New Items:

Have you seen this? ovrtur.com

From the website: "Ovrtur catalogs musicals from New York, London and beyond. Within [ovrtur] you'll find 1000s of shows, productions of those shows, recordings of those shows, people and companies that made them and the stages where they played." It's fun to browse, is well organized, and provides a great jumping-off place toward YouTube.

New Trivia Q:

Which music faculty /staff member is also a [ceramicist](#) who dreams of living in Italy?

In an attempt to make the music library more usable, we have placed a few labels on the shelves to help you find things. Thanks so much for the suggestion, Dr. Isenhour! Please let the music librarian know what else might be done to improve our little music library.
