Athletic Training Education Programs (CAATE).

Mission Statement: Ouachita Baptist University is committed to providing quality educational opportunities for Allied Health Education. The Athletic Training Education Program (ATEP) provides students with clear objectives, competencies, and clinical proficiencies obtainable through lecture, clinical applications, and study.

Mission: Ouachita Baptist University is committed to providing quality educational opportunities in the field of athletic training. The Athletic Training Education Program (ATEP) provides students with clear objectives, competencies, and clinical proficiencies obtainable through lecture, clinical applications, and study.

Goal 1: athletic training students will be able to demonstrate proficiency in clinical skills of injury evaluations, injury management, and return to activity criteria for physically active people (proficiencies).

Goal 2: athletic training students will master the competencies of athletic training.

Goal 3: athletic training students will be capable of communicating using the appropriate medical terminology to various allied health care providers involved in the ATEP.

Goal 4: athletic training graduates will demonstrate their proficiency in athletic training skills by successfully passing the NATABOC mock exam.

Admission to Ouachita Baptist University does not guarantee admission into the Athletic Training Education Program [ATEP]. Each student wishing to be accepted into the ATEP must follow the requirements under admission. The program is accredited by the Commission on Accreditation of Athletic Training Education Programs (CAATE). See the web page for more details at www.obu.edu/atep. Changing standards of accrediting agencies may alter graduation requirements prior to a student's completion of this program. Such changes will supersede this catalog. See ATEP program director for updates.

The bachelor of art program in athletic training consists of two parts: 1) the pre-professional program and 2) the professional program (consisting of two academic years or 4 semesters). The pre-professional program consists of the following courses: [20 hours]:

1. ATEP 2063 Techniques of Athletic Training with a "B" or better;
2. ATEP 2001 Practicum in Athletic Training I and ATEP 2011 Practicum in Athletic Training II with a "B" or better;
3. BIOL 1014 Zoology or BIOL 1024 Botany;
4. BIOL 2014 Human Anatomy and Physiology I and BIOL 2024 Human Anatomy and Physiology II with a "C" or better;
5. KIN 3023 Physiology of Exercise.

The pre-professional program must be completed by all students and must be validated by the ATEP director. All students must make a formal application to the ATEP (see web page at www.obu.edu/atep). Completion of the pre-professional program does not guarantee admission into the program.

Requirements for a B.A. degree in Athletic Training: ATEP 2001, 2011, 2063, 3001, 3011, 3021, 3031, 3033, 3043, 3053, 3082, 3111, 3121, 4003, 4053; KIN 1003, 1012, 1113, 3023, 4043; BIOL 1014 or 1024, 2014, 2024; DIET 3043; PSYC 1013. Potential second majors or recommended minors are Biology, Dietetics/Nutrition, or Kinesiology.

Admission:

To be admitted into the ATEP, students must meet the following requirements:

1. See current Athletic Training Education Program handbook for full admission requirements at www.obu.edu/atep.
2. A current Hepatitis—B vaccination or proof of is required for full admission.

NOTE: the ATEP will only accept the **MOST** qualified candidates based on seat availability. There are twelve [12] positions in the program for admitted students. Entry is based upon seat availability and admissions committee recommendations.

Transfer Students:

Students transferring from other institutions must meet the following requirements:

- 1) All transfer courses must be approved by the university registrar;
- 2) All ATEP clinical courses [ATEP 3001, ATEP 3011, ATEP 3021, and ATEP 3031] must be taken in sequence on the OBU campus.

Program Progression:

To progress through the ATEP students must:

- 1) Maintain a cumulative GPA of 2.5 on a 4.0 scale (students who drop below this will be placed on academic probation and reviewed by the ATEP admissions committee);

- 2) Meet a minimum grade of a “C” or better in any ATEP course attempted. Failure to earn a “C” or better will require the course to be repeated. Students may only repeat an ATEP course once;
- 3) Maintain good standing with the university according to the published Tiger Handbook;
- 4) Maintain a current CPR card for health care providers;
- 5) Take all ATEP courses in sequence unless authorized by the ATEP director;
- 6) Complete the clinical proficiencies and the clinical hours each semester of the 4-semester clinical program before advancing to the next semester [practicums 3—6];
- 7) NOT complete any two practicum courses during the same semester;
- 8) Adhere to the Covenant on Academic Honor. [See academic catalog section]

Academic Probation/suspension:

Failure to meet any of the above mentioned criteria, which are essential elements of the ATEP academic program, could result in suspension or probation from the OBU ATEP

Any student who is suspended from the ATEP may choose to go through the appeals process as outlined in the Tiger Handbook. Students who are terminated from the ATEP will be required to re-apply for admission when all deficiencies are removed. Students suspended twice are ineligible for re-admission.

Technical Standards for Admission

All students must meet the technical standards for admission into the ATEP. A copy of the technical standards can be found on the university web page at:
http://www.obu.edu/atep/tech_standards_admission.pdf.

Compliance with the technical standards policy does not guarantee admission into the ATEP.

Students needing accommodation to meet the technical standards for admission will be evaluated by the ADA Coordinator located in ESC 136.

Students are expected to provide their own transportation to off-campus sites during clinical rotation phases of the program.

ATEP prefix course descriptions are provided as follows:

2001. Practicum in Athletic Training I.

This course is an introductory course for a student interested in learning about athletic training. Opportunities are available to observe and gain practical experience working with a staff member in prevention, evaluation, treatment, management, and rehabilitation of athletic related injuries. This practicum will contain some of the specific clinical skills required in athletic training. This is a laboratory class focusing on clinical skills. **Fall.**

2011. Practicum in Athletic Training II.

The course follows the first practicum class. Additional learning opportunities are made available in athletic training. Specified clinical skills are required for course content. This is a laboratory class focusing on clinical skills. Prerequisite: ATEP 2001. **Spring.**

2063. Techniques of Athletic Training.

This course is an introductory course designed to show students the art and science of athletic training. Emphasis is placed upon the various responsibilities of a certified athletic trainer. There will be ten laboratory meetings scheduled during the semester outside the three class meetings per week. Lab will focus on introducing the clinical skills for certification as an athletic trainer. **Fall, Spring.**

3001. Practicum in Athletic Training III.

This practicum places the student intern in a more prominent role learning from an approved clinical instructor. This class places the student in the first clinical rotation of the academic program. Specific clinical skills [proficiencies] are evaluated. Additionally, a minimal time of 150 “clock” hours are required for kinesthetic learning. Prerequisite: ATEP 2001, 2011, and formal acceptance into the ATEP. This is a laboratory class focusing on clinical skills. **Fall.**

3011. Practicum in Athletic Training IV.

This course is offered in the spring following successful completion of ATEP 3001. This is the second part of a two-semester clinical involvement in the clinical rotation. The student intern is placed under the direct supervision of an approved clinical instructor. Specific clinical skills [proficiencies] are evaluated. Additionally, a minimal time of 150 “clock” hours are required for kinesthetic learning. This is a laboratory class focusing on clinical skills. Prerequisite: ATEP 3001. **Spring.**

3021. Practicum in Athletic Training V.

This course involves extended involvement with an approved clinical instructor. This is the third sequenced course in the clinical rotation. Specific clinical skills [proficiencies] are evaluated. Additionally, a minimal time of 150 “clock” hours are required for kinesthetic learning. This is a laboratory class focusing on clinical skills. Prerequisite: ATEP 3011. **Fall.**

3031. Practicum in Athletic Training VI.

This course is the final clinical rotation course. Specific clinical skills [proficiencies] are evaluated. Additionally, a minimal time of 150 “clock” hours are required for kinesthetic learning. This is a laboratory class focusing on clinical skills. Prerequisite: ATEP 3021. **Spring.**

3033. Introduction to Therapeutic Techniques.

This course is designed as an introduction to the use of specified techniques used in athletic training. Special emphasis is placed on understanding the use of each modality as well as special therapeutic exercise techniques. There is a laboratory component with this class focusing on clinical skills for the certified athletic trainer. **Fall.**

3043. Lower Extremity Evaluation.

This course involves the evaluation techniques used to assess injuries to the lower extremity to include the spine. Writing SOAP notes and using special tests will be emphasized. There is a laboratory component with this class focusing on clinical skills for the certified athletic trainer. Prerequisite: ATEP 2063. **Spring.**

3053. Upper Extremity Evaluation.

This course involves the evaluation techniques used to assess injuries to the upper extremity to include the head and face. Writing SOAP notes and using special tests will be emphasized. There is a laboratory component with this class focusing on clinical skills for the certified athletic trainer. Prerequisite: BIOL 2014 or BIOL 2024. **Fall.**

3082. Organization and Administration in Athletic Training.

This course takes the student through various competencies of athletic training including but not limited to the budget process, ordering of supplies, inventory and facility design. [CAC-W] **Fall.**

3111. Pharmacology for Athletic Trainers.

This course allows the student the opportunity to identify conditions, recognize signs and symptoms indicating the use of, and advising a patient on the therapeutic medications used in treating certain symptoms, conditions, and physical characteristics associated with illness and injury. Prerequisite: formal admission into the ATEP or permission from the instructor. **Fall.**

3121. Psychosocial Issues in Athletic Training.

This course is designed to give a basic knowledge of psychosocial techniques that can be utilized by professionals working with the physically active population. Prerequisite: formal admission into the ATEP or permission from the instructor. **Spring.**

3701-3794. Special Topics in Athletic Training.

This course content varies to meet interests and needs of students. Prerequisites: ATEP 2001, 2011, 2063, or permission from the instructor. **On Demand.**

4003. Advanced Therapeutic Techniques.

This course deals with the therapeutic application of modalities and pharmacological considerations in treating conditions associated with physical activity and sports. There is a laboratory component with this class focusing on clinical skills for the certified athletic trainer. Prerequisite: ATEP 2083. **Spring.**

4053. Seminar in Athletic Training.

This course involves general medical problems and research in the field of athletic training. This course will also expose the student to opportunities for employment and continued education for the field of athletic training. Prerequisites: Must be in the final stages of the ATEP, Senior standing and approval of course instructor. [CAC-O] **Spring.**

Department of Chemistry (CHEM)

Professor J. Bradshaw,¹ Chair
Professors J. Jeffers, J. Nix², M. Perry³
Associate Professor T. Hayes¹
Assistant Professor S. Hubbard

The Department of Chemistry provides students a professional competence level of the concepts and techniques of chemistry within the framework of a strong liberal arts tradition. The Department offers personalized attention in teaching and research to allow students to adapt this mastery of undergraduate chemistry to a variety of career objectives. The study of Chemistry has value for general education; for preparation for careers as laboratory chemists, high school teachers, science writers, science-oriented businesspersons, etc.; and for preparation for graduate school, law school, medical school or other health professions schools.

Requirements for a major in Professional Chemistry:

B.S. degree: CHEM 1004, 1014, 2004, 3005, 3015, 3053, 3063, 3111, 3142, 3272, 4023, 4033, 4111, 4272, and research*; PHYS 1004, 1014 or 2004, 2014; MATH 2014 and 3202. A minor must be completed in one of the following: Mathematics, Physics, Computer Science, or Biology. Only 40 hours of chemistry can count toward the 128-hour minimum required for a degree.

Requirements for a major in Chemistry:

B.S. degree: CHEM 1004, 1014, 2004, 3005, 3015, 3053, 3272, 4111, plus one of 3063, 3142, 4023, 4033 and research*; PHYS 1004, 1014 or 2004, 2014; MATH 2014. MATH 3202 recommended. A minor must be completed in one of the following: Mathematics, Physics, Computer Science, or Biology.

B.A. degree: CHEM 1004, 1014, 2004, 3005, 3015, 3053, 3272, 4111, plus one of 3063, 3142, 4023, 4033 and research*; PHYS 1004, 1014 or 2004, 2014; MATH 2014. MATH 3202 recommended.

Requirements for a major in Chemistry (Teaching Emphasis):

CHEM 1004, 1014, 2004, 3005, 3015, 3053, 3272, 4023, 4111 and research*; BIOL 1014, 1024; PHYS 1004, 1014 or PHYS 2004, 2014; NSCI 2003, 3013, 3961; MATH 2014; MATH 3202, CORE 2423 recommended. In addition, students must complete a second major in education as outlined on page 82.

Requirements for a minor in Chemistry:

CHEM 1004, 1014, additional courses in the Department to total at least eighteen hours. No more than two hours credit from CHEM 4201-4491, 4202-4492, 4701-4794, 4801-4893 may be counted. A split minor may not be taken in Chemistry.

1004. General Chemistry I.

An introduction to the field of chemistry including nomenclature, stoichiometry, atomic structure, bonding, behavior of gases, and nuclear processes. Lecture three hours, laboratory three hours per week. **Fall.**

1014. General Chemistry II.

A continuation of CHEM 1004 including solids and liquids, chemical equilibria, electrochemistry, thermodynamics, and kinetics. Lecture three hours, laboratory three hours per week. Prerequisite: CHEM 1004. **Spring.**

1024. Introductory Chemistry.

Introductory course primarily for students in dietetics and nutrition, nursing, and dental hygiene. The course may not be counted toward a major or minor in Chemistry. No science background is assumed. Lecture three hours, laboratory two hours per week. **Fall.**

1034. Introductory Organic and Biological Chemistry.

Designed to follow CHEM 1024. The course may not be counted toward a major or minor in Chemistry. Lecture three hours, laboratory two hours per week. Prerequisite: CHEM 1024 or 1004. **Spring.**

2004. Quantitative Analysis.

Gravimetric and titrimetric analyses, separation methods, chemical equilibrium, redox theory, statistical treatment of data, and an introduction to spectrophotometry. Lecture two hours, laboratory six hours per week. Prerequisite: CHEM 1014. **Fall.**

*Research requirement can be met by taking CHEM 4801-4893 for a minimum of one credit hour (three hours laboratory per week for one semester) or by participating in a summer undergraduate research participation program at OBU or another university or research institute.

¹W.D. and Alice Burch Professor of Chemistry and Pre-Medical Studies.

²Distinguished University Professor

³Holder of the Nell I. Mondy Chair of Chemistry

⁴Holder of the E. A. Provine Chair of Chemistry

2701-4. Special Topics in Chemistry.

A course varied to meet the needs of the department. **On Demand.**

3005. Organic Chemistry I.

A systematic study of the typical compounds of carbon emphasizing the relationship between structure and reactivity. Lecture three hours, laboratory six hours per week. [CAC-W] Prerequisite: CHEM 1014. **Fall.**

3015. Organic Chemistry II.

A continuation of CHEM 3005 emphasizing reaction mechanisms and synthesis. Lecture three hours, laboratory six hours per week. [CAC-O] Prerequisite: CHEM 3005. **Spring.**

3053. Physical Chemistry I.

Introductory theoretical analysis of molecular structure, chemical bonding, and macroscopic chemical systems using quantum theory, classical and statistical thermodynamics, and kinetics. Lecture three hours per week. Prerequisites: MATH 2014, (MATH 3202 is highly recommended); PHYS 1004, 1014 or 2004, 2014; CHEM 3015. **Fall.**

3063. Physical Chemistry II.

A continuation of CHEM 3053 emphasizing classical thermodynamics and electrochemistry. Lecture three hours. Prerequisite: CHEM 3053. **Spring.**

3111. Chemistry Literature Seminar.

Participants will prepare written reviews, make an oral presentation, and address questions on a topic of current interest in the literature. One hour per week. Prerequisite: 20 hours of Chemistry. **Spring.**

3142. Instrumental Analysis.

Theory of modern analytical techniques including spectrometric, chromatographic, and electrometric methods. Lecture two hours per week. Prerequisite: CHEM 3053. **Spring of even numbered years.**

3203. Nutritional Biochemistry.

A study of the structure, chemistry and metabolism of amino acids, proteins, carbohydrates, lipids, nucleic acids and vitamins. This course may not be counted toward a major or minor in Chemistry. Lecture three hours per week. Prerequisite: CHEM 1034. **Fall of even-numbered years.**

3272. Experimental Techniques of Chemistry I.

Integrated laboratory experiments from each of the sub-disciplines of chemistry: analytical, biochemistry, inorganic, organic, nuclear, and physical. Use of synthetic techniques, modern instrumentation, chemical literature, and both oral and written presentation of experimental data will be emphasized. Six hours of laboratory per week. Prerequisites: CHEM 2004, 3053. **Spring.**

4023. Biochemistry.

An introduction to biochemistry including discussions of natural products, enzymes, metabolism and other physiological processes. Pertinent physiochemical problems are included. Lecture three hours per week. Prerequisite: CHEM 3015. **Spring.**

4033. Advanced Inorganic Chemistry.

Atomic structure and its relationship to the properties of elements and their compounds, types of bonding, and periodic arrangements. Lecture three hours per week. Prerequisite or corequisite: MATH 3202. Prerequisite: CHEM 3053. **Spring of odd-numbered years.**

4111. Chemistry Research Seminar.

Participants will prepare written reviews, make oral presentations, and defend results on their chemical research projects. One hour per week. Prerequisite: Prior research experience. **Spring.**

4201-4491, 4202-4492. Special Laboratory Topics.

Laboratory courses suited to the needs of the student. **On Demand.**

4272. Experimental Techniques of Chemistry II.

Continuation of integrated laboratory experiments oriented toward modern applications of fundamental chemical principles from each sub-discipline. Six hours of laboratory per week. Prerequisite: CHEM 3272. **Fall.**

4701-4794. Special Topics in Chemistry.

A course varied to suit the interests of students. The course may be repeated one time for credit. **On Demand.**

4801-4893. Special Studies in Chemistry.

Treats special problems or techniques in chemistry and varied to suit the needs of chemistry students. **On Demand.**

Department of Mathematics (MATH) and Computer Science (CSCI)

Associate Professor J. Sykes, Chair
Professor S. Hennagin
Associate Professor J. Matocha
Assistant Professors D. Buscher, M. Clark, K. Dwelle

In harmony with the missions of the University and the School of Natural Sciences, the Department of Mathematics and Computer Science provides all Ouachita students with a rigorous educational experience within the context of a Christian environment, preparing them for places of leadership and service. The department offers degrees in Mathematics, Secondary Mathematics Education (in conjunction with the Huckabee School of Education), Computer Science, and Software Engineering.

All course prerequisites in this department require a grade of C or better in the prerequisite course. Except for courses that allow for consent of instructor, the only method for bypassing a course prerequisite is through official placement, which is determined by ACT/SAT scores and/or placement exam. The department gives placement exams on the Monday prior to registration each semester. Credit may not be earned in a departmental course that is a prerequisite for any course already completed.

Mathematics (MATH)

The Mathematics program promotes, for all students, the enhancement of quantitative reasoning and problem-solving abilities, the development of communication skills, and an appreciation of the beauty of mathematics and of the breadth of its applications. Additionally, the major provides an in-depth study of the mathematical processes involved in abstraction and formal proof, preparing Mathematics graduates for a lifetime of learning and for success in graduate school, secondary teaching, and careers requiring analytical skills.

The Interdisciplinary Studies Mathematics requirement must be completed prior to Junior standing or during the first semester for transfer students.

All courses with the MATH prefix will require the student to have access to a graphing calculator.

Requirements for a major in Mathematics:

MATH Core: MATH 1073, 2014, 2024, 2073, 3034, 3053, 3093, 3301, 3311, 4401. Additional area requirement: CHEM 1004 or PHYS 2004, CSCI 1033.

B.S. degree: MATH Core plus MATH 4023, 4053, 4411, 4423; CSCI 1044. A minor must be completed in Biology, Chemistry, Computer Science, or Physics.

B.A. degree: MATH Core plus 4023, 4411; CSCI 1044; six additional Junior-Senior hours in Mathematics.

Requirements for a major in Mathematics (Teaching Emphasis):

MATH Core plus MATH 3003, 3063, 3083, 4013. In addition, students must complete a second major in education as outlined on [page 82](#).

Requirements for a minor in Mathematics:

Option A: MATH 2014, 2024, at least ten additional hours in Mathematics, including a minimum of six Junior-Senior hours. A split minor may not be taken in Mathematics.

Option B: MATH 1073, 2073, at least twelve additional hours in Mathematics, including a minimum of six Junior-Senior hours. A split minor may not be taken in Mathematics.

MATH Course Descriptions:

1003. College Algebra.

A study of functions, their graphs, and their applications. Topics include absolute value, quadratic, polynomial, rational, logarithmic, and exponential function; systems of equations; and matrices. Prerequisite: ASKL 1013 or official placement. **Fall, Spring.**

1013. Trigonometry.

Solution of triangles, identities, and equations. Study of graphs. Prerequisite: ASKL 1013 or official placement. **Fall of even-numbered years.**

1034. PreCalculus.

A course designed to prepare students for Calculus. Topics include functions, polynomials, rational functions, exponential and logarithmic functions, circular functions, systems of linear equations and coordinate geometry. Prerequisite: MATH 1003 or official placement. **Fall.**

1063. Business Calculus.

Intuitive coverage of calculus emphasizing applications in business. Differentiation, optimization in one- and two-variable problems, applications of exponential growth, elasticity of demand, and integration. A student may not earn credit for graduation in MATH 1063 after having earned credit in MATH 2014. Prerequisite: MATH 1003 or official placement. **On Demand.**

1073. Discrete Mathematics I.

An introduction to areas of mathematics not typically seen in high school. Topics include elementary symbolic logic, Boolean and matrix algebra, set and number theory, relations, graph theory, and an introduction to mathematical reasoning. Prerequisite: MATH 1003 or official placement. **Fall.**

1103. Special Topics in Mathematics.

A course covering special mathematical content not normally covered in the curriculum. Prerequisite: Consent of instructor. **May, if there is sufficient demand.**

2014. Calculus I.

Introductory study of calculus and analytic geometry, including differentiation, application of derivatives, integration, and application of integrals. Prerequisite: MATH 1034 or official placement. **Fall, Spring.**

2024. Calculus II.

Continuation of MATH 2014. Further study of transcendental functions, techniques of integration, sequences and series. Prerequisite: MATH 2014. **Fall.**

2033. Mathematics for Early Childhood Teachers I.

An introduction to the mathematical concepts underlying the traditional computational techniques for elementary school mathematics. The course may not be counted toward a major or minor in Mathematics or for certification in secondary mathematics. Open only to Early Childhood Education majors. Prerequisite: Official placement or a grade of C or better in ASKL 1013. **Fall.**

2053. Mathematics for Middle School Teachers I.

An introduction to the mathematical concepts underlying the traditional computational techniques for middle school Mathematics. The course may not be counted towards a major or minor in Mathematics. Prerequisite: MATH 1003. **Fall.**

2063. Elementary Statistics.

An introduction to the fundamental concepts and methods of modern statistics, emphasizing data analysis and statistical reasoning. Topics include descriptive statistics, experimental design, elementary probability, random sampling, estimation, hypothesis testing, simple linear regression, and ANOVA. Statistical software will be used extensively. Prerequisite: MATH 1003 or official placement. **Spring.**

2073. Discrete Mathematics II.

Continuation of MATH 1073 and an introduction to the techniques of mathematical proof. Additional topics in number and graph theory, equivalence relations, functions, combinatorics, and algebraic group theory. Prerequisite: MATH 1073. **Spring.**

3003. Foundations of Geometry.

A study of the axiomatic bases of geometries, their relation to “real” space; basic concepts of point, line, plane and space; projective and non-Euclidean geometries. Prerequisite: MATH 2014 or 2073. **Spring of odd numbered years.**

3013. Mathematics for Early Childhood Teachers II.

A continuation of the study of the rational and real number systems. Basic ideas of geometry, including plane regions and space figures, measurement, relations, functions and graphs, linear equations, probability, and logic. The course may not be counted toward a major or minor in Mathematics or for certification in secondary mathematics. Open only to Early Childhood Education majors. Prerequisite: MATH 2033 or consent of instructor. **Spring.**

3034. Calculus III.

Continuation of MATH 2024. A study of polar coordinates, vectors, vector-valued functions, functions of multiple variables, including partial differentiation and multiple integrals. Prerequisite: MATH 2024. **Spring.**

3043. Differential Equations.

Ordinary differential equations such as occur in geometry, physics, and chemistry. Course covers classical solution techniques including power series solutions and also treats the Laplace Transform Method. Prerequisite: MATH 2024. **Fall of odd-numbered years.**

3053. Abstract Algebra I.

A study of groups: symmetric groups, groups of integers, subgroups, group homomorphisms and isomorphisms, and other group theory topics. Prerequisites: MATH 2073. **Fall of odd-numbered years.**

- 3063. Probability and Statistics.**
Counting techniques, probability, odds, mathematical expectation, distributions, moments, sampling, mathematical models and testing hypotheses. Prerequisite: MATH 2014. **On Demand.**
- 3083. History of Mathematics.**
A survey of the development of mathematical theories and techniques from the early Egyptians through the eighteenth century. Emphasis is placed upon appreciation, but assignments include representative exercises. Prerequisite: MATH 2014 or MATH 2073 or consent of instructor. **Fall of odd-numbered years.**
- 3093. Linear Algebra.**
A study of vectors, matrices, and vector spaces. Topics include solutions of linear systems, linear transformations, determinants, bases, coordinate systems, eigenvectors and eigenvalues, orthogonality, and quadratic forms. Prerequisite: MATH 2024 or MATH 2073. **Fall of even-numbered years.**
- 3202. Advanced Chemical Calculations.**
A study of calculations required to master advanced chemical topics. This course may not be counted towards a major in mathematics. Prerequisite: MATH 2014. Prerequisite or corequisite: CHEM 3015. **Spring.**
- 3301. Junior Mathematics Seminar I.**
A course designed to give extensive experience in independent learning and reading of technical literature. Prerequisite: Consent of instructor. **Fall, Spring.**
- 3311. Junior Mathematics Seminar II.**
Continuation of MATH 3301. Prerequisite: Consent of instructor. **Fall, Spring.**
- 3313. Mathematics for Middle School Teachers II.**
A continuation of MATH 2053. The course may not be counted towards a major or minor in mathematics. Prerequisite: MATH 2053. **Spring.**
- 4013. Methods in Secondary Mathematics.**
A modular course for secondary mathematics education students including theories, purposes, activities, curricula and new developments in teaching. Prerequisite: Junior or Senior standing. **Fall of even-numbered years.**
- 4023. Introduction to Real Analysis.**
A more theoretical treatment than is provided by the basic calculus courses. Topics include limits, continuity, derivatives and the Riemann integral; primarily in one dimension. Prerequisites: MATH 2073, 2093, 3034. **Spring of odd-numbered years.**
- 4033. Further Studies in Real Analysis.**
Continuation of MATH 4023. Topics include series, functions of several variables and integrals other than Riemann-type. Prerequisite: MATH 4023. **On Demand.**
- 4053. Abstract Algebra II.**
Continuation of MATH 3053. Study of rings, fields, polynomial rings, extension fields, Galois Theory, and other topics. Prerequisites: MATH 3053. **Spring of even-numbered years.**
- 4083. Current Topics.**
Examination of topics, tools, and/or methodologies that have become significant forces in the field and are not covered by other courses in the curriculum. May be taken twice for credit. Prerequisites: Senior status or consent of instructor. **Fall of even-numbered years.**
- 4113. Methods in Middle School Mathematics.**
A modular course for middle school mathematics education students including theories, purposes, activities, curricula, and new developments in teaching. The course may not be counted toward a major or minor in Mathematics or for certification in secondary mathematics. Open only to Middle School Education majors. Prerequisite: MATH 3313 or consent of instructor. **Fall of even-numbered years.**
- 4401. Senior Mathematics Seminar I.**
A course designed to give extensive experience in the communication of mathematical thought through writing and oral presentation. Prerequisite: Consent of instructor. [CAC-W and CAC-O] **Fall, Spring.**
- 4411. Senior Mathematics Seminar II.**
Continuation of MATH 4401. Prerequisite: Consent of instructor. [CAC-W and CAC-O] **Fall, Spring.**

4423. Special Topics in Mathematics.

A course covering special mathematical content not normally covered in the curriculum. Course may be repeated for credit one time, provided that the repeat is a different topic. Prerequisite: Consent of instructor. **Spring.**

4801-4893. Special Studies in Mathematics.

For students who wish to do independent work on advanced problems. **On Demand.**

Computer Science (CSCI)

Computer Science is the study of computers and computational systems: their theory, design, development, and application. Computer programming is only one element of computer science; the real study of the discipline is concerned with problem solving. Problems range from abstract (determining what problems can be solved with computers and the complexity of the algorithms that solve them) to practical (design of computer systems easy for human use). The Computer Science program engages students in the pursuit of logical thinking through a wide variety of topics that will provide a solid foundation for their future endeavors in either graduate school or the professional world. The program encourages scholarship, ethical behavior, and a commitment to continual learning.

Requirements for a major in Computer Science:

B.S. degree: CSCI 1033, 1044, 2044, 2103, 3093, 4023, 4043, 4103, nine additional hours in computer science; MATH 1073, 2014, 2073, 3093; CHEM 1004 or PHYS 2004; SENG 2003. A minor must be completed in biology, chemistry, physics or mathematics.

B.A. degree: CSCI 1033, 1044, 2044, 2103, 3053, 4033, 4103, nine additional hours in Computer Science including at least three Junior-Senior hours; MATH 1073, 2073; SENG 2003.

Requirements for a minor in Computer Science:

Option A (Theoretical): CSCI 1044, 2044, 2103, 3093, plus six additional hours in Computer Science including at least three Junior-Senior hours. A split minor may not be taken in Computer Science.

Option B (Applied): CSCI 1044, 2044, 3053, 4033, plus six additional hours in computer science. A split minor may not be taken in Computer Science.

CSCI Course Descriptions:

1033. Introduction to Computer Science

A course designed to introduce students to Computer Science in a liberal arts setting. Students will use software to aid in the understanding of computing logic and algorithmic thinking. Other topics will include computing careers, use of computers across disciplines, ethical behavior, and computer hardware. Prerequisite: ACT Math score 19 or higher, or C in ASKL 1013. **Fall.**

1044. Programming I.

Introduction to the fundamental concepts of programming using an object-oriented language. Topics include: selection, repetition, methods, and problem solving; introduction to arrays, strings, and simple class design. Includes a laboratory component. Prerequisite: CSCI 1033 or consent of instructor. **Spring.**

2044. Programming II.

Continues the introduction from CSCI 1044. Concentrates on object-oriented development (encapsulation, aggregation, inheritance, polymorphism, interfaces) and elementary data structures (resizable arrays, linked lists, stacks, queues). Also includes introductions to recursion, algorithm analysis, searching, and sorting. Includes a laboratory component. Prerequisite: CSCI 1044. **Fall.**

2103. Data Structures.

Study of ADTs and their common implementations: searchable collections (BSTs and self-balancing trees), priority queues (heaps), maps (hash tables), graphs (adjacency list/matrix). Emphasis on choosing an implementation based on algorithmic analysis and properties of a particular application. Also includes generics, recursion, and advanced sorting. Prerequisite: CSCI 2044. Corequisite: MATH 2073. **Spring.**

2113. Internet Development.

This course surveys the many technologies that are used to program multi-tiered, client/server, database-intensive, Web-based applications. Prerequisite: CSCI 1044. **Fall of odd-numbered years.**

2123. Current Languages.

Introduces students to a recent new language not already covered in the curriculum. May only be taken once for credit. Prerequisite: CSCI 2044. **Spring of odd-numbered years.**

- 3053. Computer Networks.**
 Introduces the structure, implementation, and theoretical underpinnings of computer networking and the applications that have been enabled by that technology. Prerequisite: CSCI 2044 or CSCI 1044 and Junior standing. **Fall of odd-numbered years.**
- 3063. Artificial Intelligence.**
 Introduces students to the fundamental concepts and techniques of artificial intelligence (AI) including neural networks, genetic algorithms, and interpretation of knowledge. Prerequisite: CSCI 2103. **On Demand.**
- 3093. Introduction to Computer Organization.**
 Introduces the concept of a computer beginning with the hardware. Topics covered include: microprocessor architecture, memory, busses, interrupts, interface adapters, controllers, direct memory access, and serial communication. Includes the usage of assembly language to reinforce topics. Prerequisite: CSCI 2044. **Spring of even-numbered years.**
- 4023. Programming Languages.**
 Introduces the theory and practice of programming language translation. Topics include compiler design, lexical analysis, parsing, symbol tables, declaration and storage management, code generation, and optimization techniques. Prerequisite: CSCI 2103. Cross-listed with SENG 3003. **Fall of even-numbered years.**
- 4033. Database Management Systems.**
 Introduces the concepts, techniques, and management of databases and Database Management Systems (DBMS). Topics include relational databases, normalization, indexing, and transaction management. Prerequisite: CSCI 2044 or CSCI 1044 and Junior standing. **Spring of odd-numbered years.**
- 4043. Algorithm Design and Analysis.**
 Introduces formal techniques to support the design and analysis of algorithms, focusing on both the underlying mathematical theory and practical considerations of efficiency. Topics include asymptotic complexity bounds, techniques of analysis, and algorithmic strategies. Prerequisite: CSCI 2103. **Spring of odd-numbered years.**
- 4053. Operating Systems.**
 Introduces the fundamentals of operating system design and implementation. Topics include an overview of the components of an operating system, mutual exclusion and synchronization, implementation of processes, scheduling algorithms, memory management, and file systems. Prerequisite: CSCI 2103. **On Demand.**
- 4083. Current Topics.**
 Examination of topics, tools, and/or methodologies that have become significant forces in the field and are not covered by other courses in the curriculum. May be taken twice for credit. Prerequisites: Senior status or consent of instructor. **Fall of even-numbered years.**
- 4103. Senior Research.**
 This course will engage students in research outside of their previous coursework experience. The outcome of this course will be either a project or a paper of sufficient quality to be published or presented at a conference. Prerequisite: Senior standing and/or consent of instructor. [CAC-O and CAC-W] **Spring.**
- 4113. Game Design and Computer Graphics.**
 This course introduces the study of the technology, science and art involved in the creation of computer games. Students will study a variety of software and graphics technologies relevant to languages, operating systems, file systems, networks, simulation engines, and multi-media design systems. Prerequisites: CSCI 2103. **Fall of even-numbered years.**
- 4243. Client/Server Development.**
 Client/server computing is a model in which computation is divided among distinct processes, some acting as clients that request services and others acting as servers that provide those services. Compared to traditional computing models, client/server systems often represent dramatic improvements in usability, flexibility, interoperability, and scalability. This course introduces the fundamental concepts of client/server development and covers issues involving designing, implementing, and testing client/server systems. Prerequisites: CSCI 2044, CSCI 2113, CSCI 4033. **Spring of even-numbered years.**
- 4801-4893. Special Studies in Computer Science.**
 Continuation of courses offered on a regular basis or areas of computer science not covered in the regular curriculum. Prerequisite: Consent of instructor. **On Demand.**

Software Engineering (SENG)

Software Engineering is the application of engineering concepts, techniques, and methods to the development of software systems. The Software Engineering program develops professionals with a mastery of software development theory, practice, and process. Software Engineering is based on Computer Science, in the same way that other engineering disciplines are based on natural or life sciences. However, it adds an emphasis on issues of process, design, measurement, analysis, and verification, providing a strong foundation in engineering principles and practice as applied to software development. Software Engineering students gain knowledge and skill in all aspects of the software development life cycle, including requirements elicitation and analysis, software architecture, design, construction, quality assurance, and deployment. To provide a basis for this Software Engineering practice and process, students are grounded in the fundamentals of Computer Science, including programming concepts, data structures, and algorithms.

Requirements for a major in Software Engineering:

B.S. degree: SENG 2003, 2013, 3003, 3013, 3033, 3043, 4003, 4013; CSCI 1033, 1044, 2044, 2103, 4033; MATH 1073, 2063, 2073. A minor must be completed in biology, chemistry, physics, or mathematics. A minor cannot be chosen in Computer Science.

No minor is offered in Software Engineering.

SENG Course Descriptions:

2003. Introduction to Software Engineering.

Principles of software engineering: Requirements, analysis, design, construction, testing and maintenance. Review of principles of object orientation and use of UML. Frameworks and APIs. Introduction to the client-server architecture. Introduction to Human Computer Interaction. Corequisite: CSCI 2044. **Fall.**

2013. Software Engineering and Human Computer Interaction.

Psychological principles of human-computer interaction. Evaluation of user interfaces, usability engineering, task analysis, user-centered design, and prototyping. Software design rationale. Design of windows, menus, and commands. Response time and feedback. Color, icons, and sound. Internationalization and localization. User interface architectures and APIs. Prerequisite: SENG 2003. [CAC-O] **Spring of even-numbered years.**

3003. Software Construction.

General principles and techniques for disciplined low-level software design. BNF and basic theory of grammars and parsing. Basics of language and protocol design. Formal languages. State-transition and table-based software design. Techniques for handling concurrency and inter-process communication. Introduction to middleware and performance tuning. Prerequisite: SENG 2003, CSCI 2103. Cross-listed with CSCI 4023. **Fall of even-numbered years.**

3013. Software Design and Architecture.

An in-depth look at software design. Continuation of the study of design patterns, frameworks, and architectures. Survey of current middleware architectures. Component based and distributed design. Designing for qualities such as performance, safety, security, reusability, and reliability. Evaluation and evolution of designs. Basics of software evolution, reengineering, and reverse engineering. Prerequisite: SENG 3003. **Spring of odd-numbered years.**

3033. Software Quality Assurance and Testing.

Quality: how to assure it and verify it, and the need for a culture of quality. Avoidance of errors and other quality problems. Inspections and reviews. Testing, verification and validation techniques. Quality process standards. Problem analysis and reporting. Prerequisite: SENG 2003. **Fall of odd-numbered years.**

3043. Software Requirements Analysis.

Techniques for discovering and eliciting requirements. Languages and models for representing requirements. Analysis and validation techniques, including need, goal, and use case analysis. Requirements document standards. Traceability. Human factors. Requirements management; handling requirements changes. Prerequisite: SENG 2003. **Fall of even-numbered years.**

4003. Software Project Management.

Project planning, cost estimation, and scheduling. Work Breakdown Structure. Project management tools. Productivity metrics. Analysis of options and risks. Release and configuration management. Software contracts and intellectual property. Case studies of real industrial projects. Prerequisites: SENG 2003; MATH 2063. **Fall of odd-numbered years.**

4013. Software Engineering Capstone.

Development of significant software system, employing knowledge gained from courses throughout the program. Includes development of requirements, design, implementation, and quality assurance. Students may follow any suitable process model, must pay attention to quality issues, and must manage the project themselves, following all appropriate project management techniques. Success of the project is determined in large part by whether students have adequately solved their customer's problem. Prerequisite: SENG 4003 and senior standing. [CAC-W] **Spring.**

Department of Physics (PHYS)

Professor G. Good¹, Chair

Associate Professor K. Cornelius

Because physics is basic to other disciplines in the sciences and in engineering, our curriculum is designed to prepare students for a number of options after graduation. Many of our students pursue graduate work in physics directed toward employment in research in government, including laboratories, or teaching. Other students attend professional schools such as engineering, law or medicine; others work in related fields, such as Biophysics, or Geophysics. Finally, a number of our students go directly to work after receiving the bachelor's degree. These students benefit greatly from the option in Engineering Physics outlined below. This option is of value to the student who may be undecided about further work in engineering or physics or who pursues graduate work. This option is also of value to the student who is interested in the Arts-Engineering program described on page 132. Students undecided about these options will find our faculty informed and readily available to assist in making these important decisions.

Requirements for a major in Physics:

B.S. degree (Physics Option): PHYS 1121, 2004, 2014, 3004, 3034, 4003, 4061, sixteen additional approved hours in physics (4043, 4053, 4183, and 4263 are strongly recommended); 8 hours from CHEM 1004, 1014; BIOL 1014, 1024 subject to all existing prerequisites; MATH 2014, 2024, 3034, 3043, three additional Junior-Senior hours in Mathematics; CSCI 1044, completion of a minor in chemistry, biology, computer science or mathematics.

B.S. degree (Engineering Physics Option): PHYS 1112, 1121, 2004, 2014, 2123, 2133, 3004, 3034, 3123, 4003, nine additional hours in Physics chosen from PHYS 3113, 3044, 3203, 4023, 4041, 4043, 4183, 4263; CHEM 1004, 1014; MATH 2014, 2024, 3034, 3043, three additional Junior-Senior hours in Mathematics; CSCI 1044, completion of a minor in biology, chemistry, computer science, or mathematics.

B.A. degree: PHYS 1121, 2004, 2014 (or 1004, 1014), 3004, 3034, 4003, two additional courses in physics, one of which must be at the Junior-Senior level, for a minimum of twenty-four hours; MATH 2014, 2024.

Requirements for a minor in Physics: PHYS 2004, 2014 (or 1004, 1014), 3004, and additional courses in the department to total at least eighteen hours. PHYS 1203 may be taken with consent of Department chairman. A split minor may not be taken in Physics.

1004, 1014. Introductory Physics I, II.

Introductory non-calculus courses in the fundamental principles of physics. Lecture three hours, laboratory two hours per week. Corequisite or prerequisite: MATH 1003, 1013, or equivalent. **Fall, Spring.**

1112. Engineering Graphics.

Instruction in the proper use of drafting instruments, lettering, design, layout and projection. **Fall.**

1121. Introduction to Physics and Engineering.

An introduction to the fields of Physics and Engineering designed to introduce students to the wide variety of career paths available and the skills necessary to work in a particular field. Discussion on practical topics such as engineering failures and ethics will also be included. Course is offered on a Satisfactory-Unsatisfactory basis. **Fall.**

1203. Astronomy.

The astronomical universe from the descriptive viewpoint. Some night observations will be included. **Spring of odd-numbered years.**

2004, 2014. University Physics I, II.

Introductory courses in physics using calculus, designed for the physical science and engineering majors. Lecture three hours, laboratory three hours per week. Prerequisite: MATH 2014, Corequisite MATH 2024. **Fall, Spring.**

2101-2104. Special Topics in Physics.

A course varied to meet the needs of the department. **On Demand.**

2123. Statics.

A study of forces in equilibrium, especially stresses in loaded structures. Analytical methods are emphasized. Prerequisite: PHYS 2014. Prerequisite or Corequisite: MATH 2024. [CAC-O] **Fall.**

2133. Dynamics.

A study of the kinetics and kinematics of a particle and of rigid bodies. Prerequisite: PHYS 2123. **Spring of even-numbered years.**

3004. Introduction to Modern Physics. An elementary development of the principles of modern physics. Lecture three hours, laboratory four hours per week. Prerequisite: PHYS 1014 or 2014. Corequisite: MATH 2024. [CAC-O and CAC-W] **Fall.**

3034. Electricity and Magnetism.

A study of the principles of electricity and magnetism including fields, potential, capacitance, resistance, and inductance. Lecture three hours, laboratory three hours per week. Prerequisites: PHYS 1014 or 2014; MATH 3034. **Spring of even-numbered years.**

3044. Electronics.

An introduction to the fundamentals of electronics. Lecture three hours, laboratory four hours per week. Prerequisite: PHYS 1014 or 2014. **Spring.**

3123. Electrical Circuits.

An introduction to the fundamental concepts of electrical circuits, including DC circuits, AC circuit analysis, network theorems, transient analysis, complex frequency and resonance phenomena and computer solutions to circuits. Prerequisite: PHYS 1014 or 2014. **Fall.**

3133. Wave Theory.

The study of wave properties with applications in acoustics and optics. Prerequisite: PHYS 1014 or PHYS 2014. **On Demand.**

3203. Strength of Materials.

Stress and deformation of members in tension, compression, torsion and bending, and the design of these members, columns, statically indeterminate beams and simple connections. Prerequisite: PHYS 2123. **On Demand.**

4003. Mechanics.

A study of the fundamentals of mechanics as applied to particles, systems of particles and rigid bodies including harmonic, oscillators and central force fields. Prerequisites: PHYS 1004 or 2004; MATH 2024. **Fall.**

4023. Thermodynamics.

A study of the basic principles of classical thermodynamics and statistical mechanics. Prerequisites: PHYS 1014 or 2014; MATH 3034. **Spring of odd-numbered years.**

4041. Senior Laboratory.

Experiments in thermometry, solid state, atomic and molecular physics. Open only to Senior Physics students.

4043. Introduction to Quantum Mechanics.

An introduction to the postulates and rules of quantum mechanics. Prerequisite: PHYS 4003; MATH 3043. **Fall.**

4053. Mathematical Physics.

Mathematical methods applied to physics. Prerequisites: PHYS 1014 or 2014; MATH 3034. **Spring of odd-numbered years.**

4061. Introduction to Physics Research.

To introduce the student to the theory, techniques and methods of laboratory and library research. Open only to Senior Physics students. **Fall, Spring.**

4103. Advanced Modern Physics.

A continuation of PHYS 3004; an intermediate course in atomic, nuclear and solid-state physics. Prerequisite: PHYS 3004. **On Demand.**

4183. Electromagnetic Fields.

Vector analysis applied to electromagnetic fields; dielectric and magnetic materials; Maxwell's equations; radiation. Prerequisite: PHYS 3034; MATH 3043. **Spring of odd-numbered years.**

4263. Advanced Mechanics.

A continuation of PHYS 4003; rigid bodies, moving coordinate systems, continuous media, Lagrange's equations. Prerequisite: PHYS 4003; MATH 3034, 3043. **On Demand.**

4801-4893. Individual Study, Group Study, Research.

This course is offered to provide competent students with an opportunity to do independent study and research or to study special topics. **On Demand.**

W.H. SUTTON SCHOOL OF SOCIAL SCIENCES

Harold F. Bass, Jr., Dean

The School consists of the Departments of History, Political Science, Psychology, and Sociology. It also offers courses in Geography. Our mission is to pursue the study of behavior and experience in systematic fashion, conveying through curricula the knowledge and methods that characterize our disciplines.

The School embraces and advances the liberal arts tradition. Our faculty aim is to empower students with life-long learning commitments and skills that will enable them to pursue and prosper in a wide variety of careers upon graduation. The faculty prepare aspiring students for post-graduate study to earn advanced degrees that many vocations rooted in the social sciences require. We encourage our students to become enlightened, engaged citizens of their communities, and we endeavor to instill in them an ethic of service to God and humanity.

Pre-Professional Curriculum

Students planning professions in government, public administration, social work and other areas in the social sciences should plan to concentrate the major portion of their work in the Sutton School of Social Sciences. Special attention and counseling are provided for those students whose vocational objectives require knowledge in these areas. This school maintains contact and exchanges information with graduate programs to insure the student maximum preparation opportunities.

Pre-Law Curriculum

Law schools require a bachelor degree of those who apply for admission. While no particular major is specified for pre-law students, it is recommended that they select courses from history, political science, psychology, sociology, economics, accounting, business administration, philosophy, speech communication and English. A Pre-law advisor is available.

4103. Special Methods in Social Studies.

A course designed to provide theory and methodology in social studies teaching. It emphasizes the use of the unit plan and problem approaches in teaching social studies and in providing learning. Prerequisite: EDFN 2003. **Spring of odd-numbered years.**

4951-6. Workshop.

Provides upper division students an opportunity to approach current topics and problems in a cooperative concentrated manner. **On Demand.**

Department of History (HIST)

Professor T. Auffmanberg¹, Chair

Professor R. Granade

Assistant Professors C. Mortensen, K. Motl, E. Goddard

Visiting Assistant Professor B. Hicks

History studies humanity's past endeavors and achievements with particular concentration on its relevance to contemporary society. The study of history promotes an understanding of the interaction of individuals and groups and their effect on government, culture, religion, economics and society.

The history curriculum provides valuable research, writing and analytical skills that prepare one for a variety of careers in fields such as law, teaching, business, government service, communications, public history, social services, religion, and library and archival science. Many history students choose to attend graduate or professional school for further career development.

Requirements for a major in History: A major in History includes the following courses, in which a 2.000 GPA is required for graduation: HIST 1003, 1013, 2003, 2013, 3043, the Topical Seminar (HIST 4703-4793), and additional courses in the Department to total a minimum of twenty-seven hours. Three Junior-Senior hours must be taken in both United States History and in other areas of history (Neither Topical Seminar nor Research Seminar may apply to this aspect of the requirement). Students majoring in History must achieve a grade of C or higher in HIST 3043 (Research Seminar) and HIST 47_3 (Topical Seminar).

Requirements for a major in History (Social Studies Teaching Emphasis): SSCI 4103; HIST 1003, 1013, 2003, 2013, 3043, 4163, a Topical Seminar (4703-4793), and additional courses in History to total twenty-seven hours. Three Junior-Senior hours must be taken in an approved World History course; PSCI 2013, 2033; ECON 2013; six hours in Geography; SOCI 1013, 4023. In addition, students must complete a second major in education as outlined on page 82.

Requirements for a minor in History: A minimum of eighteen hours in the Department including at least six hours of United States History, six hours in other areas of history.

1003. World History to 1600.

A survey of major world civilizations from the dawn of recorded events to 1600 with emphasis on the interrelationship of ancient cultures, medieval civilization and the Renaissance and Reformation era. **Fall.**

1013. World History Since 1600.

Major developments in world civilizations since 1600 are surveyed with an emphasis on colonialism, the Enlightenment, modern ideologies, the great world wars and interrelated cultural movements. **Spring.**

2003. United States History to 1877.

Survey of the interplay of forces that have brought the evolutionary development of American economic, cultural, and political institutions from 1492 to 1877. **Fall.**

2013. United States History Since 1877.

Survey of the interplay of forces that have brought the evolutionary development of American economic, cultural and political institutions from 1877 to the present. **Spring.**

3013. Renaissance and Reformation.

A survey of the major political, social, economic, cultural and intellectual trends in Europe 1300-1600 with special emphasis upon the Protestant and Catholic reformations of the sixteenth century. **Spring of even-numbered years.**

3023. Revolutionary Europe, 1789-1914.

A survey of the major political, social, cultural, intellectual and economic revolutions that transformed Europe during the era of its greatest world ascendancy. **On Demand.**

3033. Britain to 1660.

Department of Political Science (PSCI)

Professor D. Reed¹, Chair
Professors H. Bass, K. Brennan, D. Grant
Assistant Professor S. Thomason

Political Science is the systematic study of government and politics, of institutions and behavior concerned with the struggle for power to make and influence authoritative decisions, and with the process of authoritative control in society.

The study of Political Science has value for civic education; for responsible preparation for jobs and careers as “representatives” of the political system, including law, law enforcement, public administration, civil service and education, as well as elective and appointive public office; and for a foundation for graduate training in the discipline.

Requirements for a major in Political Science: A major in Political Science includes the following courses: PSCI 2023; 2043; 2123; 3053 or 3063; and additional courses in the Department to total at least twenty-seven hours. A 2.000 GPA in these courses is required for graduation. Students planning graduate study are strongly encouraged to obtain additional training in foreign languages, research methods and statistics.

Requirements for a minor in Political Science: A minor in Political Science includes the following courses: PSCI 2023; 2043 or 2123; 3053 or 3063; and additional courses in the Department to total at least eighteen hours.

4053. Topical Seminar.

This course examines a specialized domain of psychology not covered in the department's general course offerings. Students will explore a variety of primary and secondary sources. Because topics vary, a student may take up to three different topics for credit. Prerequisite: PSYC 1013 and junior or senior standing. **Fall, Spring.**

4061. Senior Research.

A course designed to give the student additional experience in conducting individualized psychological experimentation. Prerequisite: PSYC 3053. **On Demand.**

4801-4893. Special Studies in Psychology.

A course designed to broaden the student's psychological knowledge through directed study or research. Prerequisites: Junior or Senior standing, and instructor's permission. **On Demand.**

Department of Sociology (SOCI)

Professor R. Mills, Chair
Assistant Professor E. Kelly

Sociology is the scientific study of human behavior. It studies the processes and patterns of individual and group interaction, the forms of organization of social groups, the relationships among them and group influences on individual behavior. Although sociology includes the study of all forms of social interaction and interrelationships, it has focused on the understanding of group or other collective factors in human behavior.

Training in sociology and social psychology aids the student in achieving effective participation and leadership in the various social groups of the community. Sociology, as professional and pre-professional training, also provides a broad liberal background for the understanding of, and professional employment in, the field of sociology, social work, higher education, religious-related vocations as well as business, engineering, government, law, medicine, teaching and administrative leadership at all levels.

The primary purposes of the Department are: (1) to achieve an understanding of persons as social beings, (2) to train and develop competent scholars who will carry on independent research on basic social issues throughout their lives, and (3) to develop mature persons who will assume significant roles in four specific occupational callings: sociology, religious-related vocations, higher education, and social work.

Requirements for a major in Sociology includes the following courses, in which 2.000 GPA average is required for graduation: SOCI 1003, 1013, 2013, 2023, 2033, 3003, 3013, 3033, 4053, 4103, 4201; an additional three hours are to be taken in Political Science.

Requirements for a minor in Sociology: SOCI 1003, 2013, 3013, 3043, at least six additional hours in the Department.

1003. Introduction to Sociology.

An introduction to the systematic study of society; an overview of sociology. An orderly approach to the analysis and explanation of human behavior as it is manifest in culture, personality and social organization. Emphasis is placed on the acquisition of basic conceptual tools and sociological principles and their application in the decision making process. **Fall, Spring.**

1013. Social Problems.

Sociological knowledge is applied to the current social problems including the student's practical adjustment to college life. The serious sociology student is introduced to the nature, causes and treatment of basic social problems such as drinking in college, the relationship between dating and divorce, race relations, delinquency, poverty and the complex problems involved in making an occupational or marital choice. **Spring.**

2013. Social Factors in the Development of Personality.

Theories of personality organization; social development and behavior of the person in an environment of social conflict; organizing concepts used in observing and interpreting character development and behavior; the nature of culture and how it controls and orders human behavior; the structure and function of the human nervous system in relation to behavior. **Fall.**

2023. Introduction to Social Services.

An overview of past and present services available in the American society, and the reasons for these services rather than others. Consideration will be given to the attitudes and skills needed in administering social services, if they are to have a positive effect on the lives of the recipients. **Fall.**

2033. Research Methods.

Techniques of research in sociology including research design, questionnaire construction, collection of data, processing, coding, analysis and a brief review of statistics as a tool in social research; the interview as a fundamental tool in investigation and field exploration; graphic presentation of research findings plus the organization and analysis of data. Prerequisites: SOCI 1003, 1013. **Fall.**

3003. Statistics for Sociological Research.

An introductory course in the use of univariate and multivariate techniques for analyzing social research data. The course will focus on the derivation, computation, and interpretation of these techniques. Prerequisite: SOCI 2033. **Fall.**

3006. Supervised Hospital Ministry.

A supervised practicum designed to help students in religion, psychology or sociology to increase proficiency in inter-personal skills and ministry in a hospital environment.
